Reference: Tariff Revisions to Implement Modified Requirements for External  
Installed Capacity Suppliers

On June 11, 2019, the New York Independent System Operator, Inc. (NYISO) filed revisions to its Market Administration and Control Area Services Tariff,<sup>1</sup> to implement modified requirements for External Installed Capacity Suppliers and External Generators that are associated with an Unforced Capacity sale to New York using Unforced Capacity Delivery Rights or External-to-ROS Deliverability Rights. NYISO states that the proposed changes are expected to enhance NYISO's access to energy from External Capacity Suppliers and to reduce the risk that capacity-backed transactions from External Capacity Suppliers to the New York Control Area (NYCA) will be curtailed. NYISO adds that this improvement will enhance NYCA grid reliability by better aligning External Capacity Supplier obligations with the requirements that apply to Installed Capacity Suppliers located in NYCA.

Pursuant to the authority delegated to the Director, Division of Electric Power Regulation – East, under 18 C.F.R. § 375.307, your submittal is accepted for filing, effective August 12, 2019, as requested.

The filing was noticed on June 12, 2019, with comments, interventions and protests due on or before July 2, 2019. Pursuant to Rule 214 (18 C.F.R. § 385.214 (2018)), to the extent that any timely filed motions to intervene and any motion to intervene out-of-time were filed before the issuance date of this order, such interventions
