Re: Joint Filing of an Executed Standard Interconnection Agreement for the Brookside Solar Project (Queue Position No. 880) Among the New York Independent System Operator, Inc., New York State Electric & Gas Corporation, and Brookside Solar, LLC; Request for Waiver of the 60-Day Notice Period; and Request for Critical Energy Infrastructure Information Designation; Docket No. ER25-\_\_\_\_-000

Dear Ms. Reese:

Pursuant to Section 205 of the Federal Power Act<sup>1</sup> and Section 35.13 of the Federal Energy Regulatory Commission's (the "Commission") regulations,<sup>2</sup> the New York Independent System Operator, Inc. ("NYISO") and the New York State Electric & Gas Corporation ("NYSEG") (together, the "Joint Filing Parties") hereby tender for filing an executed Standard Interconnection Agreement for the Brookside Solar project (NYISO Queue Position No. 880) among the NYISO, NYSEG, as the Connecting Transmission Owner, and Brookside Solar, LLC ("Brookside"), as the Interconnection Customer (the "Agreement").<sup>3</sup> The Agreement is labeled as Service Agreement No. 2899 under the NYISO's Open Access Transmission Tariff ("OATT").

The Joint Filing Parties respectfully request that the Commission accept the Agreement for filing. With the limited exceptions described in Part II of this letter, the Agreement conforms to the NYISO's *pro forma* Standard Interconnection Agreement ("Pro Forma IA") that is contained in Attachment HH to the OATT. Further, as described in Part III of this letter, the

<sup>2</sup> 18 C.F.R. § 35.13 (2025).

<sup>3</sup> Capitalized terms that are not otherwise defined in this filing letter shall have the meaning specified in Attachments S, X, or HH of the OATT, and if not defined therein, in the OATT and NYISO Market Administration and Control Area Services Tariff.

Joint Filing Parties respectfully request a waiver of the Commission's prior notice requirements<sup>4</sup> to make the Agreement effective as of June 26, 2025, which is the date of its execution. Finally, as described in Part IV of this letter, NYSEG requests that the diagrams included in the Agreement be protected from disclosure as Critical Energy Infrastructure Information.

## **I. Background**

Brookside is constructing a 100 MW solar generating facility to be located in Franklin County, New York (the "Facility"). Additional details regarding the Facility can be found in Appendix A of the Agreement. The Facility will interconnect to certain facilities of NYSEG that are part of the New York State Transmission System. The Point of Interconnection will be at NYSEG's 115 kV Line 911, approximately 3,000 feet from the Chateaugay Substation. Figure A-1 of the Agreement includes a one-line diagram showing the Point of Interconnection.

## **II. The Agreement Closely Conforms to the Pro Forma IA Contained in Attachment HH of the OATT**

The Agreement was fully executed on June 26, 2025, by the NYISO, NYSEG, and Brookside. The Agreement closely follows the language in the Pro Forma IA contained in Attachment HH of the OATT. However, the Agreement does contain limited variations from the Pro Forma IA that are described in this Part II. The Joint Filing Parties submit that the changes specified below satisfy the Commission's standard for variations from the Pro Forma IA, because unique circumstances exist that require a non-conforming agreement.<sup>5</sup> Therefore, the Joint Filing Parties respectfully request that the Commission accept these limited non-conforming changes.

### **A. Modifications to Address Phasor Measurement Unit Requirements**

Article 9.10 of the Pro Forma IA requires Interconnection Customers to install, at their expense, a phasor measurement unit ("PMU") on the low side of the step-up transformer, along with related PMU equipment, and to collect and transmit PMU data to the NYISO and to the Connecting Transmission Owner. The NYISO introduced the PMU requirements in its interconnection agreements in 2017 to enhance the NYISO's ability to monitor the transmission grid for the New York Control Area and to determine real-time grid stability margins.<sup>6</sup>

The PMU requirements require that the Interconnection Customer transmit the PMU data via the Connecting Transmission Owner's system. NYSEG, however, does not currently possess

<sup>6</sup> See *New York Independent System Operator, Inc.*, Letter Order, Docket No. ER18-80-000 (Dec. 7, 2017) (accepting NYISO's tariff revisions to improve its interconnection process, including the insertion of PMU requirements in Article 9.10 of the NYISO's *pro forma* Large Generator Interconnection Agreement).

the capability to obtain the data from Brookside or to transmit the data to the NYISO, and the NYISO is unable at this time to accept PMU data directly from Brookside. The parties therefore agreed to reserve Article 9.10 and not apply the PMU requirements to the Agreement. The Commission has previously accepted this change to NYISO's interconnection agreements.<sup>7</sup>

## **B. Modifications for Billing Arrangements**

Brookside and NYSEG have agreed to an alternative billing arrangement for Brookside to make advanced payments to NYSEG for NYSEG's work performed under the Agreement. Accordingly, the parties have agreed to modify Article 12.1 of the Agreement to reference the details of the alternative billing arrangement, which is set forth in Section 3 of Appendix B of the Agreement. The Commission has previously accepted this change to NYISO's interconnection agreements.<sup>8</sup>

## **III. Proposed Effective Date and Request for Waiver of the 60-Day Notice Period**

The Joint Filing Parties request an effective date of June 26, 2025, for the Agreement, which is the date of its full execution. The Joint Filing Parties respectfully request that the Commission waive its prior notice requirement to permit the requested effective date.<sup>9</sup> The Commission has previously permitted interconnection agreements to become effective upon the date of execution.<sup>10</sup>

## **IV. Request for CEII Treatment**

Pursuant to Sections 388.112 and 388.113 of the Commission's regulations,<sup>11</sup> NYSEG requests that the one-line diagrams included in Appendix A of the Agreement be protected from

<sup>9</sup> The Commission generally grants waiver of the 60-day prior notice requirement when a service agreement is submitted for filing within 30 days of the agreement's effective date. See Prior Notice Filing Requirements Under Part II of the Federal Power Act, 64 FERC ¶ 61,139 (1993).

disclosure as Critical Energy Infrastructure Information (“CEII”).<sup>12</sup> The diagrams contain detailed, one-line schematics of NYSEG’s facilities that, if disclosed, could pose a threat to the security and the reliability of the New York State bulk power system. The diagrams provide more than simply the general location of critical infrastructure. Unlike publicly available maps of power transmission lines and generation and substation facilities, the schematics show the exact nature and specific location of facilities used to maintain the reliability of the New York State bulk power system.

The diagrams, in NYSEG’s assessment, reveal such critical information related to the facilities depicted therein that, if disclosed, could be useful to a person seeking to disable the power grid. Therefore, the disclosure of the CEII diagrams would pose a threat to the reliability of the New York State bulk power system and the health and safety of New York residents. Moreover, the information revealed in these schematics reveal CEII, which the Commission has determined to be exempt from mandatory disclosure under 5 U.S.C. § 552(b)(7)(F). The diagrams have been omitted from the Public version of the Agreement included in this filing.

The Joint Filing Parties are electronically submitting a non-public version of this filing. The diagrams are included only in the non-public version of the Agreement in the filing. The non-public diagrams are marked: “**FIGURE CONTAINS CEII – DO NOT RELEASE PURSUANT TO 18 C.F.R. §§ 388.112 and 388.113.**” The non-public diagrams should be treated as CEII reviewable by Commission Staff. In accordance with the Commission’s April 14, 2017 notice on labeling of non-public information, each page of the non-public version of the filing is marked “**CUI//CEII.**”<sup>13</sup> Placeholders have been included in place of the non-public diagrams in the public version of the Agreement.

All communications relating to this request for privileged and confidential treatment should be addressed to NYSEG’s Counsel listed below.

---

<sup>12</sup> As required by Section 388.113(d)(1)(i) of the Commission’s regulations, NYSEG has described in the filing letter how the one-line diagrams in Appendix A satisfy the definition of critical energy infrastructure information as that term is defined in Section 388.113(c)(2). In addition, as required by Section 388.113(d)(1)(ii) the cover page of the filing letter and the relevant pages of the Agreement that contain critical energy infrastructure information are labelled as including CEII and marked DO NOT RELEASE, and a Public and CEII version of the Agreement are being filed with this letter. The CEII material is redacted in the Public version. Finally, as required by Section 388.113(d)(1)(i), NYSEG requests that the Commission designate the CEII material submitted on July 11, 2025, with the full five-year CEII designation provided for in Section 388.113(e)(1) as the information provided in the one-line diagrams will continue to satisfy the definition of critical energy infrastructure information for this entire period.

<sup>13</sup> See Notice of Document Labelling Guidance for Documents Submitted to or Filed with the Commission or Commission Staff (Apr. 14, 2017) (unreported).

**VI. Documents Submitted**

The Joint Filing Parties submit the following documents with this filing letter:

- A clean Public version of the Agreement (Attachment I);

---

<sup>14</sup> The NYISO respectfully requests waiver of 18 C.F.R. § 385.203(b)(3) (2025) to permit service on counsel in both Washington, D.C. and Richmond, VA.

- A blacklined Public version of the Agreement showing the changes from the Pro Forma IA (Attachment II);
- A clean CEII version of the Agreement (Attachment III); and
- The signature pages for the Agreement (Attachment IV).

## **VII. Service**

A complete copy of this filing will be posted on the NYISO's website at [www.nyiso.com](http://www.nyiso.com). The NYISO will send an electronic link to this filing to the official representative of each of its customers and to each participant on its stakeholder committees. In addition, the NYISO will send an electronic copy of this filing to the New York Public Service Commission and to the New Jersey Board of Public Utilities.

## **VIII. Conclusion**

Wherefore, the Joint Filing Parties respectfully request that the Commission accept the Agreement for filing with an effective date of June 26, 2025.

Respectfully submitted,
