Docket No. AD14-14-000

NOTICE GRANTING EXTENSION OF TIME

(February 9, 2015)

On January 29, 2015, the American Public Power Association, Electric Power Supply Association, and National Rural Electric Cooperative Association (collectively, Trade Associations) filed a motion requesting a 15-day extension of time (motion), until March 6, 2015, to submit comments in response to the Commission's Notice Inviting Post-Technical Workshop Comments (Notice) issued January 16, 2015 in the above-referenced proceeding. In their motion, Trade Associations state that the complicated and technical nature of this proceeding and extensive high level proceedings and events before the Commission warrant an extension. Trade Associations argue that an extension of time will help to develop an extensive record to assist Commission action in addressing the issues in this proceeding.

On February 2, 2015, California Independent System Operator Corporation, Midcontinent Independent System Operator, Inc., New York Independent System Operator, Inc., PJM Interconnection, L.L.C., and Southwest Power Pool, Inc. filed an answer in support of Trade Associations' motion.

On February 3, 2015, ISO New England Inc. (ISO-NE) filed a motion requesting a 29-day extension of time, until March 20, 2015, to apply only to questions 5 through 12 of the Commission's Notice. ISO-NE argues that questions 5 through 12 are substantially more complex than questions 1 through 4 and could involve months or more of detailed research and analysis to answer thoroughly. ISO-NE states that, with an extension of approximately one month, ISO-NE could provide the Commission with useful answers to outline the analytical work necessary to address these issues and potential solutions.

Upon consideration, notice is hereby given to all interested persons that the deadline to submit comments is extended to and including March 6, 2015.

Secretary.
