Re: *New York Independent System Operator, Inc.*, Amendment to Compliance Filing
Submitting Technical Corrections to Electronic Tariff Records; Docket No.
ER19-467-00_.

Dear Secretary Bose:

On September 3, 2020, the New York Independent System Operator, Inc. (“NYISO”) submitted to the Federal Energy Regulatory Commission (“Commission”) an Errata¹ to its August 12, 2020, Compliance Filing Establishing an Effective Date for its Energy Storage Resource Participation Model (the “September 2020 Filing”).² The September 2020 Filing remedied inadvertent errors in Market Administration and Control Area Services Tariff (“Services Tariff”) Sections 2.18 (correcting the omission of Section 2.18 from the August 12, 2020, Compliance Filing), and 23.2 (merging language that the Commission accepted in Docket No. ER19-467-000, *et al.*, with language the NYISO proposed to become effective before September 8, 2020, but that the Commission had not yet accepted, in Docket No. ER20-1718-000, *et al.*). The September 2020 Filing requested effective dates of August 26, 2020 for Section 2.18 and September 8, 2020 for Section 23.2. The NYISO hereby amends the September 2020 Filing to remove language proposed in Docket No. ER20-1718-000, *et al.*, from the version of Services Tariff Section 23.2 included in the September 2020 Filing. The versions of Services Tariff Sections 2.18 and 23.2 submitted in this filing supersede those submitted with the September 2020 filing, and maintain the effective dates of August 26 and September 8, 2020, respectively.

I. List of Documents Submitted

The NYISO submits the following with this filing letter:

1. Clean versions of Services Tariff Sections 2.18 and 23.2 with effective dates of

¹ *New York Indep. Sys. Operator, Inc.* September 3, 2020 Errata to Compliance Filing Establishing an Effective Date for the Energy Storage Resource Participation Model, Docket No. ER19-467-007.

² *New York Indep. Sys. Operator, Inc.* August 12, 2020 Compliance Filing Establishing an Effective Date for the Energy Storage Resource Participation Model, Docket No. ER19-467-000, *et al.*

August 26, 2020, and September 8, 2020, respectively (“Attachment I”).

II. Description of Filing

The version of Services Tariff Section 2.18 included in this filing is identical to the version submitted with the September 2020 Filing, but is included herein to ensure completeness of the record.

The version of Services Tariff Section 23.2 submitted in this filing removes the tariff language that the Commission had not yet accepted in Docket No. ER20-1718-000 (but for which NYISO had proposed an effective date prior to September 8, 2020). The tariff modifications proposed in Docket No. ER20-1718-000, *et al.*, and included in the September 2020 Filing, were initially rejected by the Commission’s September 4, 2020 Order in that proceeding.³ Due to this initial rejection of the tariff modifications proposed in Docket No. ER20-1718-000, the NYISO submits this filing to correct the tariff records to accurately reflect the accepted version of Services Tariff Section 23.2 that was effective as of September 8, 2020.

III. Service List

The NYISO will send an electronic copy of this filing to the official representative of each party to this proceeding, to the New York Public Service Commission, and to the New Jersey Board of Public Utilities. In addition, a complete copy of this filing will be posted on the NYISO’s website at www.nyiso.com, and the NYISO will send an electronic link to this filing to the official representative of each of its customers and to each participant on its stakeholder committees.

³ *New York Indep. Sys. Operator, Inc.*, 172 FERC ¶ 61,206 (Sept. 4, 2020). The Commission ultimately accepted the NYISO’s filing upon a rehearing request, setting aside the September 4, 2020 Order and providing NYISO a compliance directive to file any necessary modifications to the originally proposed tariff revisions and selecting an effective date for these provisions. The NYISO submitted this compliance filing in Docket No. ER20-1718-004 on August 1, 2022, which the Commission accepted on August 30, 2022, with an August 1, 2022 effective date. *New York Indep. Sys. Operator, Inc.*, Docket No. ER20-1718-004 (Aug. 30, 2022) (unpublished letter order).

IV. Conclusion

The NYISO respectfully requests that the Commission accept this filing with effective dates of August 26, 2020 and September 8, 2020 for Services Tariff Sections 2.18 and 23.2, respectively.

Respectfully submitted,

/s/ Gregory J. Campbell
