Re: *New York Independent System Operator, Inc.*, Docket No. ER16-120-____;
Amendment to Compliance Filing

Dear Secretary Bose:

On January 16, 2018, the New York Independent System Operator, Inc. (“NYISO”) submitted to the Federal Energy Regulatory Commission (“Commission”) a Compliance Filing to revise its Open Access Transmission Tariff (“OATT”) and its Market Administration and Control Area Services Tariff.¹ The NYISO has discovered that OATT Section 31.2, filed with a proposed effective date of October 20, 2015 in the Compliance Filing, inadvertently included tariff language that was proposed by the NYISO in other proceedings, and accepted by the Commission to be effective on effective dates subsequent to the October 20, 2015 effective date that the NYISO specified in its Compliance Filing.²

The NYISO hereby submits to the Commission a corrected version of OATT Section 31.2, effective October 20, 2015, with subsequently effective language removed, and three additional versions of the section with the October 20, 2015 effective language included, to be effective on each relevant subsequent effective date.³
