**Re: Supplemental Filing to
Motion of New York Independent System Operator, Inc. to
Defer Effective Date of Compliance Tariff Revisions;
Docket No. ER13-102-003**

Dear Ms. Bose:

On July 2, 2014, the New York Independent System Operator, Inc. (“NYISO”) filed a motion requesting that the Federal Energy Regulatory Commission (“Commission”) defer the proposed effective date for the revisions to the NYISO’s Open Access Transmission Tariff (“OATT”) and Market Administration and Control Area Services Tariff (“Services Tariff”) to bring its Comprehensive System Planning Process into compliance with the Order No. 1000 regional transmission planning requirements.¹ The NYISO submitted with its motion clean versions of the OATT and Services Tariff sections that contain the tariff revisions filed in response to the Order No. 1000 regional requirements, replacing the previously proposed effective date for these tariff sections with an open effective date.²

Following discussions with Commission staff on July 3, 2014, the NYISO submits herewith a supplemental ministerial filing to provide redline versions of the OATT and Services Tariff sections for which the NYISO is requesting a revised effective date. The NYISO also re-submits the related clean versions. The redline versions of the tariff sections are set against the

On July 3, 2014, the Commission issued its notice of the NYISO’s motion. *New York Independent System Operator, Inc.*, Notice of Compliance Filing, Docket No. ER13-102-003 (July 3, 2014)

² The NYISO requested that the Commission direct it to submit a compliance filing that reflects the revised effective dates requested in the motion for the affected tariff provisions. July 2 Motion at p 12.

most recently filed versions of these tariff sections prior to the July 2, 2014, motion, as indicated in the following table:

NYISO Tariff Sections	Most Recent Tariff Filing
Sections 31.1, 31.2, 31.3, 31.4, 31.5, and 31.6 of Attachment Y of the OATT and Schedule 10 of the OATT	October 15, 2013, Order No. 1000 Compliance Filing in FERC Docket No. ER13-102-002 ³
Section 31.7 of Attachment Y of the OATT and Sections 3.8 and 3.10 of the OATT	October 11, 2012, Order No. 1000 Compliance Filing in FERC Docket No. ER13-102-000 ⁴
Section 30.4 of the Services Tariff	November 25, 2013, Filing in FERC Docket No. ER14-461-000 (Unrelated to Order No. 1000 Proceeding) ⁵

The redlines are identical to the clean versions, as the NYISO is not proposing any changes to these tariff sections, except to modify the effective date. The revisions to the effective date are provided in the metadata of the Commission's eTariff system.

I. LIST OF DOCUMENTS SUBMITTED

With this transmittal letter, the NYISO submits:

1. A clean version of the revisions to the OATT ("Attachment I");
2. A redlined version of the revisions to the OATT ("Attachment II");
3. A clean version of the revisions to the Services Tariff ("Attachment III"); and
4. A redlined version of the revisions to the Services Tariff ("Attachment IV").

II. COMMUNICATIONS

Communications and correspondence regarding this filing should be directed to:

⁴ *New York Independent System Operator, Inc. and New York Transmission Owners*, Compliance Filing, Docket No. ER13-102-000 (October 11, 2012).

⁵ The revisions to Section 30.4 of the Services Tariff submitted in the November 25, 2013, filing in Docket No. ER14-461-000 were unrelated to Order No. 1000. Consistent with the NYISO's longstanding practice, the NYISO's tariff revisions to Section 30.4 were submitted on top of the latest clean version of that section, which included revisions proposed by the NYISO in the Order No. 1000 proceeding in its October 11, 2012, and October 15, 2013, compliance filings.
