Reference: Small Generator Interconnection Agreement, Service Agreement No. 2553

On September 29, 2020, New York Independent System Operator, Inc. (NYISO) and New York State Electric & Gas Corporation (NYSEG) (together, Joint Filing Parties) submitted for filing an executed Small Generator Interconnection Agreement (SGIA) between NYISO, NYSEG, and Janis Solar, LLC (Janis) to facilitate the interconnection of the 20 MW Janis Solar Project to the New York State Transmission System.¹ Joint Filing Parties state that the SGIA contains non-conforming language compared to the language contained in the *pro forma* SGIA in Attachment Z of the NYISO Open Access Transmission Tariff (OATT). Specifically, NYSEG and Janis have agreed that Janis will be responsible for constructing certain Connecting Transmission Owner's Interconnection Facilities associated with the Facility. Accordingly, the parties agreed to modify Section 1.5.3 of the SGIA to clarify that the Interconnection Customer, Janis, can construct Connecting Transmission Owner's Interconnection Facilities with the agreement of all parties. Additional nonconforming provisions are contained in Attachment 5 of the SGIA.
