**Re: Consolidated Edison Company of New York, Inc., Docket No. ER20-\_\_\_\_-000;  
Notice of Termination of the PARs Facilities Agreement**

Dear Secretary Bose:

Pursuant to Section 35.15 of the regulations of the Federal Energy Regulatory Commission (“Commission”),<sup>1</sup> Consolidated Edison Company of New York, Inc. (“Con Edison”) respectfully submits this Notice of Termination of the PARs Facilities Agreement on behalf of the parties to the document memorializing the termination thereof.<sup>2</sup>

In 1993, members of the New York Power Pool (“NYPP”) and the PJM Group (*i.e.*, identified “PJM classic” transmission owners) executed an agreement requiring Consolidated Edison Company of New York, Inc. (“Con Edison”) to purchase, install, own, and maintain two phase angle regulators (“PARs”) at the Con Edison Ramapo Substation for the purposes of controlling power flows on the 500 kV Hopatcong-Ramapo (formerly referred to as the Branchburg-Ramapo) 5018 transmission line (the “PARs Facilities Agreement”). The PARs Facilities Agreement provided for the NYPP members and PJM Group to reimburse Con Edison for the annual charges on the plant in service and for the expenses incurred in the installation, operation, and maintenance of the Ramapo PARs (the “Ramapo PARs costs”).

Effective October 14, 2019, the parties to the PARs Facilities Agreement confirmed that the PARs Facilities Agreement, dated as of May 6, 1993, by and among them, as on file with the Commission (in Docket No. ER93-640), is terminated.

<sup>1</sup> 18 C.F.R. § 35.15.

<sup>2</sup> The New York Independent System Operator, Inc. (“NYISO”) is submitting this filing in FERC’s e-filing system on behalf of Con Edison. The burden of supporting this filing rests on Con Edison, the sponsoring party. The NYISO takes no position on any substantive aspect of the filing at this time. Capitalized terms not otherwise defined herein shall have the meaning specified in the NYISO Open Access Transmission Tariff (“OATT”).

In 2017, the Commission accepted revisions to Rate Schedule 1 of the NYISO OATT such that provisions describing Con Edison's recovery of Ramapo PARs costs, the transparency of the Ramapo PARs costs to NYISO's Transmission Customers, and the retirement or replacement of the Ramapo PARs were incorporated into the ISO Tariffs.<sup>3</sup> Today, NYISO's Transmission Customers pay Con Edison's cost of owning, maintaining, and operating two Ramapo PARs.<sup>4</sup> Rate Schedule 1 of the NYISO OATT requires Con Edison to continue to calculate the applicable charges for the Ramapo PARs using the procedures described in the PARs Facilities Agreement. Such obligations will continue to apply going forward.<sup>5</sup>
