SERVICE AGREEMENT NO. 2622

ENGINEERING, PROCUREMENT, AND CONSTRUCTION AGREEMENT

THIS ENGINEERING, PROCUREMENT, AND CONSTRUCTION AGREEMENT

("Agreement") is made and entered into this 11th day of June 2021, by and among New York Transco, LLC, a limited liability company organized and existing under the laws of the State of New York ("Transmission Developer"), the New York Independent System Operator, Inc., a notfor-profit corporation organized and existing under the laws of the State of New York ("NYISO"), and the New York Power Authority, a corporate municipal instrumentality organized and existing under the laws of the State of New York ("Affected System Operator"). Transmission Developer, the NYISO, or Affected System Operator each may be referred to as a "Party" or collectively referred to as the "Parties."

RECITALS

WHEREAS, Transmission Developer is developing the New York Energy Solution project as the more efficient or cost effective transmission solution to Segment B of the AC Transmission Public Policy Transmission Needs ("Transmission Project");

WHEREAS, the Transmission Project was evaluated in the NYISO's Transmission Interconnection Procedures located in Attachment P of the NYISO OATT;

WHEREAS, Transmission Developer has entered into, or is currently in negotiations to enter into, the Transmission Project Interconnection Agreements concerning the Transmission Project with the NYISO and the Connecting Transmission Owners with which the project will interconnect;

WHEREAS, the Transmission Interconnection Studies for the Transmission Project identified certain adverse impacts resulting from the Transmission Project on the Affected System owned and operated by the Affected System Operator and determined that certain Network Upgrade Facilities were required to mitigate these impacts ("Affected System Upgrade Facilities");

WHEREAS, Transmission Developer and Affected System Operator desire to have each perform, and each is willing to perform, certain engineering, procurement, and construction services as specified in Appendix A that are required to construct and place in service the Affected System Upgrade Facilities ("EPC Services") in accordance with the terms and conditions hereinafter set forth; and

WHEREAS, Transmission Developer, Affected System Operator, and the NYISO have agreed to enter into this Agreement for the purpose of allocating the responsibilities for the performance and oversight of the EPC Services required to construct the Affected System Upgrade Facilities.

NOW, THEREFORE, in consideration of and subject to the mutual covenants contained herein, it is agreed:

SERVICE AGREEMENT NO. 2622

ARTICLE 1. DEFINITIONS

Whenever used in this Agreement with initial capitalization, the following terms shall have the meanings specified in this Article 1. Terms used in this Agreement with initial capitalization that are not defined in this Article 1 shall have the meanings specified in Section 1 of the ISO OATT, Section 22.1 of Attachment P of the ISO OATT, Section 25.1.2 of Attachment S of the ISO OATT, the body of the TIP, or the body of this Agreement.

Affected System shall mean the electric system of the Affected System Operator that is affected by the interconnection of the Transmission Project.

Affected System Operator shall have the meaning set forth in the introductory paragraph.

Affected System Upgrade Facilities shall have the meaning set forth in the recitals and shall consist of the Network Upgrade Facilities identified in the Facilities Study and described in Appendix A of this Agreement.

Affiliate shall mean, with respect to a person or entity, any individual, corporation, partnership, firm, joint venture, association, joint-stock company, trust or unincorporated organization, directly or indirectly controlling, controlled by, or under common control with, such person or entity. The term “control” shall mean the possession, directly or indirectly, of the power to direct the management or policies of a person or an entity. A voting interest of ten percent or more shall create a rebuttable presumption of control.

Applicable Laws and Regulations shall mean all duly promulgated applicable federal, state and local laws, regulations, rules, ordinances, codes, decrees, judgments, directives, or judicial or administrative orders, permits and other duly authorized actions of any Governmental Authority, including but not limited to Environmental Law.

Applicable Reliability Councils shall mean the NERC, the NPCC and the NYSRC.

Applicable Reliability Standards shall mean the requirements and guidelines of the Applicable Reliability Councils, and the Transmission District in which the Affected System Upgrade Facilities will be constructed, as those requirements and guidelines are amended and modified and in effect from time to time; provided that no Party shall waive its right to challenge the applicability or validity of any requirement or guideline as applied to it in the context of this Agreement.

Breach shall mean the failure of a Party to perform or observe any material term or condition of this Agreement.

Breaching Party shall mean a Party that is in Breach of this Agreement.

Business Day shall mean Monday through Friday, excluding federal holidays.

Calendar Day shall mean any day including Saturday, Sunday or a federal holiday.

SERVICE AGREEMENT NO. 2622

Confidential Information shall mean any information that is defined as confidential by Article 16 of this Agreement.

Connecting Transmission Owner(s) shall mean the New York public utility or authority (or its designated agent) that (i) owns facilities used for the transmission of Energy in interstate commerce and provides Transmission Service under the Tariff, and (ii) owns, leases or otherwise possesses an interest in the portion of the New York State Transmission System at the Point(s) of Interconnection with the Transmission Project.

Default shall mean the failure of a Party in Breach of this Agreement to cure such Breach in accordance with Article 11 of this Agreement.

Development Agreement shall mean the agreement executed between the NYISO, Niagara Mohawk Power Corporation d/b/a National Grid, and Transmission Developer concerning the development of the Transmission Project, dated January 10, 2020, and assigned by Niagara Mohawk Power Corporation d/b/a National Grid to Transmission Developer on March 10, 2020, as it may be amended from time to time.

Effective Date shall mean the date determined under Article 2.1 of this Agreement.

Environmental Law shall mean Applicable Laws and Regulations relating to pollution or protection of the environment or natural resources.

EPC Services shall have the meaning set forth in the recitals and shall consist of the services described in Appendix A.

Facilities Study shall mean the study conducted pursuant to Section 22.9 of Attachment P of the NYISO OATT to determine a list of facilities required to reliably interconnect the Transmission Project (including the Network Upgrade Facilities) as identified in the System Impact Study, the cost of those facilities, and the time required to interconnect the Transmission Project with the New York State Transmission System.

Federal Power Act shall mean the Federal Power Act, as amended, 16 U.S.C. §§ 791a *et seq.* (“FPA”).

FERC shall mean the Federal Energy Regulatory Commission (“Commission”) or its successor.

Force Majeure shall mean any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, any order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or any other cause beyond a Party’s control. A Force Majeure event does not include acts of negligence or intentional wrongdoing by the Party claiming Force Majeure.

Good Utility Practice shall mean any of the practices, methods and acts engaged in or approved by a significant portion of the electric industry during the relevant time period, or any of the

practices, methods and acts which, in the exercise of reasonable judgment in light of the facts known at the time the decision was made, could have been expected to accomplish the desired

SERVICE AGREEMENT NO. 2622

result at a reasonable cost consistent with good business practices, reliability, safety and expedition. Good Utility Practice is not intended to be limited to the optimum practice, method, or act to the exclusion of all others, but rather to delineate acceptable practices, methods, or acts generally accepted in the region.

Governmental Authority shall mean any federal, state, local or other governmental regulatory or administrative agency, court, commission, department, board, or other governmental subdivision, legislature, rulemaking board, tribunal, or other governmental authority having jurisdiction over any of the Parties, their respective facilities, or the respective services they provide, and exercising or entitled to exercise any administrative, executive, police, or taxing authority or power; provided, however, that such term does not include Transmission Developer, NYISO, Affected System Operator, or any Affiliate thereof.

Hazardous Substances shall mean any chemicals, materials or substances defined as or included in the definition of “hazardous substances,” “hazardous wastes,” “hazardous materials,” “hazardous constituents,” “restricted hazardous materials,” “extremely hazardous substances,” “toxic substances,” “radioactive substances,” “contaminants,” “pollutants,” “toxic pollutants” or words of similar meaning and regulatory effect under any applicable Environmental Law, or any other chemical, material or substance, exposure to which is prohibited, limited or regulated by any applicable Environmental Law.

In-Service Date shall mean the date upon which the Affected System Upgrade Facilities are energized consistent with the provisions of this Agreement and available to provide Transmission Service under the NYISO’s Tariffs. The Affected System Operator must provide notice of the In-Service Date to the other Parties in the form of Appendix C to this Agreement.

Interconnection Agreements shall mean the interconnection agreements concerning the Transmission Project among the Transmission Developer, the NYISO, and the Connecting Transmission Owners.

IRS shall mean the Internal Revenue Service.

NERC shall mean the North American Electric Reliability Council or its successor organization.

Network Upgrade Facilities shall mean the least costly configuration of commercially available components of electrical equipment that can be used, consistent with Good Utility Practice and Applicable Reliability Requirements, to make the modifications or additions to the New York State Transmission System that are required for the proposed Transmission Project to connect reliably to the system in a manner that meets the NYISO Transmission Interconnection Standard.

New York State Transmission System shall mean the entire New York State electric transmission system, which includes (i) the Transmission Facilities Under ISO Operational Control; (ii) the Transmission Facilities Requiring ISO Notification; and (iii) all remaining transmission facilities within the New York Control Area.

Notice of Dispute shall mean a written notice of a dispute or claim that arises out of or in connection with this Agreement or its performance.

SERVICE AGREEMENT NO. 2622

NPCC shall mean the Northeast Power Coordinating Council or its successor organization.

NYISO Transmission Interconnection Standard shall mean the reliability standard that must be met by any Transmission Project proposing to connect to the New York State Transmission System. The standard is designed to ensure reliable access by the proposed project to the New York State Transmission System.

NYSRC shall mean the New York State Reliability Council or its successor organization.

Party or Parties shall mean NYISO, Affected System Operator, or Transmission Developer or any combination of the above.

Point(s) of Interconnection shall mean the point(s) where the Transmission Developer's Transmission Project connect to the New York State Transmission System.

Reasonable Efforts shall mean, with respect to an action required to be attempted or taken by a Party under this Agreement, efforts that are timely and consistent with Good Utility Practice and are otherwise substantially equivalent to those a Party would use to protect its own interests.

Security shall mean a cash deposit, bond, irrevocable letter of credit, parent company guarantee or other form of security from an entity with an investment grade rating, provided to or executed for the benefit of the Connecting Transmission Owner, meeting the commercially reasonable requirements of the Connecting Transmission Owner with which it is required to be provided or posted pursuant to Article 6.2, and consistent with the Uniform Commercial Code of the jurisdiction identified in Article 8.2.1 of this Agreement.

Services Tariff shall mean the NYISO Market Administration and Control Area Tariff, as filed with the Commission, and as amended or supplemented from time to time, or any successor tariff thereto.

System Impact Study shall mean the study conducted pursuant to Section 22.8 of Attachment P of the OATT that evaluates the impact of the proposed Transmission Project on the safety and reliability of the New York State Transmission System and, if applicable, Affected System, to determine what Network Upgrade Facilities are needed for the proposed Transmission Project to connect reliably to the New York State Transmission System in a manner that meets the NYISO Transmission Interconnection Standard.

System Protection Facilities shall mean the equipment, including necessary protection signal communications equipment, required to (1) protect the New York State Transmission System from faults or other electrical disturbances occurring at the Transmission Project and (2) protect the Transmission Project from faults or other electrical system disturbances occurring on the New York State Transmission System or on other delivery systems or other generating systems to which the New York State Transmission System is directly connected.

Tariff shall mean the NYISO Open Access Transmission Tariff (“OATT”), as filed with the Commission, and as amended or supplemented from time to time, or any successor tariff.

Transmission Developer shall have the meaning set forth in the introductory paragraph.

SERVICE AGREEMENT NO. 2622

Transmission Interconnection Application shall mean Transmission Developer's request, in the form of Appendix 1 to the TIP, to interconnect a Transmission Project to the New York State Transmission System.

Transmission Interconnection Procedures ("TIP") shall mean the interconnection procedures applicable to a Transmission Interconnection Application pertaining to a Transmission Project that are included in Attachment P of the NYISO OATT.

Transmission Interconnection Study shall mean any of the following studies: the Optional Feasibility Study, the System Impact Study, and the Facilities Study described in the Transmission Interconnection Procedures.

Transmission Project shall be a Transmission Developer's proposed transmission facility or facilities that collectively satisfy the definition of Transmission Project in Section 22.3.1 of Attachment P of the NYISO OATT.

ARTICLE 2. EFFECTIVE DATE, TERM AND TERMINATION

2.1 Effective Date.

This Agreement shall become effective upon the date of execution by the Parties, subject to acceptance by FERC, or if filed unexecuted, upon the date specified by FERC. The NYISO and Affected System Operator shall promptly file this Agreement with FERC upon its execution. Transmission Developer shall reasonably cooperate with the NYISO and Affected System Operator with respect to the filing of this Agreement with FERC and provide any information reasonably requested by the NYISO and Affected System Operator needed for such filing.

2.2 Term of Agreement.

Subject to the provisions of Article 2.3, this Agreement shall remain in effect until the later of: (i) the dates on which all of the EPC Services have been completed, and (ii) the date on which the final payment of all invoices issued under this Agreement have been made pursuant to Articles 7.1 and 7.3 and any remaining Security has been released or refunded pursuant to Article 7.2.

2.3 Termination.

2.3.1 Completion of Term of Agreement

This Agreement shall terminate upon the completion of the term of the Agreement pursuant to Article 2.2.

2.3.2 Written Notice.

2.3.2.1 Written Notice of Termination

This Agreement may be terminated: (i) by any Party after giving the other Parties ninety (90) Calendar Days advance written notice following the termination of the Development

SERVICE AGREEMENT NO. 2622

Agreement prior to the completion of its term, subject to the suspension requirements in Section 2.3.2.2 below; or (ii) by the mutual agreement in writing of all Parties.

2.3.2.2 Suspension Period for Project Transfer

2.3.1.2.1 If the Development Agreement is terminated prior to the completion of its term and the NYISO exercises its right under the Development Agreement and the Tariff to request that a developer other than the Transmission Developer complete the Transmission Project, this Agreement shall be suspended. The suspension period will last until either: (i) the NYISO issues a written determination that the Transmission Project cannot be transferred to another developer and will not proceed, or (ii) the Transmission Developer completes the assignment of this Agreement to a new developer selected by the NYISO as set forth in Section 2.3.2.2.3. During the suspension period, the running of any advanced notice of termination time period pursuant to Section 2.3.2.1 will be paused. The Agreement shall not be terminated during the suspension period without the written agreement of all Parties.

2.3.1.2.2 During the suspension period, the Transmission Developer and Affected System Operator shall suspend all work associated with the construction and installation of the Affected System Upgrade Facilities required for only that Transmission Developer under this Agreement with the condition that the New York State Transmission System shall be left in a safe and reliable condition in accordance with Good Utility Practice and the safety and reliability criteria of Affected System Operator and NYISO. In such event, Transmission Developer shall be responsible for all reasonable and necessary costs and/or obligations in accordance with this Agreement, including those which Affected System Operator (i) has incurred pursuant to this Agreement prior to the suspension and (ii) incurs in suspending such work, including any costs incurred to perform such work as may be necessary to ensure the safety of persons and property and the integrity of the New York State Transmission System during such suspension and, if applicable, any costs incurred in connection with the cancellation or suspension of material, equipment and labor contracts which Affected System Operator cannot reasonably avoid; *provided, however*, that prior to canceling or suspending any such material, equipment or labor contract, Affected System Operator shall obtain Transmission Developer's authorization to do so, which authorization shall not unreasonably be withheld, conditioned or delayed.

2.3.1.2.3 If, pursuant to its Tariff, the NYISO selects a new developer to complete the Transmission Project, Transmission Developer shall coordinate with the new developer concerning the assignment of this Agreement to the new developer pursuant to the assignment requirements in Article 13 of this Agreement. All liabilities under this Agreement existing prior to such transfer shall remain with the Transmission Developer, unless otherwise agreed upon by the Transmission Developer and the new developer as part of their good faith negotiations regarding the transfer.

2.3.3 Default.

Any Party may terminate this Agreement in accordance with Article 11.

SERVICE AGREEMENT NO. 2622

2.3.4 Compliance.

Notwithstanding Articles 2.3.1, 2.3.2, and 2.3.3, no termination of this Agreement shall become effective until the Parties have complied with all Applicable Laws and Regulations applicable to such termination, including the filing with FERC of a notice of termination of this Agreement, which notice has been accepted for filing by FERC.

2.4 Termination Costs.

If a Party elects to terminate this Agreement pursuant to Article 2.3.2 above, the Transmission Developer shall be responsible for all costs that are the responsibility of the Transmission Developer under this Agreement that are incurred by the Transmission Developer or the other Parties through the date, as applicable, of the other Parties' receipt of a Party's notice of termination or of the Parties' mutual agreement to terminate the agreement. Such costs include any cancellation costs relating to orders or contracts. In the event of termination by the Transmission Developer, all Parties shall use commercially Reasonable Efforts to mitigate the costs, damages and charges arising as a consequence of termination. Upon termination of this Agreement, unless otherwise ordered or approved by FERC:

2.4.1 With respect to any portion of the Affected System Upgrade Facilities that have not yet been constructed or installed, but that is being relied upon by other projects in the manner described in Article 6.3 of this Agreement, Transmission Developer shall forfeit any remaining Security in accordance with the requirements in Article 6.3.

2.4.2 With respect to any portion of the Affected System Upgrade Facilities that has not yet been constructed or installed and is not being relied upon by other projects in the manner described in Article 6.3 of this Agreement, the Affected System Operator shall to the extent possible and with Transmission Developer's authorization cancel any pending orders of, or return, any materials or equipment for, or contracts for construction of, such facilities; provided that in the event Transmission Developer elects not to authorize such cancellation, Transmission Developer shall assume all payment obligations with respect to such materials, equipment, and contracts, and the Affected System Operator shall deliver such material and equipment, and, if necessary, assign such contracts, to Transmission Developer as soon as practicable, at Transmission Developer's expense. To the extent that Transmission Developer has already paid Affected System Operator for any or all such costs of materials or equipment not taken by Transmission Developer, Affected System Operator shall promptly refund such amounts to Transmission Developer, less any costs, including penalties incurred by the Affected System Operator to cancel any pending orders of or return such materials, equipment, or contracts.

2.4.3 Affected System Operator may, at its option, retain any portion of such materials or equipment that Transmission Developer chooses not to accept delivery of, in which case Affected System Operator shall be responsible for all costs associated with procuring such materials or equipment.

2.4.4 With respect to any portion of the EPC Services already performed pursuant to the terms of this Agreement, Transmission Developer shall be responsible for all costs associated

SERVICE AGREEMENT NO. 2622

with the removal, relocation or other disposition or retirement of such related materials, equipment, or facilities.

2.5 Survival.

This Agreement shall continue in effect after termination to the extent necessary to provide for final billings and payments and for costs incurred hereunder; including billings and payments pursuant to this Agreement; and to permit the determination and enforcement of liability and indemnification obligations arising from acts or events that occurred while this Agreement was in effect.

ARTICLE 3. EPC SERVICES

3.1 Performance of EPC Services.

The Affected System Operator's and Transmission Developer's respective obligations to perform the EPC Services shall be set forth in Appendix A hereto. The Affected System Operator and Transmission Developer shall each use Reasonable Efforts to complete its respective EPC Services by the Milestone dates set forth in Appendix A hereto. The Affected System Operator shall not be required to undertake any action which is inconsistent with its standard safety practices, its material and equipment specifications, its design criteria and construction procedures, its labor agreements, and Applicable Laws and Regulations. In the event the Affected System Operator or Transmission Developer reasonably expects that it will not be able to complete the EPC Services for which it is responsible by the specified dates, the Affected System Operator or Transmission Developer, as applicable, shall promptly provide written notice to the other Parties, and shall undertake Reasonable Efforts to meet the earliest dates thereafter. The NYISO has no responsibility, and shall have no liability, for the performance of any of the EPC Services under this Agreement.

3.2 General Conditions Applicable to Affected System Upgrade Facilities Work Performed by Transmission Developer.

As Transmission Developer has assumed responsibility for the engineering of the Affected System Upgrade Facilities as set forth in Appendix A, the following conditions apply:

3.2.1 Transmission Developer shall perform the engineering of the Affected System Upgrade Facilities (or portions thereof) as specified in Appendix A using Good Utility Practice and using standards and specifications provided in advance by the Affected System Operator;

3.2.2 Transmission Developer's engineering of the Affected System Upgrade Facilities shall comply with all requirements of law to which Affected System Operator would be subject in the engineering of the Network Upgrade Facilities;

SERVICE AGREEMENT NO. 2622

3.2.3 Affected System Operator shall review and approve the engineering design of the Affected System Upgrade Facilities;

3.2.4 At any time during the engineering, should the engineering not meet the standards and specifications provided by Affected System Operator, the Transmission Developer shall be obligated to remedy deficiencies in that portion of the Affected System Upgrade Facilities;

3.2.5 Transmission Developer shall deliver to NYISO and Affected System Operator “as built” drawings, information, and any other documents that are reasonably required by NYISO or Affected System Operator to assure that the Affected System Upgrade Facilities are built to the standards and specifications required by Affected System Operator; and

3.2.6 The Transmission Developer shall be responsible for the costs that Affected System Operator incurs in executing the responsibilities enumerated to Affected System Operator under Article 3.2. The Affected System Operator shall invoice Transmission Developer for such costs pursuant to Article 7.

3.3 Engineering Commencement.

Transmission Developer shall commence engineering of the Affected System Upgrade Facilities in accordance with the date specified in Appendix A hereto, unless the Transmission Developer and Affected System Operator otherwise agree in writing.

3.4 Construction Commencement.

The Affected System Operator shall commence construction of the Affected System Upgrade Facilities as soon as practicable after the following conditions are satisfied:

3.4.1 Approval of the appropriate Governmental Authority has been obtained, to the extent required, for the construction of a discrete aspect of the Affected System Upgrade Facilities;

3.4.2 Necessary real property rights and rights-of-way have been obtained, to the extent required for the construction of a discrete aspect of the Affected System Upgrade Facilities;

3.4.3 The Affected System Operator has received written authorization to proceed with construction from the Transmission Developer by the date specified in Appendix B hereto; and

3.4.4 The Transmission Developer has provided Security to the Affected System Operator in accordance with Article 6.2 by the dates specified in Appendix B hereto.

3.5 Work Progress.

The Transmission Developer and Affected System Operator will keep each other, and NYISO, advised periodically as to the progress of their respective design, procurement and

construction efforts. Any Party may, at any time, request a progress report from the Transmission Developer or Affected System Operator.

SERVICE AGREEMENT NO. 2622

3.6 Information Exchange.

As soon as reasonably practicable after the Effective Date, the Transmission Developer and Affected System Operator shall exchange information, and provide NYISO the same information, regarding the design of the Affected System Upgrade Facilities and compatibility of the Affected System Upgrade Facilities with the New York State Transmission System, and shall work diligently and in good faith to make any necessary design changes required by Affected System Operator or NYISO, in accordance with Good Utility Practice to ensure that the Affected System Upgrade Facilities are compatible with the technical specifications, operational control, and safety requirements of the Affected System Operator and NYISO. Any review by the NYISO of the design of the Affected System Upgrade Facilities shall not be construed as confirming, endorsing, or providing a warranty as to the design, fitness, safety, durability or reliability of the Affected System Upgrade Facilities. The Transmission Developer shall inform the Affected System Operator of the termination of one or more of the Interconnection Agreements or the Development Agreement within ten (10) days of the termination of the agreement(s).

3.7 Ownership of Affected System Upgrade Facilities

Affected System Operator shall own the Affected System Upgrade Facilities.

3.8 Access Rights.

Upon reasonable notice and supervision by the Granting Party, and subject to any required or necessary regulatory approvals, the Affected System Operator and Transmission Developer ("Granting Party") shall each furnish the other Parties ("Access Party") at no cost any rights of use, licenses, rights of way and easements with respect to lands owned or controlled by the Granting Party, its agents (if allowed under the applicable agency agreement), or any Affiliate, that are necessary to enable the Access Party to obtain ingress and egress needed for the performance of the EPC Services, including ingress or egress to construct, repair, test (or witness testing), inspect, replace or remove the Affected System Upgrade Facilities. In exercising such licenses, rights of way and easements, the Access Party shall not unreasonably disrupt or interfere with normal operation of the Granting Party's business and shall adhere to the safety rules and procedures established in advance, as may be changed from time to time, by the Granting Party and provided to the Access Party. The Access Party shall indemnify the Granting Party against all claims of injury or damage from third parties resulting from the exercise of the access rights provided for herein.

3.9 Reserved.

3.10 Permits.

NYISO, Affected System Operator and the Transmission Developer shall cooperate with each other in good faith in obtaining all permits, licenses and authorizations that are necessary to

accomplish the EPC Services in compliance with Applicable Laws and Regulations. With respect to this paragraph, Affected System Operator shall provide permitting assistance to the

SERVICE AGREEMENT NO. 2622

Transmission Developer comparable to that provided to the Affected System Operator's own, or an Affiliate's generation, if any.

3.11 Suspension.

Transmission Developer reserves the right, upon written notice to Affected System Operator and NYISO, to suspend at any time all work by Affected System Operator associated with the EPC Services under this Agreement for Affected System Upgrade Facilities required for only Transmission Developer's Transmission Project with the condition that the New York State Transmission System shall be left in a safe and reliable condition in accordance with Good Utility Practice and the safety and reliability criteria of Affected System Operator and NYISO. If the suspension will impact the Transmission Developer's ability to meet any Advisory Milestones or Critical Path Milestones in the Development Agreement, Transmission Developer shall notify the NYISO in accordance with the requirements in Article 3.3 of the Development Agreement. NYISO reserves the right, upon written notice to Transmission Developer and Affected System Operator, to require the suspension of all work by Transmission Developer and Affected System Operator associated with the EPC Services under this Agreement if the NYISO terminates the Development Agreement pursuant to Article 8 of the Development Agreement.

In the event of suspension pursuant to this Article 3.11, Transmission Developer shall be responsible for all reasonable and necessary costs and/or obligations in accordance with the Facilities Study report including those which Affected System Operator (i) has incurred pursuant to this Agreement prior to the suspension and (ii) incurs in suspending such work, including any costs incurred to perform such work as may be necessary to ensure the safety of persons and property and the integrity of the New York State Transmission System during such suspension and, if applicable, any costs incurred in connection with the cancellation or suspension of material, equipment and labor contracts which Affected System Operator cannot reasonably avoid; provided, however, that prior to canceling or suspending any such material, equipment or labor contract, Affected System Operator shall obtain Transmission Developer's authorization to do so.

Affected System Operator shall invoice Transmission Developer for such costs pursuant to Article 7 and shall use due diligence to minimize its costs. In the event Transmission Developer suspends work by Affected System Operator required under this Agreement pursuant to this Article 3.11, and has not requested Affected System Operator to recommence the work required under this Agreement on or before the expiration of three (3) years following commencement of such suspension, this Agreement shall be deemed terminated. The three-year period shall begin on the date required under this Article 3.11 or the date specified in the written notice of suspension.

SERVICE AGREEMENT NO. 2622

3.12 Reserved.

3.13 Tax Status

3.13.1 Tax Status

Each Party shall cooperate with the other Parties to maintain the other Parties' tax status. Nothing in this Agreement is intended to adversely affect the tax status of any Party including the status of NYISO, or the status of the Affected System Operator with respect to the issuance of bonds including, but not limited to, Local Furnishing Bonds. Notwithstanding any other provisions of this Agreement, Affected System Operator shall not be required to comply with any provisions of this Agreement that would result in the loss of tax-exempt status of any of their Tax-Exempt Bonds or impair their ability to issue future tax-exempt obligations. For purposes of this provision, Tax-Exempt Bonds shall include the obligations of the Affected System Operator, the interest on which is not included in gross income under the Internal Revenue Code.

3.13.2 Non-Jurisdictional Entities

Affected System Operator does not waive its exemptions, pursuant to Section 201(f) of the FPA, from Commission jurisdiction with respect to the Commission's exercise of the FPA's general ratemaking authority.

3.14 Modification.

3.14.1 General.

If, prior to the In-Service Date, either the Transmission Developer or Affected System Operator proposes to modify the Affected System Upgrade Facilities, they must inform the other Parties of the proposed modification and must satisfy the requirements in (i) Section 22.5.4 of Attachment P to the NYISO OATT, and (ii) the Development Agreement. The Transmission Developer shall be responsible for the costs of any such additional modifications, including the cost of studying the materiality and impact of the modification.

3.14.2 Standards.

Any additions, modifications, or replacements made to a Party's facilities shall be designed, constructed and operated in accordance with this Agreement, NYISO requirements and Good Utility Practice.

3.14.3 Modification Costs.

Transmission Developer or Affected System Operator, as applicable, shall not be assigned the cost of any additions, modifications, or replacements that the other Party makes to the New York State Transmission System to facilitate the interconnection of a third party to the New York State Transmission System, or to provide Transmission Service to a third party under

the ISO OATT, except in accordance with the cost allocation procedures in Attachment S of the ISO OATT.

SERVICE AGREEMENT NO. 2622

ARTICLE 4. TESTING AND INSPECTION

4.1 Pre-In-Service Date Testing and Modifications.

Prior to the In-Service Date, the Affected System Operator shall test the Affected System Upgrade Facilities and Transmission Developer shall coordinate with the Affected System Operator concerning the testing of the Affected System Upgrade Facilities and the Transmission Project under the Interconnection Agreements to ensure the safe and reliable operation of the Affected System Upgrade Facilities. Similar testing may be required after initial operation. Transmission Developer and Affected System Operator shall each make any modifications to their facilities that are found to be necessary as a result of such testing. Transmission Developer shall bear the cost of all such testing and modifications. Transmission Developer shall coordinate with the Affected System Operator to generate test energy at the Affected System Upgrade Facilities only if it has arranged for the injection of such test energy in accordance with NYISO procedures.

4.2 Right to Observe Testing.

Affected System Operator shall notify Transmission Developer and the NYISO, in advance of its performance of tests of the Affected System Upgrade Facilities. Transmission Developer and the NYISO shall each have the right, at its own expense, to observe such testing.

4.3 Right to Inspect.

Transmission Developer and Affected System Operator shall each have the right, but shall have no obligation to: (i) observe the other Party's tests and/or inspection of any of its System Protection Facilities and other protective equipment; (ii) review the settings of the other Party's System Protection Facilities and other protective equipment; and (iii) review the other Party's maintenance records relative to the Affected System Upgrade Facilities, the System Protection Facilities and other protective equipment. NYISO shall have these same rights of inspection as to the facilities and equipment of Transmission Developer and Affected System Operator. A Party may exercise these rights from time to time as it deems necessary upon reasonable notice to the other Party. The exercise or non-exercise by a Party of any such rights shall not be construed as an endorsement or confirmation of any element or condition of the Affected System Upgrade Facilities or the System Protection Facilities or other protective equipment or the operation thereof, or as a warranty as to the fitness, safety, desirability, or reliability of same. Any information that a Party obtains through the exercise of any of its rights under this Article 4.3 shall be treated in accordance with Article 16 of this Agreement and Attachment F to the ISO OATT.

SERVICE AGREEMENT NO. 2622

ARTICLE 5. RESERVED

ARTICLE 6. PERFORMANCE OBLIGATION

6.1 EPC Services

Affected System Operator and Transmission Developer shall perform their respective EPC Services described in Appendix A hereto and as otherwise set forth by the terms of this Agreement at Transmission Developer's expense.

6.2 Provision of Security.

Within thirty (30) Calendar Days of the effective date of this Agreement, Transmission Developer shall provide Affected System Operator with Security in the amount of the cost estimate for the Affected System Upgrade Facilities documented in the Facilities Study report in accordance with Section 22.9.3 of Attachment P of the ISO OATT. This amount is set forth in Appendix A of this Agreement.

6.3 Forfeiture of Security

The Security the Transmission Developer provides Affected System Operator in accordance with Article 6.2 of this Agreement shall be irrevocable and shall be subject to forfeiture in the event that the Transmission Developer subsequently terminates or abandons development of the Transmission Project or the Affected System Upgrade Facilities. Any Security provided by the Transmission Developer shall be subject to forfeiture to the extent necessary to defray the cost of: (1) Affected System Upgrade Facilities required for other Transmission Developers whose Transmission Project interconnection studies included the Transmission Developer's Transmission Project and Affected System Upgrade Facilities in their base cases; and (2) System Upgrade Facilities and System Deliverability Upgrade Facilities required for projects for which the Transmission Project and Affected System Upgrade Facilities were included in their Annual Transmission Reliability Assessment and/or Class Year Deliverability Study, as applicable. If Transmission Developer's Security is subject to forfeiture to defray the costs of an affected upgrade pursuant to this Article 6.3 and the Security is not in a form that can be readily drawn on by the Affected System Operator to defray the costs of the affected upgrade, Transmission Developer shall negotiate in good faith with the Affected System Operator to replace the Security with cash or an alternative form of Security that can be readily drawn on by Affected System Operator up to the amount required to satisfy Transmission Developer's Security obligations under this Agreement, including defraying the costs of the affected upgrade. Affected System Operator shall only be responsible for using Transmission Developer's Security to defray the costs of an affected upgrade to the extent Transmission Developer has provided cash or Security in a form that the Affected System Operator can readily draw on to defray such costs.

SERVICE AGREEMENT NO. 2622

6.4 Affected System Upgrade Facility Costs

6.4.1 If the actual cost of Affected System Upgrade Facilities is less than the agreed-to and secured amount, Transmission Developer is responsible only for the actual cost figure.

6.4.2 If the actual cost of Affected System Upgrade Facilities is greater than the agreed-to and secured amount because other projects have been expanded, accelerated, otherwise modified or terminated, Transmission Developer is responsible only for the agreed-to and secured amount for the Affected System Upgrade Facilities. The additional cost is covered by the developers of the modified projects, or by the drawing on the cash that has been paid and the Security that has been posted for terminated projects, depending on the factors that caused the additional cost. Such forfeitable Security from other developers will be drawn on only as needed for this purpose, and only to the extent that the terminated project associated with that Security has caused additional cost.

6.4.3 If the actual cost of the Affected System Upgrade Facilities is greater than the agreed-to and secured amount for reasons other than those set forth in Section 6.4.2, Transmission Developer will pay the additional costs to Affected System Operator to the extent such costs are prudently incurred. Disputes between Transmission Developer and Affected System Operator concerning costs in excess of the agreed-to and secured amount will be resolved by the parties in accordance with the terms and conditions of Article 21.

6.5 Line Outage Costs.

Notwithstanding anything in the ISO OATT to the contrary, Affected System Operator may propose to recover line outage costs associated with the installation of the Affected System Upgrade Facilities on a case-by-case basis.

ARTICLE 7. INVOICE

7.1 General.

Affected System Operator will draw upon the Security provided by Transmission Developer in accordance with Article 6.2 of this Agreement to satisfy Transmission Developer's obligation to pay for Affected System Operator's performance of the EPC Services. Affected System Operator shall provide Transmission Developer on a monthly basis with an invoice that describes the services and equipment provided and the Security drawn upon to satisfy these EPC Services. If the actual cost of the EPC Services is greater than the agreed-to and secured amount for such services and Affected System Operator can recover such additional costs pursuant to Section 6.4.3, Affected System Operator shall submit to Transmission Developer, on a monthly basis, invoices of amounts due for the preceding month. Each invoice shall state the month to which the invoice applies and fully describe the services and equipment provided. Within six months after completion of the EPC Services, Affected System Operator shall provide a final invoice to Transmission Developer of any remaining amounts due associated with the EPC Services.

SERVICE AGREEMENT NO. 2622

7.2 Refund of Remaining Security.

Following the later of Affected System Operator's completion of the EPC Services and Transmission Developer's payment of any final invoice issued under Article 7.1, the Affected System Operator shall refund to the Transmission Developer any remaining portions of its security. Affected System Operator shall provide Transmission Developer with the refunded amount within thirty (30) Calendar Days of the Parties' satisfaction of the requirements in this Article 7.2.

7.3 Payment.

Invoices shall be rendered to Transmission Developer at the address specified in Appendix F hereto. Transmission Developer shall pay the invoice within thirty (30) Calendar Days of receipt. All payments shall be made in immediately available funds payable to Affected System Operator, or by wire transfer to a bank named and account designated by Affected System Operator. Payment of invoices will not constitute a waiver of any rights or claims Transmission Developer may have under this Agreement.

7.4 Disputes.

In the event of a billing dispute between Parties, the Party owed money shall continue to perform under this Agreement as long as the other Party: (i) continues to make all payments not in dispute; and (ii) pays to the Party owed money or into an independent escrow account the portion of the invoice in dispute, pending resolution of such dispute. If the Party that owes money fails to meet these two requirements for continuation of service, then the Party owed money may provide notice to the other Party of a Default pursuant to Article 11. Within thirty (30) Calendar Days after the resolution of the dispute, the Party that owes money to the other Party shall pay the amount due with interest calculated in accord with the methodology set forth in FERC's Regulations at 18 C.F.R. § 35.19a(a)(2)(iii).

ARTICLE 8. REGULATORY REQUIREMENTS AND GOVERNING LAW

8.1 Regulatory Requirements.

Each Party's obligations under this Agreement shall be subject to its receipt of any required approval or certificate from one or more Governmental Authorities in the form and substance satisfactory to the applying Party, or the Party making any required filings with, or providing notice to, such Governmental Authorities, and the expiration of any time period associated therewith. Each Party shall in good faith seek and use its Reasonable Efforts to obtain such other approvals. Nothing in this Agreement shall require a Party to take any action that could result in its inability to obtain, or its loss of, status or exemption under the Federal Power Act or the Public Utility Holding Company Act of 2005 or the Public Utility Regulatory Policies Act of 1978, as amended.

8.2 Governing Law.

SERVICE AGREEMENT NO. 2622

8.2.1 The validity, interpretation and performance of this Agreement and each of its provisions shall be governed by the laws of the state of New York, without regard to its conflicts of law principles.

8.2.2 This Agreement is subject to all Applicable Laws and Regulations.

8.2.3 Each Party expressly reserves the right to seek changes in, appeal, or otherwise contest any laws, orders, rules, or regulations of a Governmental Authority.

ARTICLE 9. NOTICES

9.1 General.

Unless otherwise provided in this Agreement, any notice, demand or request required or permitted to be given by a Party to the other Parties and any instrument required or permitted to be tendered or delivered by a Party in writing to the other Parties shall be effective when delivered and may be so given, tendered or delivered, by recognized national courier, or by depositing the same with the United States Postal Service with postage prepaid, for delivery by certified or registered mail, addressed to the Party, or personally delivered to the Party, at the address set out in Appendix B hereto.

A Party may change the notice information in this Agreement by giving five (5) Business Days written notice prior to the effective date of the change.

9.2 Billings and Payments.

Billings and payments shall be sent to the addresses set out in Appendix B hereto.

9.3 Alternative Forms of Notice.

Any notice or request required or permitted to be given by a Party to the other Parties and not required by this Agreement to be given in writing may be so given by telephone, facsimile or email to the telephone numbers and email addresses set out in Appendix B hereto.

ARTICLE 10. FORCE MAJEURE

10.1 Economic hardship is not considered a Force Majeure event.

10.2 A Party shall not be responsible or liable, or deemed, in Default with respect to any obligation hereunder, other than the obligation to pay money when due, to the extent the Party is prevented from fulfilling such obligation by Force Majeure. A Party unable to fulfill any obligation hereunder (other than an obligation to pay money when due) by reason of Force Majeure shall give notice and the full particulars of such Force Majeure to the other Parties in writing or by telephone as soon as reasonably possible after the occurrence of the cause relied upon. Telephone notices given pursuant to this Article shall be confirmed in writing as soon as

reasonably possible and shall specifically state full particulars of the Force Majeure, the time and date when the Force Majeure occurred and when the Force Majeure is reasonably expected to

SERVICE AGREEMENT NO. 2622

cease. The Party affected shall exercise due diligence to remove such disability with reasonable dispatch, but shall not be required to accede or agree to any provision not satisfactory to it in order to settle and terminate a strike or other labor disturbance.

ARTICLE 11. DEFAULT

11.1 General.

No Breach shall exist where such failure to discharge an obligation (other than the payment of money) is the result of Force Majeure as defined in this Agreement or the result of an act or omission of the other Parties. Upon a Breach, the non-Breaching Parties shall give written notice of such to the Breaching Party. The Breaching Party shall have thirty (30) Calendar Days from receipt of the Breach notice within which to cure such Breach; provided however, if such Breach is not capable of cure within thirty (30) Calendar Days, the Breaching Party shall commence such cure within thirty (30) Calendar Days after notice and continuously and diligently complete such cure within ninety (90) Calendar Days from receipt of the Breach notice; and, if cured within such time, the Breach specified in such notice shall cease to exist.

11.2 Right to Terminate.

If a Breach is not cured as provided in this Article 11, or if a Breach is not capable of being cured within the period provided for herein, the non-Breaching Parties acting together shall thereafter have the right to declare a Default and terminate this Agreement by written notice at any time until cure occurs, and be relieved of any further obligation hereunder and, whether or not those Parties terminate this Agreement, to recover from the defaulting Party all amounts due hereunder, plus all other damages and remedies to which they are entitled at law or in equity. The provisions of this Article will survive termination of this Agreement.

ARTICLE 12. INDEMNITY, CONSEQUENTIAL DAMAGES AND INSURANCE

12.1 Indemnity.

Each Party (the "Indemnifying Party") shall at all times indemnify, defend, and save harmless, as applicable, the other Parties (each an "Indemnified Party") from, any and all damages, losses, claims, including claims and actions relating to injury to or death of any person or damage to property, the alleged violation of any Environmental Law, or the release or threatened release of any Hazardous Substance, demand, suits, recoveries, costs and expenses, court costs, attorney fees, and all other obligations by or to third parties (any and all of these a "Loss"), arising out of or resulting from (i) the Indemnified Party's performance of its obligations under this Agreement on behalf of the Indemnifying Party, except in cases where the Indemnifying Party can demonstrate that the Loss of the Indemnified Party was caused by the gross negligence or intentional wrongdoing of the Indemnified Party or (ii) the violation by the Indemnifying Party of any Environmental Law or the release by the Indemnifying Party of any Hazardous Substance.

SERVICE AGREEMENT NO. 2622

12.1.1 Indemnified Party.

If a Party is entitled to indemnification under this Article 12 as a result of a claim by a third party, and the Indemnifying Party fails, after notice and reasonable opportunity to proceed under Article 12.1.3, to assume the defense of such claim, such Indemnified Party may at the expense of the Indemnifying Party contest, settle or consent to the entry of any judgment with respect to, or pay in full, such claim.

12.1.2 Indemnifying Party.

If an Indemnifying Party is obligated to indemnify and hold any Indemnified Party harmless under this Article 12, the amount owing to the Indemnified Party shall be the amount of such Indemnified Party's actual Loss, net of any insurance or other recovery.

12.1.3 Indemnity Procedures.

Promptly after receipt by an Indemnified Party of any claim or notice of the commencement of any action or administrative or legal proceeding or investigation as to which the indemnity provided for in Article 12.1 may apply, the Indemnified Party shall notify the Indemnifying Party of such fact. Any failure of or delay in such notification shall not affect a Party's indemnification obligation unless such failure or delay is materially prejudicial to the Indemnifying Party.

Except as stated below, the Indemnifying Party shall have the right to assume the defense thereof with counsel designated by such Indemnifying Party and reasonably satisfactory to the Indemnified Party. If the defendants in any such action include one or more Indemnified Parties and the Indemnifying Party and if the Indemnified Party reasonably concludes that there may be legal defenses available to it and/or other Indemnified Parties which are different from or additional to those available to the Indemnifying Party, the Indemnified Party shall have the right to select separate counsel to assert such legal defenses and to otherwise participate in the defense of such action on its own behalf. In such instances, the Indemnifying Party shall only be required to pay the fees and expenses of one additional attorney to represent an Indemnified Party or Indemnified Parties having such differing or additional legal defenses.

The Indemnified Party shall be entitled, at its expense, to participate in any such action, suit or proceeding, the defense of which has been assumed by the Indemnifying Party. Notwithstanding the foregoing, the Indemnifying Party (i) shall not be entitled to assume and control the defense of any such action, suit or proceedings if and to the extent that, in the opinion of the Indemnified Party and its counsel, such action, suit or proceeding involves the potential imposition of criminal liability on the Indemnified Party, or there exists a conflict or adversity of interest between the Indemnified Party and the Indemnifying Party, in such event the Indemnifying Party shall pay the reasonable expenses of the Indemnified Party, and (ii) shall not settle or consent to the entry of any judgment in any action, suit or proceeding without the

consent of the Indemnified Party, which shall not be unreasonably withheld, conditioned or delayed.

SERVICE AGREEMENT NO. 2622

12.2 No Consequential Damages.

Other than the indemnity obligations set forth in Article 12.1, in no event shall any Party be liable under any provision of this Agreement for any losses, damages, costs or expenses for any special, indirect, incidental, consequential, or punitive damages, including but not limited to loss of profit or revenue, loss of the use of equipment, cost of capital, cost of temporary equipment or services, whether based in whole or in part in contract, in tort, including negligence, strict liability, or any other theory of liability; provided, however, that damages for which a Party may be liable to another Party under separate agreement will not be considered to be special, indirect, incidental, or consequential damages hereunder.

12.3 Insurance.

Affected System Operator and Transmission Developer shall each, at its own expense, procure and maintain in force throughout the period of this Agreement and until released by the other Parties, the following minimum insurance coverages, with insurance companies licensed to write insurance or approved eligible surplus lines carriers in the state of New York with a minimum A.M. Best rating of A or better for financial strength, and an A.M. Best financial size category of VIII or better:

12.3.1 Employers' Liability and Workers' Compensation Insurance providing statutory benefits in accordance with the laws and regulations of New York State.

12.3.2 Commercial General Liability ("CGL") Insurance including premises and operations, personal injury, broad form property damage, broad form blanket contractual liability coverage products and completed operations coverage, coverage for explosion, collapse and underground hazards, independent contractors coverage, coverage for pollution to the extent normally available and punitive damages to the extent normally available using Insurance Services Office, Inc. Commercial General Liability Coverage ("ISO CG") Form CG 00 01 04 13 or a form equivalent to or better than CG 00 01 04 13, with minimum limits of Two Million Dollars (\$2,000,000) per occurrence and Two Million Dollars (\$2,000,000) aggregate combined single limit for personal injury, bodily injury, including death and property damage.

12.3.3 Comprehensive Automobile Liability Insurance for coverage of owned and non-owned and hired vehicles, trailers or semi-trailers designed for travel on public roads, with a minimum, combined single limit of One Million Dollars (\$1,000,000) per occurrence for bodily injury, including death, and property damage.

12.3.4 If applicable, the Commercial General Liability and Comprehensive Automobile Liability Insurance policies should include contractual liability for work in connection with construction or demolition work on or within 50 feet of a railroad, or a separate Railroad Protective Liability Policy should be provided.

12.3.5 Excess Liability Insurance over and above the Employers' Liability,

Commercial General Liability and Comprehensive Automobile Liability Insurance coverages,
with a minimum combined single limit of Twenty Million Dollars (\$20,000,000) per occurrence

SERVICE AGREEMENT NO. 2622

and Twenty Million Dollars (\$20,000,000) aggregate. The Excess policies should contain the same extensions listed under the Primary policies.

12.3.6 The Commercial General Liability Insurance, Comprehensive Automobile Insurance and Excess Liability Insurance policies of Affected System Operator and Transmission Developer shall name the other Party, its parent, associated and Affiliate companies and their respective directors, officers, agents, servants and employees ("Other Party Group") as additional insureds using ISO CG Endorsements: CG 20 33 04 13, and CG 20 37 04 13 or CG 20 10 04 13 and CG 20 37 04 13 or equivalent to or better forms. All policies shall contain provisions whereby the insurers waive all rights of subrogation in accordance with the provisions of this Agreement against the Other Party Group and provide thirty (30) Calendar days advance written notice to the Other Party Group prior to anniversary date of cancellation or any material change in coverage or condition.

12.3.7 The Commercial General Liability Insurance, Comprehensive Automobile Liability Insurance and Excess Liability Insurance policies shall contain provisions that specify that the policies are primary and non-contributory. Affected System Operator and Transmission Developer shall each be responsible for its respective deductibles or retentions.

12.3.8 The Commercial General Liability Insurance, Comprehensive Automobile Liability Insurance and Excess Liability Insurance policies, if written on a Claims First Made Basis, shall be maintained in full force and effect for at least three (3) years after termination of this Agreement, which coverage may be in the form of tail coverage or extended reporting period coverage if agreed by the Transmission Developer and Affected System Operator.

12.3.9 If applicable, Pollution Liability Insurance in an amount no less than \$7,500,000 per occurrence and \$7,500,000 in the aggregate. The policy will provide coverage for claims resulting from pollution or other environmental impairment arising out of or in connection with work performed on the premises by the other party, its contractors and and/or subcontractors. Such insurance is to include coverage for, but not be limited to, cleanup, third party bodily injury and property damage and remediation and will be written on an occurrence basis. The policy shall name the Other Party Group as additional insureds, be primary and contain a waiver of subrogation.

12.3.10 The requirements contained herein as to the types and limits of all insurance to be maintained by the Affected System Operator and Transmission Developer are not intended to and shall not in any manner, limit or qualify the liabilities and obligations assumed by those Parties under this Agreement.

12.3.11 Within ten (10) days following execution of this Agreement, and as soon as practicable after the end of each fiscal year or at the renewal of the insurance policy and in any event within ninety (90) days thereafter, Affected System Operator and Transmission Developer shall provide certificate of insurance for all insurance required in this Agreement, executed by each insurer or by an authorized representative of each insurer.

SERVICE AGREEMENT NO. 2622

12.3.12 Notwithstanding the foregoing, Affected System Operator and Transmission Developer may each self-insure to meet the minimum insurance requirements of Articles 12.3.1 through 12.3.9 to the extent it maintains a self-insurance program; provided that, such Party's senior debt is rated at investment grade, or better, by Standard & Poor's and that its self-insurance program meets the minimum insurance requirements of Articles 12.3.1 through 12.3.9. In the event that a Party is permitted to self-insure pursuant to this Article 12.3.12, it shall notify the other Party that it meets the requirements to self-insure and that its self-insurance program meets the minimum insurance requirements in a manner consistent with that specified in Articles 12.3.1 through 12.3.9 and provide evidence of such coverages. For any period of time that a Party's senior debt is unrated by Standard & Poor's or is rated at less than investment grade by Standard & Poor's, such Party shall comply with the insurance requirements applicable to it under Articles 12.3.1 through 12.3.9.

12.3.13 Transmission Developer and Affected System Operator agree to report to each other in writing as soon as practical all accidents or occurrences resulting in injuries to any person, including death, and any property damage arising out of this Agreement.

12.3.14 Subcontractors of Affected System Operator and Transmission Developer must maintain the same insurance requirements stated under Articles 12.3.1 through 12.3.9 and comply with the Additional Insured requirements herein. In addition, their policies must state that they are primary and non-contributory and contain a waiver of subrogation.

ARTICLE 13. ASSIGNMENT

This Agreement may be assigned by a Party only with the written consent of the other Parties; provided that a Party may assign this Agreement without the consent of the other Parties to any Affiliate of the assigning Party with an equal or greater credit rating and with the legal authority and operational ability to satisfy the obligations of the assigning Party under this Agreement; provided further that a Party may assign this Agreement without the consent of the other Parties in connection with the sale, merger, restructuring, or transfer of a substantial portion or all of its assets, so long as the assignee in such a transaction directly assumes in writing all rights, duties and obligations arising under this Agreement; and provided further that the Transmission Developer shall have the right to assign this Agreement, without the consent of the NYISO or Affected System Operator, for collateral security purposes to aid in providing financing for the Affected System Upgrade Facilities, provided that the Transmission Developer will promptly notify the NYISO and Affected System Operator of any such assignment. Any financing arrangement entered into by the Transmission Developer pursuant to this Article will provide that prior to or upon the exercise of the secured party's, trustee's or mortgagee's assignment rights pursuant to said arrangement, the secured creditor, the trustee or mortgagee will notify the NYISO and Affected System Operator of the date and particulars of any such exercise of assignment right(s) and will provide the NYISO and Affected System Operator with proof that it meets the requirements of Articles 6.2 and 12.3. Any attempted assignment that violates this Article is void and ineffective. Any assignment under this Agreement shall not relieve a Party of its obligations, nor shall a Party's obligations be enlarged, in whole or in part,

by reason thereof. Where required, consent to assignment will not be unreasonably withheld, conditioned or delayed.

SERVICE AGREEMENT NO. 2622

ARTICLE 14. SEVERABILITY

If any provision in this Agreement is finally determined to be invalid, void or unenforceable by any court or other Governmental Authority having jurisdiction, such determination shall not invalidate, void or make unenforceable any other provision, agreement or covenant of this Agreement.

ARTICLE 15. COMPARABILITY

The Parties will comply with all applicable comparability and code of conduct laws, rules and regulations, as amended from time to time.

ARTICLE 16. CONFIDENTIALITY

16.1 Confidentiality.

Certain information exchanged by the Parties during the term of this Agreement shall constitute confidential information ("Confidential Information") and shall be subject to this Article 16.

If requested by a Party receiving information, the Party supplying the information shall provide in writing, the basis for asserting that the information referred to in this Article warrants confidential treatment, and the requesting Party may disclose such writing to the appropriate Governmental Authority. Each Party shall be responsible for the costs associated with affording confidential treatment to its information.

16.2 Term.

During the term of this Agreement, and for a period of three (3) years after the expiration or termination of this Agreement, except as otherwise provided in this Article 16, each Party shall hold in confidence and shall not disclose to any person Confidential Information.

16.3 Confidential Information.

The following shall constitute Confidential Information: (1) any non-public information that is treated as confidential by the disclosing Party and which the disclosing Party identifies as Confidential Information in writing at the time, or promptly after the time, of disclosure; or (2) information designated as Confidential Information by the NYISO Code of Conduct contained in Attachment F to the ISO OATT.

16.4 Scope.

Confidential Information shall not include information that the receiving Party can demonstrate: (1) is generally available to the public other than as a result of a disclosure by the receiving Party; (2) was in the lawful possession of the receiving Party on a non-confidential basis before receiving it from the disclosing Party; (3) was supplied to the receiving Party

without restriction by a third party, who, to the knowledge of the receiving Party after due inquiry, was under no obligation to the disclosing Party to keep such information confidential;

SERVICE AGREEMENT NO. 2622

(4) was independently developed by the receiving Party without reference to Confidential Information of the disclosing Party; (5) is, or becomes, publicly known, through no wrongful act or omission of the receiving Party or Breach of this Agreement; or (6) is required, in accordance with Article 16.9 of this Agreement, Order of Disclosure, to be disclosed by any Governmental Authority or is otherwise required to be disclosed by law or subpoena, or is necessary in any legal proceeding establishing rights and obligations under this Agreement. Information designated as Confidential Information will no longer be deemed confidential if the Party that designated the information as confidential notifies the other Party that it no longer is confidential.

16.5 Release of Confidential Information.

No Party shall release or disclose Confidential Information to any other person, except to its Affiliates (limited by FERC Standards of Conduct requirements), subcontractors, employees, consultants, or to parties who may be considering providing financing to or equity participation with Transmission Developer, or to potential purchasers or assignees of a Party, on a need-to-know basis in connection with this Agreement, unless such person has first been advised of the confidentiality provisions of this Article 16 and has agreed to comply with such provisions. Notwithstanding the foregoing, a Party providing Confidential Information to any person shall remain primarily responsible for any release of Confidential Information in contravention of this Article 16.

16.6 Rights.

Each Party retains all rights, title, and interest in the Confidential Information that each Party discloses to the other Party. The disclosure by each Party to the other Parties of Confidential Information shall not be deemed a waiver by any Party or any other person or entity of the right to protect the Confidential Information from public disclosure.

16.7 No Warranties.

By providing Confidential Information, no Party makes any warranties or representations as to its accuracy or completeness. In addition, by supplying Confidential Information, no Party obligates itself to provide any particular information or Confidential Information to the other Parties nor to enter into any further agreements or proceed with any other relationship or joint venture.

16.8 Standard of Care.

Each Party shall use at least the same standard of care to protect Confidential Information it receives as it uses to protect its own Confidential Information from unauthorized disclosure, publication or dissemination. Each Party may use Confidential Information solely to fulfill its obligations to the other Parties under this Agreement or its regulatory requirements, including the ISO OATT and NYISO Services Tariff. The NYISO shall, in all cases, treat the information it receives in accordance with the requirements of Attachment F to the ISO OATT.

SERVICE AGREEMENT NO. 2622

16.9 Order of Disclosure.

If a court or a Government Authority or entity with the right, power, and apparent authority to do so requests or requires any Party, by subpoena, oral deposition, interrogatories, requests for production of documents, administrative order, or otherwise, to disclose Confidential Information, that Party shall provide the other Parties with prompt notice of such request(s) or requirement(s) so that the other Parties may seek an appropriate protective order or waive compliance with the terms of this Agreement. Notwithstanding the absence of a protective order or waiver, the Party may disclose such Confidential Information which, in the opinion of its counsel, the Party is legally compelled to disclose. Each Party will use Reasonable Efforts to obtain reliable assurance that confidential treatment will be accorded any Confidential Information so furnished.

16.10 Termination of Agreement.

Upon termination of this Agreement for any reason, each Party shall, within ten (10) Calendar Days of receipt of a written request from the other Parties, use Reasonable Efforts to destroy, erase, or delete (with such destruction, erasure, and deletion certified in writing to the other Parties) or return to the other Parties, without retaining copies thereof, any and all written or electronic Confidential Information received from the other Parties pursuant to this Agreement.

16.11 Remedies.

The Parties agree that monetary damages would be inadequate to compensate a Party for another Party's Breach of its obligations under this Article 16. Each Party accordingly agrees that the other Parties shall be entitled to equitable relief, by way of injunction or otherwise, if the first Party Breaches or threatens to Breach its obligations under this Article 16, which equitable relief shall be granted without bond or proof of damages, and the receiving Party shall not plead in defense that there would be an adequate remedy at law. Such remedy shall not be deemed an exclusive remedy for the Breach of this Article 16, but shall be in addition to all other remedies available at law or in equity. The Parties further acknowledge and agree that the covenants contained herein are necessary for the protection of legitimate business interests and are reasonable in scope. No Party, however, shall be liable for indirect, incidental, or consequential or punitive damages of any nature or kind resulting from or arising in connection with this Article 16.

16.12 Disclosure to FERC, its Staff, or a State.

Notwithstanding anything in this Article 16 to the contrary, and pursuant to 18 C.F.R. section 1b.20, if FERC or its staff, during the course of an investigation or otherwise, requests information from one of the Parties that is otherwise required to be maintained in confidence pursuant to this Agreement or the ISO OATT, the Party shall provide the requested information to FERC or its staff, within the time provided for in the request for information. In providing the information to FERC or its staff, the Party must, consistent with 18 C.F.R. section 388.112,

request that the information be treated as confidential and non-public by FERC and its staff and that the information be withheld from public disclosure. Parties are prohibited from notifying

SERVICE AGREEMENT NO. 2622

the other Parties to this Agreement prior to the release of the Confidential Information to the Commission or its staff. The Party shall notify the other Parties to the Agreement when it is notified by FERC or its staff that a request to release Confidential Information has been received by FERC, at which time the Parties may respond before such information would be made public, pursuant to 18 C.F.R. section 388.112. Requests from a state regulatory body conducting a confidential investigation shall be treated in a similar manner if consistent with the applicable state rules and regulations. A Party shall not be liable for any losses, consequential or otherwise, resulting from that Party divulging Confidential Information pursuant to a FERC or state regulatory body request under this paragraph.

16.13 Required Notices Upon Requests or Demands for Confidential Information

Except as otherwise expressly provided herein, no Party shall disclose Confidential Information to any person not employed or retained by the Party possessing the Confidential Information, except to the extent disclosure is (i) required by law; (ii) reasonably deemed by the disclosing Party to be required to be disclosed in connection with a dispute between or among the Parties, or the defense of litigation or dispute; (iii) otherwise permitted by consent of the other Party, such consent not to be unreasonably withheld; or (iv) necessary to fulfill its obligations under this Agreement, the ISO OATT or the NYISO Services Tariff. Prior to any disclosures of a Party's Confidential Information under this subparagraph, or if any third party or Governmental Authority makes any request or demand for any of the information described in this subparagraph, the disclosing Party agrees to promptly notify the other Party in writing and agrees to assert confidentiality and cooperate with the other Party in seeking to protect the Confidential Information from public disclosure by confidentiality agreement, protective order or other reasonable measures.

ARTICLE 17. AFFECTED SYSTEM OPERATOR NOTICES OF ENVIRONMENTAL RELEASES

Affected System Operator shall notify Transmission Developer, first orally and then in writing, of the release of any Hazardous Substances, any asbestos or lead abatement activities, or any type of remediation activities related to the Affected System Upgrade Facilities, each of which may reasonably be expected to affect the Transmission Developer. The Affected System Operator shall: (i) provide the notice as soon as practicable, provided such Party makes a good faith effort to provide the notice no later than twenty-four hours after such Party becomes aware of the occurrence; and (ii) promptly furnish to the other Party copies of any publicly available reports filed with any Governmental Authorities addressing such events.

ARTICLE 18. INFORMATION REQUIREMENT

18.1 Information Acquisition

Affected System Operator and Transmission Developer shall each submit specific information regarding the electrical characteristics of their respective facilities to the other

Parties and to the NYISO as described below and in accordance with Applicable Reliability Standards.

SERVICE AGREEMENT NO. 2622

18.2 Information Submission Concerning the Affected System Upgrade Facilities

On a monthly basis, Affected System Operator and Transmission Developer shall each provide the other Parties a status report on the engineering, construction, and installation of the Affected System Upgrade Facilities for which it has responsibility pursuant to Appendix A, including, but not limited to, the following information: (1) progress to date; (2) a description of the activities since the last report; (3) a description of the action items for the next period; and (4) the delivery status of equipment ordered.

18.3 Information Submission Concerning the Transmission Project

Transmission Developer shall submit a completed copy of the Transmission Project data requirements contained in Appendix 1 to the Transmission Interconnection Procedures. It shall also include any additional information provided to Affected System Operator for the Facilities Study. Information in this submission shall be the most current Transmission Project design or expected performance data. Information submitted for stability models shall be compatible with NYISO standard models. If there is no compatible model, the Transmission Developer will work with a consultant mutually agreed to by the Parties to develop and supply a standard model and associated information.

If the Transmission Developer's data is different from what was originally provided to Affected System Operator and NYISO pursuant to a Transmission Interconnection Study agreement among Affected System Operator, NYISO and Transmission Developer and this difference may be reasonably expected to affect the other Parties' facilities or the New York State Transmission System, but does not require the submission of a new Transmission Interconnection Application, then NYISO will conduct appropriate studies to determine the impact on the New York State Transmission System based on the actual data submitted pursuant to this Article 18.3. Such studies will provide an estimate of any additional modifications to the New York State Transmission System or Network Upgrade Facilities based on the actual data and a good faith estimate of the costs thereof. The Transmission Developer shall not begin Trial Operation for the Transmission Project until such studies are completed. The Transmission Developer shall be responsible for the cost of any modifications required by the actual data, including the cost of any required studies.

18.4 Information Supplementation

Affected System Operator and Transmission Developer shall supplement its information submissions described above in this Article 18 with any and all "as built" information or "as tested" performance information that differs from the initial submissions or, alternatively, written confirmation that no such differences exist.

ARTICLE 19. INFORMATION ACCESS AND AUDIT RIGHTS

19.1 Information Access.

Each Party (“Disclosing Party”) shall make available to another Party (“Requesting Party”) information that is in the possession of the Disclosing Party and is necessary in order for

SERVICE AGREEMENT NO. 2622

the Requesting Party to: (i) verify the costs incurred by the Disclosing Party for which the Requesting Party is responsible under this Agreement; and (ii) carry out its obligations and responsibilities under this Agreement. The Parties shall not use such information for purposes other than those set forth in this Article 18.1 of this Agreement and to enforce their rights under this Agreement.

19.2 Reporting of Non-Force Majeure Events.

Each Party (the “Notifying Party”) shall notify the other Parties when the Notifying Party becomes aware of its inability to comply with the provisions of this Agreement for a reason other than a Force Majeure event. The Parties agree to cooperate with each other and provide necessary information regarding such inability to comply, including the date, duration, reason for the inability to comply, and corrective actions taken or planned to be taken with respect to such inability to comply. Notwithstanding the foregoing, notification, cooperation or information provided under this Article shall not entitle the Party receiving such notification to allege a cause for anticipatory breach of this Agreement.

19.3 Audit Rights.

Subject to the requirements of confidentiality under Article 16 of this Agreement, each Party shall have the right, during normal business hours, and upon prior reasonable notice to another Party, to audit at its own expense the other Party’s accounts and records pertaining to the other Party’s performance or satisfaction of its obligations under this Agreement. Such audit rights shall include audits of the other Party’s costs, and calculation of invoiced amounts. Any audit authorized by this Article shall be performed at the offices where such accounts and records are maintained and shall be limited to those portions of such accounts and records that relate to the Party’s performance and satisfaction of obligations under this Agreement. Each Party shall keep such accounts and records for a period equivalent to the audit rights periods described in Article 18.4 of this Agreement.

19.4 Audit Rights Periods.

19.4.1 Audit Rights Period for Construction-Related Accounts and Records.

Accounts and records related to the design, engineering, procurement, and construction of the Affected System Upgrade Facilities shall be subject to audit for a period of twenty-four months following the issuance by Affected System Operator or Transmission Developer, as applicable, of a final invoice in accordance with Article 7.2 of this Agreement.

19.4.2 Audit Rights Period for All Other Accounts and Records.

Accounts and records related to a Party’s performance or satisfaction of its obligations under this Agreement other than those described in Article 18.4.1 of this Agreement shall be subject to audit as follows: (i) for an audit relating to cost obligations, the applicable audit rights period shall be twenty-four months after the auditing Party’s receipt of an invoice giving rise to

such cost obligations; and (ii) for an audit relating to all other obligations, the applicable audit rights period shall be twenty-four months after the event for which the audit is sought.

SERVICE AGREEMENT NO. 2622

19.5 Audit Results.

If an audit by a Party determines that an overpayment or an underpayment has occurred, a notice of such overpayment or underpayment shall be given to the other Party together with those records from the audit which support such determination.

ARTICLE 20. SUBCONTRACTORS

20.1 General.

Nothing in this Agreement shall prevent a Party from utilizing the services of any subcontractor as it deems appropriate to perform its obligations under this Agreement; provided, however, that each Party shall require its subcontractors to comply with all applicable terms and conditions of this Agreement in providing such services and each Party shall remain primarily liable to the other Parties for the performance of such subcontractor.

20.2 Responsibility of Principal.

The creation of any subcontract relationship shall not relieve the hiring Party of any of its obligations under this Agreement. The hiring Party shall be fully responsible to the other Parties for the acts or omissions of any subcontractor the hiring Party hires as if no subcontract had been made; provided, however, that in no event shall the NYISO or Affected System Operator be liable for the actions or inactions of the Transmission Developer or its subcontractors with respect to obligations of the Transmission Developer under Article 5 of this Agreement. Any applicable obligation imposed by this Agreement upon the hiring Party shall be equally binding upon, and shall be construed as having application to, any subcontractor of such Party.

20.3 No Limitation by Insurance.

The obligations under this Article 19 will not be limited in any way by any limitation of subcontractor's insurance.

ARTICLE 21. DISPUTES

21.1 Submission.

In the event any Party has a dispute, or asserts a claim, that arises out of or in connection with this Agreement or its performance (a "Dispute"), such Party shall provide the other Parties with written notice of the Dispute ("Notice of Dispute"). Such Dispute shall be referred to a designated senior representative of each Party for resolution on an informal basis as promptly as practicable after receipt of the Notice of Dispute by the other Parties. In the event the designated representatives are unable to resolve the Dispute through unassisted or assisted negotiations within thirty (30) Calendar Days of the other Parties' receipt of the Notice of Dispute, such Dispute may, upon mutual agreement of the Parties, be submitted to arbitration and resolved in accordance with the arbitration procedures set forth below. In the event the Parties do not agree

to submit such Dispute to arbitration, each Party may exercise whatever rights and remedies it may have in equity or at law consistent with the terms of this Agreement.

SERVICE AGREEMENT NO. 2622

21.2 External Arbitration Procedures.

Any arbitration initiated under this Agreement shall be conducted before a single neutral arbitrator appointed by the Parties. If the Parties fail to agree upon a single arbitrator within ten (10) Calendar Days of the submission of the Dispute to arbitration, each Party shall choose one arbitrator who shall sit on a three-member arbitration panel. In each case, the arbitrator(s) shall be knowledgeable in electric utility matters, including electric transmission and bulk power issues, and shall not have any current or past substantial business or financial relationships with any party to the arbitration (except prior arbitration). The arbitrator(s) shall provide each of the Parties an opportunity to be heard and, except as otherwise provided herein, shall conduct the arbitration in accordance with the Commercial Arbitration Rules of the American Arbitration Association (“Arbitration Rules”) and any applicable FERC regulations or RTO rules; provided, however, in the event of a conflict between the Arbitration Rules and the terms of this Article 20, the terms of this Article 20 shall prevail.

21.3 Arbitration Decisions.

Unless otherwise agreed by the Parties, the arbitrator(s) shall render a decision within ninety (90) Calendar Days of appointment and shall notify the Parties in writing of such decision and the reasons therefor. The arbitrator(s) shall be authorized only to interpret and apply the provisions of this Agreement and shall have no power to modify or change any provision of this Agreement in any manner. The decision of the arbitrator(s) shall be final and binding upon the Parties, and judgment on the award may be entered in any court having jurisdiction. The decision of the arbitrator(s) may be appealed solely on the grounds that the conduct of the arbitrator(s), or the decision itself, violated the standards set forth in the Federal Arbitration Act or the Administrative Dispute Resolution Act. The final decision of the arbitrator must also be filed with FERC if it affects jurisdictional rates, terms and conditions of service or Affected System Upgrade Facilities.

21.4 Costs.

Each Party shall be responsible for its own costs incurred during the arbitration process and for the following costs, if applicable: (1) the cost of the arbitrator chosen by the Party to sit on the three member panel; or (2) one-third the cost of the single arbitrator jointly chosen by the Parties.

21.5 Termination.

Notwithstanding the provisions of this Article 20, any Party may terminate this Agreement in accordance with its provisions or pursuant to an action at law or equity. The issue of whether such a termination is proper shall not be considered a Dispute hereunder.

ARTICLE 22. REPRESENTATIONS, WARRANTIES AND COVENANTS

22.1 General.

Each Party makes the following representations, warranties and covenants:

SERVICE AGREEMENT NO. 2622

22.1.1 Good Standing.

Such Party is duly organized, validly existing and in good standing under the laws of the state in which it is organized, formed, or incorporated, as applicable; that it is qualified to do business in the State of New York; and that it has the corporate power and authority to own its properties, to carry on its business as now being conducted and to enter into this Agreement and carry out the transactions contemplated hereby and perform and carry out all covenants and obligations on its part to be performed under and pursuant to this Agreement.

22.1.2 Authority.

Such Party has the right, power and authority to enter into this Agreement, to become a Party hereto and to perform its obligations hereunder. This Agreement is a legal, valid and binding obligation of such Party, enforceable against such Party in accordance with its terms, except as the enforceability thereof may be limited by applicable bankruptcy, insolvency, reorganization or other similar laws affecting creditors' rights generally and by general equitable principles (regardless of whether enforceability is sought in a proceeding in equity or at law).

22.1.3 No Conflict.

The execution, delivery and performance of this Agreement does not violate or conflict with the organizational or formation documents, or bylaws or operating agreement, of such Party, or any judgment, license, permit, order, material agreement or instrument applicable to or binding upon such Party or any of its assets.

22.1.4 Consent and Approval.

Such Party has sought or obtained, or, in accordance with this Agreement will seek or obtain, each consent, approval, authorization, order, or acceptance by any Governmental Authority in connection with the execution, delivery and performance of this Agreement, and it will provide to any Governmental Authority notice of any actions under this Agreement that are required by Applicable Laws and Regulations.

ARTICLE 23. MISCELLANEOUS

23.1 Binding Effect.

This Agreement and the rights and obligations hereof, shall be binding upon and shall inure to the benefit of the successors and permitted assigns of the Parties hereto.

23.2 Conflicts.

If there is a discrepancy or conflict between or among the terms and conditions of this cover agreement and the Appendices hereto, the terms and conditions of this cover agreement

shall be given precedence over the Appendices, except as otherwise expressly agreed to in writing by the Parties.

SERVICE AGREEMENT NO. 2622

23.3 Rules of Interpretation.

This Agreement, unless a clear contrary intention appears, shall be construed and interpreted as follows: (1) the singular number includes the plural number and vice versa; (2) reference to any person includes such person's successors and assigns but, in the case of a Party, only if such successors and assigns are permitted by this Agreement, and reference to a person in a particular capacity excludes such person in any other capacity or individually; (3) reference to any agreement (including this Agreement), document, instrument or tariff means such agreement, document, instrument, or tariff as amended or modified and in effect from time to time in accordance with the terms thereof and, if applicable, the terms hereof; (4) reference to any Applicable Laws and Regulations means such Applicable Laws and Regulations as amended, modified, codified, or reenacted, in whole or in part, and in effect from time to time, including, if applicable, rules and regulations promulgated thereunder; (5) unless expressly stated otherwise, reference to any Article, Section or Appendix means such Article of this Agreement or such Appendix to this Agreement, or such Section to the Transmission Interconnection Procedures or such Appendix to the Transmission Interconnection Procedures, as the case may be; (6) "hereunder", "hereof", "herein", "hereto" and words of similar import shall be deemed references to this Agreement as a whole and not to any particular Article or other provision hereof or thereof; (7) "including" (and with correlative meaning "include") means including without limiting the generality of any description preceding such term; and (8) relative to the determination of any period of time, "from" means "from and including", "to" means "to but excluding" and "through" means "through and including".

23.4 Compliance.

Each Party shall perform its obligations under this Agreement in accordance with Applicable Laws and Regulations, Applicable Reliability Standards, the ISO OATT and Good Utility Practice. To the extent a Party is required or prevented or limited in taking any action by such regulations and standards, such Party shall not be deemed to be in Breach of this Agreement for its compliance therewith. When any Party becomes aware of such a situation, it shall notify the other Parties promptly so that the Parties can discuss the amendment to this Agreement that is appropriate under the circumstances.

23.5 Joint and Several Obligations.

Except as otherwise stated herein, the obligations of NYISO, Transmission Developer and Affected System Operator are several, and are neither joint nor joint and several.

23.6 Entire Agreement.

This Agreement, including all Appendices and Schedules attached hereto, constitutes the entire agreement between the Parties with reference to the subject matter hereof, and supersedes all prior and contemporaneous understandings or agreements, oral or written, between the Parties with respect to the subject matter of this Agreement. There are no other agreements,

representations, warranties, or covenants which constitute any part of the consideration for, or any condition to, either Party's compliance with its obligations under this Agreement.

SERVICE AGREEMENT NO. 2622

23.7 No Third Party Beneficiaries.

This Agreement is not intended to and does not create rights, remedies, or benefits of any character whatsoever in favor of any persons, corporations, associations, or entities other than the Parties, and the obligations herein assumed are solely for the use and benefit of the Parties, their successors in interest and permitted their assigns.

23.8 Waiver.

The failure of a Party to this Agreement to insist, on any occasion, upon strict performance of any provision of this Agreement will not be considered a waiver of any obligation, right, or duty of, or imposed upon, such Party. Any waiver at any time by either Party of its rights with respect to this Agreement shall not be deemed a continuing waiver or a waiver with respect to any other failure to comply with any other obligation, right, duty of this Agreement. Any waiver of this Agreement shall, if requested, be provided in writing.

23.9 Headings.

The descriptive headings of the various Articles of this Agreement have been inserted for convenience of reference only and are of no significance in the interpretation or construction of this Agreement.

23.10 Multiple Counterparts.

This Agreement may be executed in two or more counterparts, each of which is deemed an original but all constitute one and the same instrument.

23.11 Amendment.

The Parties may by mutual agreement amend this Agreement, by a written instrument duly executed by all three of the Parties.

23.12 Modification by the Parties.

The Parties may by mutual agreement amend the Appendices to this Agreement, by a written instrument duly executed by all three of the Parties. Such an amendment shall become effective and a part of this Agreement upon satisfaction of all Applicable Laws and Regulations.

23.13 Reservation of Rights.

NYISO and Affected System Operator shall have the right to make unilateral filings with FERC to modify this Agreement with respect to any rates, terms and conditions, charges, classifications of service, rule or regulation under section 205 or any other applicable provision of the Federal Power Act and FERC's rules and regulations thereunder, and Transmission Developer shall have the right to make a unilateral filing with FERC to modify this Agreement pursuant to section 206 or any other applicable provision of the Federal Power Act and FERC's

rules and regulations thereunder; provided that each Party shall have the right to protest any such filing by another Party and to participate fully in any proceeding before FERC in which such

SERVICE AGREEMENT NO. 2622

modifications may be considered. Nothing in this Agreement shall limit the rights of the Parties or of FERC under sections 205 or 206 of the Federal Power Act and FERC's rules and regulations thereunder, except to the extent that the Parties otherwise mutually agree as provided herein.

23.14 No Partnership.

This Agreement shall not be interpreted or construed to create an association, joint venture, agency relationship, or partnership among the Parties or to impose any partnership obligation or partnership liability upon any Party. No Party shall have any right, power or authority to enter into any agreement or undertaking for, or act on behalf of, or to act as or be an agent or representative of, or to otherwise bind, any other Party.

23.15 Other Transmission Rights.

Notwithstanding any other provision of this Agreement, nothing herein shall be construed as relinquishing or foreclosing any rights, including but not limited to firm transmission rights, capacity rights, or transmission congestion rights that the Transmission Developer shall be entitled to, now or in the future under any other agreement or tariff as a result of, or otherwise associated with, the transmission capacity, if any, created by the Affected System Upgrade Facilities.

SERVICE AGREEMENT NO. 2622

IN WITNESS WHEREOF, the Parties have executed this Agreement in duplicate originals, each of which shall constitute and be an original effective Agreement between the Parties.

SERVICE AGREEMENT NO. 2622

APPENDICES

Appendix A EPC Services

Appendix B Addresses for Delivery of Notices and Billings

Appendix C In-Service Date

SERVICE AGREEMENT NO. 2622

APPENDIX A

EPC SERVICES

I. Affected System Upgrade Facilities

The Transmission Developer is developing the Transmission Project, which was selected by the NYISO as the more efficient or cost effective transmission solution to address Segment B of the AC Transmission Public Policy Transmission Needs. The Transmission Interconnection Studies for the Transmission Project identified certain potential adverse impacts at Connecting Transmission Owner's 345 kV Dolson Ave Substation. As detailed below, Transmission Developer will evaluate the existing relay calculations and settings for the Dolson Ave. Substation and shall prepare all necessary relay calculations and settings for relays that are required to be reset as a result of the Transmission Project. Affected System Operator will perform any required modifications to the relay settings.

A. Affected System Operator's EPC Services

The Affected System Operator's work responsibilities under this Agreement shall generally consist of the following, which shall be performed in accordance with the terms of this Agreement:

- Project management and engineering services (at no cost to Affected System Operator) associated with the collection and transfer of all materials and data required for the Transmission Developer or its contractor to perform the evaluation of existing relay calculations and settings for the Dolson Ave. Substation, which are considered Network Upgrade Facilities in connection with the Transmission Project.
- Project management and engineering services (at no cost to Affected System Operator) to support the Transmission Developer's performance and completion of a relay setting evaluation, which may include the provision of relay setting calculations, vendor drawings, specifications, procedures, and any design, procurement and/or construction standards as may become necessary for the Transmission Developer or its contractor to complete the design, procurement and construction of any relays that are required to be replaced as a result of the relay evaluation. All drawings shall be provided in the format in which they are available, primarily PDF or Vellum.
- Timely review of the Transmission Developer's (1) relay setting evaluation results, (2) if required, any revised relay setting calculations, and (3) if relay replacement is required to achieve the desired protective performance, then engineering documents and packages, approval of technical designs, equipment specifications, construction drawings, relay settings will also be provided for Affected System Operator review and approval. In the event that relay procurement specifications are required for any relays, they shall be

provided to Affected System Operator for its review and approval. The Transmission Developer or its contractor will create and issue any purchase orders as needed.

A-1

SERVICE AGREEMENT NO. 2622

- Provide Transmission Developer or its contractor and subcontractors reasonable access to the Dolson Ave. Substation as needed to perform the engineering, procurement, and construction activities as may be required.

The Affected System Operator's specific work responsibilities under this Agreement shall consist of the following, which shall be performed in accordance with the terms of this Agreement:

1. The Facilities Study Report for the Transmission Project has determined that relays, located at the Dolson Ave. Substation may be affected by the Transmission Project.
2. It is anticipated that the Transmission Project upgrades and modifications to the Dolson Ave. Substation will require the existing relay protection and control schemes to be reviewed and evaluated for impacts by the Transmission Project. Affected System Operator shall provide any existing substation relay setting calculations and relay files, in currently available format. Affected System Operator shall provide standard protection guidelines or system protection philosophies to be followed during the evaluation.
3. At no cost to Affected System Operator, in the event that relays cannot be reset to achieve the required protective level, certain relays may require replacement. As such, Affected System Operator will support procurement and related procurement activities as requested by the Transmission Developer. Transmission Developer or its contractor is responsible for identifying and procuring any long-lead time items.
4. Participate in, or establish as requested, design review meetings to discuss relay settings evaluation results and proposals, designs submitted, standards that are to be included/adjusted, make station field visits if existing relay replacements are required, and have necessary attendance at regularly occurring project review and coordination/review meetings during the course of the Transmission Project.
5. Develop a detailed schedule, and status updates, for the completion of implementing any Affected System Operator relay settings and/or relay replacements if deemed necessary to achieve the relays' required protective levels. In the event that relay resetting or replacement is required, then the Transmission Project's in-service date of mid-2023 must be factored into consideration when looking at implementation
6. Perform start up commissioning and testing, and any notifications as may be required by the NYISO RAD Manual (Manual 24).
7. Update Affected System Operator's substation equipment procedures to reflect relay modifications as may be needed.
8. Provide contact information for the Affected System Operator designees for review of relay calculation and setting review evaluation.

A-2

SERVICE AGREEMENT NO. 2622

9. Approve the use of outside experts, counsel, consultants, and contractors in furtherance of Affected System Operator's work responsibilities contemplated herein as needed, or as requested by the Transmission Developer.
10. Provide a detailed listing of any technical materials that are required by Affected System Operator to complete the relay evaluation.

For the avoidance of doubt: Affected System Operator shall not have any responsibility for seeking or acquiring any real property rights in connection with Affected System Operator's work responsibilities under this Agreement, the Transmission Project, or this Agreement, including, without limitation, licenses, consents, permissions, certificates, approvals, or authorizations, or fee, easement or right of way interests. Although the Transmission Developer shall undertake any permitting activities, Affected System Operator acknowledges that formal signature by Affected System Operator may be required as determined by local permitting requirements. If so required, Affected System Operator agrees to execute such permits on a timely basis.

For further avoidance of any doubt, Affected System Operator's work responsibilities described in this Appendix A and under this Agreement shall occur at no cost to Affected System Operator.

B. Transmission Developer's EPC Services

Transmission Developer's specific work responsibilities under this Agreement shall consist of the following, which shall be performed in accordance with the terms of this Agreement:

1. Transmission Developer or its designee shall review relevant data and information related to the Dolson Ave. Substation relay settings, including the CPV Valley RTDS Test Specification & Final Report, and evaluate the acceptability of the existing settings for the transmission system currents resulting from the Transmission Project.
2. Transmission Developer or its designee shall prepare and submit to Affected System Operator for its review and approval the results of the completed relay evaluation study, including results of RTDS Tests, if required, and all necessary calculations/files for relays that are required to be reset.
3. In the event that relays cannot be reset and achieve the required protective levels, Transmission Developer or its designee shall prepare and submit to Affected System Operator for its review and approval all necessary relay procurement / equipment specifications and drawings.
4. Transmission Developer or its designee shall prepare and submit to Affected System Operator for its review and approval all necessary engineering packages as may be needed.

A-3

SERVICE AGREEMENT NO. 2622

5. Transmission Developer or its designee shall setup, run and coordinate, at a minimum, monthly meetings for relay evaluation study status, support and updates. This includes coordination with Central Hudson Gas and Electric Corporation on status of relay settings evaluation/implementation at Rock Tavern Station.
6. Other responsibilities, including performance of RTDS Tests if required, and access deemed necessary by Transmission Developer or Affected System Operator to facilitate performance of the Affected System Operator's work responsibilities under this Agreement.
7. Transmission Developer or its designee will perform the procurement of equipment and materials required to incorporate the Transmission Project.
8. Transmission Developer will work with equipment suppliers to ensure that the manufacturers' warranties are in the name of Affected System Operator for Affected System Operator's owned / retained upgrades.

Transmission Developer's work responsibilities under this Agreement, along with Affected System Operator's work responsibilities under this Agreement, shall be performed at Transmission Developer's cost, and at no cost to Affected System Operator.

II. Affected System Upgrade Facilities Estimated Total Costs

<u>Description</u>	<u>Estimated Costs</u>
Affected System Upgrade Facilities	\$ 179,840
Total	\$ 179,840

III. Security

In accordance with Articles 6.2 and 7.1 of this Agreement, Transmission Developer shall make a lump sum payment of \$179,840 as Security for Affected System Operator's estimated costs to construct and install the Affected System Upgrade Facilities, such payment to be made within thirty (30) Calendar Days after the Effective Date of this Agreement.

The Affected System Operator shall not be obligated to commence engineering or construction, as applicable, unless the Affected System Operator has received payment in full of the Security as contemplated above.

The Affected System Operator may draw upon the Security to fulfill its obligations to construct the Affected System Upgrade Facilities as required under this Agreement.

The Parties acknowledge that the Security as set forth above are estimated costs only and, subject to Article 6.4.3 of this Agreement, shall not limit Transmission Developer's obligation to

pay Affected System Operator for all costs actually incurred by Affected System Operator to construct, and install the Affected System Upgrade Facilities as contemplated by this Agreement,

A-4

SERVICE AGREEMENT NO. 2622

and for any other unpaid amounts due and payable by Transmission Developer under the terms of this Agreement. If the actual cost of the Affected System Upgrade Facilities is greater than the agreed-to and secured amount for reasons other than those set forth in Article 6.4.2, Affected System Operator will invoice Transmission Developer in accordance with Articles 6.4.3 and 7.1 for such excess costs to the extent such costs are prudently incurred, and Transmission Developer shall pay any such properly-issued invoice within thirty (30) Calendar Days of receipt in accordance with Article 7.3. Disputes between Transmission Developer and Affected System Operator concerning costs in excess of the agreed-to and secured amount will be resolved by the parties in accordance with Article 21.

Final invoicing and any final refund of Security shall be made in accordance with Articles 7.1 and 7.2 of this Agreement.

IV. Milestones

Item	Milestone	Date	Responsible Party
1.	Kick off meeting	August 1, 2021	Transmission Developer
2.	30% Calcs & Setting Review	September 16, 2021	Transmission Developer
3.	Affected System Operator Review of 30% Calcs & Setting Review Package	20 Business Days After Receipt of Review Package	Affected System Operator
4.	90% Calcs & Setting Review	December 15, 2021	Transmission Developer
5.	Affected System Operator Review of 90% Calcs & Setting Review Package	20 Business Days After Receipt of Review Package	Affected System Operator
6.	Issued for Construction	January 15, 2022	Transmission Developer
7.	In-Service Date	On or before October 1, 2022	Affected System Operator

Transmission Developer or its contractor shall endeavor to complete the work in the timeframe mutually agreed upon by Transmission Developer and Affected System Operator as set forth in the milestone table. At the 30% Review milestone, Transmission Developer shall provide Affected System Operator with Transmission Developer's assessment of relay setting review and if the settings will need to be updated. Affected System Operator agrees to provide comments or approvals in accordance with the agreed upon schedule.
