Re: *New York Independent System Operator, Inc.*, Filing to Supplement the  
Record; Docket No. ER13-102-015

Dear Secretary Bose:

On September 13, 2016, the New York Independent System Operator, Inc. (“NYISO”) filed, with the Federal Energy Regulatory Commission (“Commission”), revisions to the NYISO’s Open Access Transmission Tariff (“OATT”)<sup>1</sup> to fulfill the directives of the Commission in its December 23, 2015, *Order Conditionally Accepting Tariff Revisions and Requiring Further Compliance*.<sup>2</sup> The filing was conditionally accepted by the Commission, subject to further compliance, on February 15, 2018.<sup>3</sup> The NYISO submits this filing to supplement the record to clarify its June 18, 2018 refiling to correct the record, which amended the Commission’s eTariff record for Section 20.2 of the OATT. Specifically, the NYISO inadvertently uploaded an incorrect file containing Section 2.20 of the OATT in eTariff instead of Section 20.2 of the OATT, as revised by the NYISO in its September 2016 Filing and accepted by the Commission.<sup>4</sup>

## **I. Description of Filing**

In its September 2016 Filing, the NYISO made certain revisions to Section 20.2 of the OATT, and those revisions were correctly represented in the clean and blacklined versions attached as Attachments I and II to the NYISO's filing letter. As the NYISO noted in its June 18, 2018 refiling to correct the record, the NYISO identified an error in one of the sections uploaded to eTariff for the September 2016 Filing. Specifically, the NYISO mistakenly uploaded a file containing Section 2.20 of the OATT into eTariff for Section 20.2 of the OATT instead of the revised Section 20.2 of the OATT. In its June 2018 Filing, the NYISO corrected that error by uploading the version of Section 20.2 of the OATT that the Commission accepted in the eTariff system to replace the existing incorrect document (*i.e.*, Section 2.20 of the OATT) with the same effective date of April 1, 2016 and requested the Commission to accept that change.<sup>5</sup>
