

UNITED STATES OF AMERICA  
FEDERAL ENERGY REGULATORY COMMISSION

New York Independent System Operator, Inc.

Docket No. ER16-1404-000

NOTICE OF EXTENSION OF TIME

(March 17, 2020)

On March 11, 2020, the New York Independent System Operator, Inc. (NYISO) filed a request for a 180-day extension of time, until September 21, 2020, to submit tariff revisions in compliance with the Commission's directives in its February 20, 2020 order on compliance (February Order) in the above-captioned proceeding.<sup>1</sup> NYISO contends that it needs additional time to accommodate the directives in the February Order concerning the self-supply exemption to NYISO's buyer-side market power mitigation rules. NYISO adds that additional time will avoid delaying NYISO's work on a number of other high-priority near-term enhancements to the capacity market and its buyer-side market power mitigation rules. NYISO states that there is no indication that any resource will seek a self-supply exemption in the near future and that the requested extension will allow NYISO to submit a compliance filing in advance of the next interconnection class year.

Upon consideration, notice is hereby given that NYISO's request for extension is granted and the deadline for NYISO to submit its compliance filing is extended to and including September 21, 2020.

Kimberly D. Bose,  
Secretary.
