Attention: David Allen, Senior Attorney
New York Independent System Operator, Inc.

Reference: Tariff Revisions

Dear Mr. Allen:

On March 26, 2010, New York Independent System Operator, Inc. (NYISO) filed revised tariff sheets¹ with proposed revisions to both its Market Administration and Control Area Services Tariff and its Open Access Transmission Tariff (collectively “NYISO’s Tariffs”) to clarify certain meter data posting and customer review timelines in the provisions in NYISO’s Tariffs for billing and payment. Specifically, NYISO has revised both NYISO Tariffs to: (1) clarify what meter data will be used for invoices, and reserving the right to use estimates to settle an invoice (NYISO’s Tariffs already allowed use of estimates in whole or in part, now the language states “in accordance with ISO Procedures); and (2) increased times for ISO posting of LSE bus metering data from 71 to 75 days, ISO posting of updated and corrected LSE bus metering data from 131 to 135 days, and decreased customer review and challenge time from 14 to 10 days.

¹ Second Revised Sheet Nos. 80, 83.01G(1) and 83.01G(2) to New York Independent System Operator, Inc., FERC Electric Tariff, Original Volume No. 1, and Second Revised Sheet Nos. 188 and 191.01C(2) to New York Independent System Operator, Inc., FERC Electric Tariff, Original Volume No. 2.
