Washington, D.C. 20426

Re: Docket No. ER26-____-000, Long Island Power Authority; 2026 Annual Transmission Revenue Requirement for Attachment 6 to Rate Schedule 10

Dear Secretary Reese:

In accordance with Section 31.5.5.4.5 of Attachment Y to its Open Access Transmission Tariff (“OATT”), the New York Independent System Operator, Inc. (“NYISO”),¹ on behalf of the Long Island Power Authority (“LIPA”), hereby submits this filing to the Federal Energy Regulatory Commission (“FERC” or “Commission”) to reflect the LIPA annual transmission revenue requirement (“ATRR”) for the 2026 rate year (*i.e.*, July 1, 2026 through June 30, 2027) under Attachment 6 to Rate Schedule 10 of the OATT (“LIPA 2026 Rate Year ATRR”).²

¹ As contemplated by Section 31.5.5.4.5 of Attachment Y to the OATT, because LIPA is a FERC non-jurisdictional utility, the NYISO submits this filing on LIPA’s behalf and solely in its role as administrator of the OATT. The NYISO takes no position on any substantive aspect of this filing at this time. The burden of supporting the proposed tariff amendments rests with LIPA, the sponsoring party. Capitalized terms that are not otherwise defined herein shall have the meaning set forth in the OATT (including Attachment 6 to Rate Schedule 10 of the OATT).

² The Commission accepted Attachment 6 for filing on June 24, 2026, with an effective date of June 30, 2026. Docket No. ER26-2410-000, *New York Independent System Operator, Inc.*, Delegated Letter Order (June 24, 2026). As noted in filing letter in that docket, the Commission has held that it will apply a “comparability standard,” rather than the standard under Section 205 of the Federal Power Act, when evaluating non-jurisdictional transmission tariffs such as LIPA’s Transmission Service Charge (“TSC”) under Attachment H to the OATT or its Regulated Transmission Facilities Charge (“RTFC”) under Rate Schedule 10 to the OATT. *See* Docket No. ER26-2410-000, *supra*, Proposed Tariff Revisions to Establish a Long Island Regulated Transmission Facilities Charge at 2-3 (April 30, 2026); *Central Hudson Gas & Electric Corp. et al*, 88 FERC ¶ 61,138, at 61,403 (1999); *New York Independent System Operator, Inc.*, 100 FERC ¶ 61,070 at P 3 (2002) (stating that LIPA’s “transmission tariffs are evaluated under a ‘comparability standard,’ rather than Section 205 of the FPA....”); and *New York Independent System Operator, Inc.*, 111 FERC ¶ 61,366 at P 12 (2005) (stating that LIPA’s TSC rates are also not subject to review under Section 206

I. List of Documents Submitted

On behalf of LIPA, the NYISO submits the following with this filing letter:

1. A clean version of the proposed revisions to the OATT (“Attachment I”); and
2. A blacklined version of the proposed revisions to the OATT (“Attachment II”).

II. Background

Attachment 6 to Rate Schedule 10 (Section 6.10.12) of the NYISO OATT provides for LIPA’s derivation and recovery of the costs for eligible transmission projects through the LIPA RTFC. Eligible LIPA projects that incur costs are included in the calculated ATRR. LIPA will provide, on an annual basis, the separate annual revenue requirement for each eligible project derived from the formula rate approved by the LIPA Board of Trustees (“LIPA Board”).

Pursuant to Section 6.10.12.2 of Attachment 6 to Rate Schedule 10, the NYISO, on behalf of LIPA, will annually submit a filing to the Commission updating the revenue requirement for each eligible project based on the formula rate approved by the LIPA Board.³

III. Description of Informational Filing

At the request of LIPA, the NYISO submits this filing to reflect the LIPA 2026 Rate Year ATRR in Table 1 of Section 6.10.12.4 to Attachment 6 of Rate Schedule 10. The LIPA 2026 Rate Year ATRR applies for the rate year commencing July 1, 2026 and extending through June 30, 2027.

The LIPA 2026 Rate Year ATRR was calculated by LIPA in accordance with the LIPA Board-approved formula rate. As shown in the revised Table 1 of Section 6.10.12.4, the ATRR for LIPA Long Island PPTN Project Facilities for the 2026 rate year (*i.e.*, July 1, 2026 through June 30, 2027) is \$3,708,469.16.

The calculation of the LIPA 2026 Rate Year ATRR including all associated workpapers is available on LIPA’s website at www.lipower.org.

IV. Effective Date

On behalf of LIPA, the NYISO respectfully requests that the Commission accept this update to Attachment 6 of Rate Schedule 10 to reflect the LIPA 2026 Rate Year ATRR

of the FPA). At the request of LIPA, the NYISO therefore makes this filing subject to the Commission’s comparability standard.

³ The LIPA Board approved the formula rate and implementation protocols for implementation for the 2026 rate year on June 24, 2026.

effective July 1, 2026 and that, to the extent necessary, the Commission waive any applicable notice requirements.

V. Correspondence

Please direct all communications and service in this proceeding to:

*Designated for receipt of service.

VI. Service

A complete copy of this filing will be posted on the NYISO's website at www.nyiso.com. On behalf of LIPA, the NYISO will send an electronic link to this filing to the official representative of each of its customers, and each participant on its stakeholder committees. The NYISO will also send, on behalf of LIPA, an electronic copy of this filing to the New York State Public Service Commission and the New Jersey Board of Public Utilities.

VII. Conclusion

For the foregoing reasons, the NYISO, on behalf of LIPA, respectfully requests that the Commission accept the proposed tariff updates identified in this filing to become effective on July 1, 2026.

Respectfully submitted,

/s/ Garrett E. Bissell
