On May 28, 2021, New York Independent System Operator, Inc. (NYISO) and Niagara Mohawk Power Corporation d/b/a National Grid (NMPC) (together, Joint Filing Parties) filed an executed Standard Small Generator Interconnection Agreement (SGIA) between NYISO, NMPC, and Rock District Solar, LLC (Rock District), designated as Service Agreement No. 2662 under NYISO's Open Access Transmission Tariff (OATT).¹ The SGIA provides for the interconnection of the 20 MW Rock District Solar Project to be located in Cobleskill, New York to certain facilities owned by NMPC that are part of the New York State Transmission System. Joint Filing Parties state that the SGIA contains language that does not conform to the language in the *pro forma* SGIA contained in Attachment Z of the NYISO OATT. Specifically, section 1.5.3 of the SGIA has been modified to clarify that Rock District can construct NMPC's Interconnection Facilities and Upgrades with the agreement of the parties to the SGIA. Joint Filing Parties request that the SGIA be accepted for filing effective May 18, 2021.
