- 2.2 The Production Facility shall include all facilities and equipment up to the Interconnection Point as indicated on Exhibit A. Producer agrees that the installation of the electrical equipment and the operation of the Production Facility must meet or exceed the standards of Good Utility Practice, all requirements of Bulletin No. 756 and the NYISO; provided, however, that in the event of a conflict between the requirements, rules and regulations of the NYISO and the requirements of Bulletin No. 756, the requirements, rules and regulations of the NYISO shall govern..
- 2.3 Producer recognizes that nothing in this Agreement or Producer's financial support of the Interconnection Facility confers upon Producer any right to transmit electricity over the Electrical System, which right may be addressed in separate agreements between the Parties.
- 2.4 Niagara Mohawk shall use Good Utility Practice to own, operate and maintain the

Interconnection Facility. Niagara Mohawk does not, however, guarantee or warrant uninterrupted availability of the Interconnection Facility or the Electrical System. Any curtailment of deliveries over the Interconnection Facility or the Electrical System shall be governed by the terms and conditions of the NYISO OATT, or any other tariffs, approved by a regulatory body having jurisdiction.

Niagara Mohawk agrees to inform Producer on the first business day of each month and at such other times as Producer reasonably requests of the status of all design, engineering, procurement, and construction activities performed by Niagara Mohawk or a third party selected by Niagara Mohawk, including, but not limited to, the following information: progress to date; a description of upcoming scheduled activities and events; the delivery status of all ordered equipment; a revised budget and cost report; and the identification of any event which Niagara Mohawk reasonably expects may delay construction of the Upgrades or the Interconnection Facility.
- 4.2.4 No design, engineering, procurement, or construction activities shall be undertaken by Niagara Mohawk prior to Producer's receipt of the Interconnection Study and until such time as Producer issues a written notice to proceed with such activities and a money deposit received by Niagara Mohawk for services to be rendered.
- 4.2.5 Producer reserves the right, upon thirty (30) days prior written notice to Niagara Mohawk, to suspend at any time all work by Niagara Mohawk associated with the

design, engineering, procurement, construction of the Upgrades or with any design, engineering, and construction activities relating to the Interconnection Facility. Niagara Mohawk hereby agrees to execute such grants, deeds, licenses, instruments or other documents as Producer may require to enable it to record such rights of way, easements, and licenses. To the extent that Producer requires access rights to Niagara Mohawk property for other reasons, Producer and Niagara Mohawk will negotiate the terms of such additional access rights as the need arises.
- 4.3.2 Producer hereby grants to Niagara Mohawk all necessary access, and licenses, including adequate and continuing rights of access to Producer's property, as is necessary for Niagara Mohawk to construct additional facilities as may be required, to operate, maintain, replace, and remove the Interconnection Facility and to read meters in accordance with the terms of this Agreement and to exercise any other of its obligations under this Agreement. Producer hereby agrees to execute such grants, deeds, licenses, instruments or other documents as Niagara Mohawk may require to enable it to record such rights of way, easements, and licenses. To the extent that Niagara Mohawk requires access rights to Producer property for other reasons, Producer and Niagara Mohawk will negotiate the terms of such additional access rights as the need arises.

ARTICLE V

OPERATION, MAINTENANCE, AND MODIFICATION OF FACILITIES

5.1 OPERATION AND MAINTENANCE OF INTERCONNECTION FACILITY

- 5.1.1 Niagara Mohawk, at its own expense, shall operate, maintain and repair (repair includes, but is not limited to, replacement of existing equipment when required

due to failure) the Interconnection Facility in accordance with Good Utility Practice.

- 5.1.2 Producer, at its own expense, will operate, maintain and repair (repair includes, but is not limited to, replacement of existing equipment when required due to failure) the Production Facility in accordance with Good Utility Practice. Producer will notify Niagara Mohawk of the schedule for scheduled outages of the Production Facility for the upcoming year in accordance with, as may be applicable, Bulletin No. 756, Good Utility Practice, NYISO practices, where applicable, and Niagara Mohawk operating instructions and, upon making any changes to such schedules thereafter, shall promptly notify Niagara Mohawk of any such changes.
- 5.1.2a Producer, at its own expense, will operate, maintain and repair (repair includes, but is not limited to, replacement of existing equipment when required due to failure) the Manufacturing Plant. Producer will notify Niagara Mohawk of the schedule for scheduled plant maintenance or similar planned occasions when the Manufacturing Plant will not require all or a substantial portion of the Retail Tariff electricity distribution service from Niagara Mohawk for the upcoming year in accordance with the Retail Tariff and Niagara Mohawk standard practices, and upon making any changes to such schedules thereafter, shall notify Niagara Mohawk of any such changes.
- 5.1.3 Producer agrees, at the expense of Producer, to confer to coordinate with Niagara Mohawk, the planning and scheduling of any outages and any changes thereto in a manner that will minimize the effect on the Electrical System, consistent with Good Utility Practice, Bulletin No. 756, the Retail Tariff, NYISO practices, where applicable and Niagara Mohawk Operating Instructions.
- 5.1.4 The Parties agree to confer regularly to coordinate the planning and scheduling of preventative and corrective maintenance in a manner that will preserve and maintain the reliability of the Electrical System and the Production Facility. The Parties shall conduct preventative maintenance and corrective maintenance activities on their Facilities at each party's own cost, as scheduled and planned, or as they become necessary, consistent with Good Utility Practice.
- 5.1.5 If Producer requests that Niagara Mohawk perform maintenance during a time period other than as scheduled by Niagara Mohawk, Niagara Mohawk will use Commercially Reasonable Efforts to meet Producer's request as long as meeting the request would not reasonably be expected, as determined by Niagara Mohawk, to have an adverse impact upon Niagara Mohawk's operations or the operations of Niagara Mohawk's customers. Notwithstanding the foregoing, should Producer request to perform maintenance that Niagara Mohawk in good faith determines may have an adverse impact on Niagara Mohawk's operations or

the operations of Niagara Mohawk's customers, and if such maintenance may be delayed until after such period, Niagara Mohawk may reject Producer's scheduling request. Producer shall reimburse Niagara Mohawk for all costs reasonably incurred by Niagara Mohawk related to satisfying Producer's request.

5.2 MODIFICATION OF THE INTERCONNECTION FACILITY

- 5.2.1 Niagara Mohawk, at its own expense, shall retain the discretion to determine whether, when, and in what manner any modifications to the Interconnection Facility are required by Good Utility Practice and, as soon as reasonably practicable, but not less than three (3) months in advance except in the cases of Emergency Conditions, shall advise Producer when it makes such a determination and whether performing the modification, or the modification itself, is expected to interrupt the flow of power over the Interconnection Facility.
- 5.2.2 If a modification to the Electrical System or Interconnection Facility is required to support the operations of Producer, Niagara Mohawk shall construct, operate, maintain and repair the modification at Niagara Mohawk's expense unless the modifications are a result of a Producer Modification which requires changes to the Electrical System or Interconnection Facility.
- 5.2.3 Producer shall give Niagara Mohawk three months advance written notice of any planned Modifications to the Production Facility.
 - 5.2.3.1 Such notice shall include plans, specifications, information and operating instructions relating to the impact of planned Modifications on the Electrical System and Interconnection Facility or Niagara Mohawk's electric operations.
 - 5.2.3.2 If Niagara Mohawk determines that such Modification would have a material adverse effect upon Niagara Mohawk's operations or the operations of Niagara Mohawk's customers, then Niagara Mohawk shall so notify the Producer. In the event that Producer elects to continue with such Modification, Niagara Mohawk shall be entitled to designate the earliest date upon which the Producer may begin the Modification, provided however, that Niagara Mohawk shall not designate a beginning date that is later than nine (9) months after receipt of the notice mandated by subsection 5.2.3. The Producer shall be responsible for all costs associated with such Modification, including any costs incurred by Niagara Mohawk associated with ensuring that the Electrical System and Interconnection Facility would be compatible with such Modification.

5.2.3.3 Notwithstanding the foregoing, should Producer propose a schedule for performing a Modification that Niagara Mohawk in good faith determines may adversely affect Niagara Mohawk's operations or the operations of Niagara Mohawk's customers, Niagara Mohawk may reject such schedule.

5.2.3.4 All such Modifications to the Production Facility, Electrical System or the Interconnection Facility, and any resulting effects on the Electrical System shall meet the rules and requirements of NERC, NPCC, NYSRC, the NRC, and the NYISO or their respective successors, the standards of Good Utility Practice, the Retail Tariff and the requirements of Bulletin No. 756; provided, however, that in the event of a conflict between the rules and requirements of the NYISO and the requirements of Bulletin No. 756, the rules and requirements of the NYISO shall govern.

5.3 RELOCATION. REARRANGEMENT. ABANDONMENT OR RETIREMENT.

5.3.1 If, during the term of this Agreement, Niagara Mohawk determines that it is required by Good Utility Practice to relocate, rearrange, abandon, or retire the Electrical System or the Interconnection Facility, Niagara Mohawk shall use good faith efforts to give Producer no less than one (1) year advance written notice and shall, to the extent consistent with Good Utility Practice, defer such action, to the extent reasonably practicable, so that Producer's operation of the Production Facility may continue with minimal interruption.

5.3.2 If Niagara Mohawk is required or ordered by governmental authority or the NYISO to relocate, rearrange, abandon, or retire the Electrical System or the Interconnection Facility, Niagara Mohawk shall promptly give Producer written notice of such requirement or order.

5.3.3 Due to the Unique Configuration, Niagara Mohawk shall be responsible for the relocation, rearrangement, abandonment, or retirement of the Electrical System or the Interconnection Facility unless due to a Modification to the Production Facility.

ARTICLE VI POWER DELIVERIES

6.1 METERING

6.1.1 Niagara Mohawk shall, at Producer's expense, provide, own, and maintain compatible revenue quality metering equipment. Such metering equipment shall record the delivery of energy, including reactive power, in such a manner so as to measure total facility power output and consumption. Producer shall provide

suitable space within its facilities for installation of such metering equipment.

- 6.1.2 Producer, at its own expense, shall provide all necessary communication equipment and transmission mediums such as telephone lines and any necessary protection for such communication equipment and related equipment, and shall furthermore be responsible for all communication required by Niagara Mohawk, the NYPSC or the NYISO. At Producer's expense, Niagara Mohawk shall purchase, own and maintain all telemetering equipment located at the Producer's facilities. Producer shall provide, install and own Niagara Mohawk approved or specified test switches in the transducer circuits that have been approved or specified by Niagara Mohawk. Producer shall be responsible for any and all costs involved in the relocation of communication circuits and transmission mediums that may be required by Niagara Mohawk, the NYPSC, or the NYISO from time to time.
- 6.1.3 All metering equipment installed pursuant to this Agreement and associated with the Production Facility may be routinely tested by Niagara Mohawk in accordance with Good Utility Practice and applicable Niagara Mohawk, NYPSC and NYISO criteria, rules and standards.
- 6.1.4 Electricity delivered to the Delivery Point by Producer hereunder shall be measured by electric watt hour meters of a type approved by the NYPSC. These metering facilities will be installed, owned, and maintained by Niagara Mohawk and shall be sealed by Niagara Mohawk, with the seal broken only upon occasions when the meters are to be inspected, tested or adjusted and representatives of both Niagara Mohawk and Producer are present. The metering and installation costs are to be borne by Producer. The meters shall be maintained in accordance with the rules set forth in 16 NYCRR Part 92, as amended from time to time, and with Good Utility Practice.
- 6.1.5 Niagara Mohawk will guarantee the installation of any meter and its accuracy for a period of one (1) year from the date that meter is installed; provided, however, that this guarantee does not cover any incidental or consequential damages that the Producer may suffer as a result of the failure of a meter to which this guarantee applies. Any repair or replacement required during the initial year will be at the expense of Niagara Mohawk. In the event that any meter is found to be inaccurate after the initial year, Niagara Mohawk will repair or replace the same as soon as possible at the expense of Producer. Each Party shall have the right at all reasonable times, upon not giving less than ten (10) days notice to the other Party for the purpose of permitting the other Party to be present at the inspection, to inspect, and test said meters and, if said meters are found to be defective, Niagara Mohawk shall adjust, repair or replace the same at the expense of the Producer, or if within the initial year, by Niagara Mohawk. Any test or inspection requested by a Party shall be at the expense of that Party.

- 6.1.6 Producer may elect to install its own metering equipment in addition to Niagara Mohawk metering equipment. Such metering equipment shall meet the requirements of 16 NYCRR Part 92, as may be amended from time to time. Should any metering equipment installed by Niagara Mohawk fail to register during the term of this Agreement, the Parties shall use Producer's metering equipment, if installed. On any day or days on which neither Party's metering equipment is in service, the quantity of energy delivered shall be determined in such manner as the Parties agree. Niagara Mohawk's meter(s) shall be read on a schedule compatible with Niagara Mohawk's normal meter reading schedule.
- 6.1.7 In the event Producer desires access to meter information, Producer, at its own expense, shall be responsible for purchasing and installing software, hardware and/or other technology that may be required to access such meter information. The software, hardware and/or other technology installed for this purpose shall be in compliance with any applicable NYPSC and Niagara Mohawk rules, requirements, or standards.
- 6.1.8 Producer grants to the employees and agents of Niagara Mohawk the right of access to Producer's premises at all reasonable times for such purposes of the reading of meters; inspection of meters, their wiring and related equipment; and installing, operating, maintaining, disconnecting and removing of any or all of the property belonging to Niagara Mohawk. If Producer refuses such access to the meters or other Niagara Mohawk equipment, or if access is obstructed or hazardous, Niagara Mohawk shall provide notice that Producer shall have five (5) days in which to permit access, or remove any obstruction or hazard. If, after five (5) days from the receipt of the notice, Producer does not permit access or remove any obstruction or hazard, it will constitute an event of breach, and Niagara Mohawk may take any action in accordance with this Agreement or the Retail Tariff, including disconnecting the Production Facility from the Transmission System in accordance with Good Utility Practice, after providing reasonable notice. At all times that Niagara Mohawk personnel are on Producer's premises, they shall use commercially reasonable efforts to avoid interfering with operations of the Production Facility and the Manufacturing Plant.

6.2 LOSSES

If the metering equipment and the Delivery Points are not at the same location, the metering equipment shall record delivery of Electricity in a manner that accounts for losses occurring between the metering points and the Delivery Points, which shall be calculated by Niagara Mohawk utilizing the Pennsylvania Transformer, Transformer Test Report conducted on July 28, 1958. The metering point, the Delivery Points, associated equipment and distance between the metering point and the Delivery Points shall be as set forth in Schedule A. If the metering points are changed to another location, losses in accordance with this section will be recalculated. In addition, Producer will be responsible for all costs associated with the change in metering points.

6.3 REACTIVE POWER SUPPORT

Producer agrees to provide reactive capability to regulate and maintain system voltage at the Delivery Points in conformance with Bulletin No. 756, the Retail Tariff or any applicable NYISO tariff or agreement at no cost to Niagara Mohawk. Producer may seek compensation for reactive power pursuant to the terms of any applicable NYISO tariff or agreement or in any market for reactive power.

6.4 ISLANDING

With reference to Bulletin No. 756, Niagara Mohawk reserves the right to require, allow or prevent the islanding of the Production Facility during Emergency Conditions. This Agreement is not intended to impair or supersede any rights of the NYISO to allow or prevent the islanding of the Production Facility.

6.5 NYISO PENALTIES

Producer shall be solely responsible and liable for any penalties or charges imposed by the NYISO or by other regulatory bodies and payment thereof, for any products derived or failure to provide such products from the Production Facility to the NYISO, or for any failure by Producer to comply with the regulations, rules, or procedures of the NYISO or other regulatory bodies.

ARTICLE VII INSURANCE PROVISIONS

7.1 Upon execution of this Agreement, each Party agrees to maintain at its own expense insurance policies issued by reputable insurance companies reasonably acceptable to the other Party which provide insurance coverage which meets or exceeds the following requirements:

7.1.1 Workers Compensation and Employers Liability Insurance as required by the State of New York. If required coverage shall include the U.S. Longshoremen's, and Harbor Workers Compensation Act & the Jones Act.

If a change in the Unique Configuration occurs, this Agreement will terminate immediately.
- 11.2 This Agreement shall not merge with or be terminated or superseded by any future agreement between the Parties that does not specifically so provide.

Before instituting proceedings before FERC to terminate the Agreement, either Party must give written notice to the other Party of the reasons for termination. Billing disputes arising from retail service to Producer shall be governed by the Retail Tariff or applicable contracts.

- 11.5 Termination of this Agreement shall not relieve Producer or Niagara Mohawk of any of its liabilities and obligations arising hereunder prior to the date termination becomes effective, and Producer or Niagara Mohawk may take whatever judicial or administrative actions as appear necessary or desirable to enforce its rights hereunder. The rights specified herein are not exclusive and shall be in addition to all other remedies available to either Party, either at law or in equity, for default or breach of any provision of this Agreement; provided, however, that in no event shall Niagara Mohawk or Producer be liable for any incidental, special, indirect, exemplary or consequential costs, expenses, or damages sustained by the other, as provided for in Article XXI hereto.

- 12.2 The Party claiming force majeure shall give notice to the other Party of the occurrence of force majeure no later than ten (10) business days after such occurrence and shall use due diligence to resume performance or the provision of service hereunder as soon as practicable. The provisions of this paragraph shall survive termination of this Agreement.
- 13.3 In the event that the claims, damages, losses, judgments, or settlements are the result of the negligence of both Parties, each Party shall be liable to the extent or degree of their respective negligence, as determined by mutual agreement of both Parties, or in the absence thereof, as determined by the adjudication of comparative negligence.

- 13.4 The indemnifying Party shall take prompt action to defend and indemnify the other Party against claims, actual or threatened, but in no event later than the service of notice, summons, complaint, petition to other service of process against the indemnified Party alleging damage, injury, liability, or expense attributed in any way to the Agreement, the work or acts, fault, negligence, equipment, materials, properties, facilities, personnel, or property of the indemnifying Party, its agents, employees, contractors or suppliers.
