**Re: *New York Independent System Operator, Inc.*, Notice of Posting of Examples
Docket Nos. EL11-42-000 and ER12-2414-000**

Dear Ms. Bose:

On August 6, 2012, as modified on August 7, 2012, the New York Independent System Operator, Inc. (“NYISO”) filed proposed revisions to its Market Administration and Control Area Services Tariff (“Services Tariff”) to comply with the Commission’s June 22, 2012 order in Docket No. EL11-42 (“June 22 Order”).¹ Specifically, P 50 of the June 22 Order directed NYISO to:

provide examples on its website to clarify, in general, how the mitigation exemption test and offer floor calculations are implemented. The examples should use hypothetical data coupled with detailed narratives explaining how NYISO performs each of the required mitigation tests as well as how it determines and applies the offer floors for non-exempt projects. We direct NYISO to post these examples and explanations for each type of potential capacity market participant on its website as soon as practicable prior to making further exemption and offer floor determinations.

In accordance with that directive, the NYISO is providing this notice to the Commission that it has posted those examples on its website at: http://www.nyiso.com/public/webdocs/products/icap/incity_mitigation/BSM_Narrative_and_Numerical_Example.pdf. Additionally, the NYISO respectfully requests leave to post the examples one day late on August 7, 2012.² No party will be harmed by the Commission granting this request, as the examples were made available on the website within one day of the filing and prior to the NYISO’s making any further exemption and offer floor determinations.

¹ *Astoria Generating Company, L.P., et al. v. New York Independent System Operator, Inc.*, 139 FERC ¶ 61,244 (2012).

² Ordering paragraph (B) of the June 22 Order directed the NYISO to “post its numerical example with narrative explanation within 45 days of the date of this order on its website as discussed in the text above.”

Honorable Kimberly D. Bose
