Re: New York Independent System Operator, Inc., Compliance Filing Revising
Specified Effective Date; Docket No. ER11-2544-____

Dear Ms. Bose:

I. DISCUSSION

On December 28, 2010, the New York Independent System Operator, Inc. (“NYISO”) submitted proposed tariff revisions to its Market Mitigation Measures (“MMM”)¹ (“December 28 Filing”). The December 28 Filing proposed tariff revisions based on a review of the NYISO’s MMM that identified opportunities to improve and clarify its provisions. The NYISO’s December 28 Filing requested a late June 2011 flexible effective date for four specifically identified tariff revisions because software modifications were necessary to implement the new rules. The proposed tariff revisions, including the NYISO’s request for a flexible effective date, were accepted in an Order issued pursuant to delegated authority on February 10, 2011 (“February 10 Order”).² The February 10 Order states “[t]he tariff revisions with a requested late June 2011 flexible date are accepted subject to a compliance filing specifying the effective date.”³

On June 7, 2011, the NYISO submitted a compliance filing specifying a June 23, 2011 effective date for the four tariff revisions accepted in the February 10 Order. However, due to delays in the operational testing of the new software required to implement the tariff

¹ The NYISO’s Market Power Mitigation Measures are set forth in Section 23 of (Attachment H) to its Market Administration and Control Area Services Tariff.

² The sections of the MMM that were accepted with a flexible effective date are sections 23.3.1.4.1.2 (calculation of LBMP-based reference levels), 23.3.1.4.3 (Incremental Energy reference levels for New Capacity), 23.4.4.2.1 (load bid monitoring calculation) and 23.4.6.2.1 (virtual bid monitoring calculation).

revisions, the NYISO currently anticipates that testing will be complete on June 28, 2011 and intends to implement the tariff revisions commencing with the June 30, 2011 Day-Ahead and Real-Time Markets. Should the NYISO determine that it will be unable to implement the software on June 30, 2011, it will promptly notify the Commission and New York Market Participants.

II. DOCUMENTS SUBMITTED

The NYISO submits the following documents:

1. This filing letter; and
2. A clean version of the revisions to section 23 of the NYISO's Services Tariff for which the NYISO requested, and the Commission accepted, a late June 2011 flexible effective date ("Attachment I").

III. EFFECTIVE DATE

Consistent with the Commission's February 10 Order, the NYISO requests that the Commission accept June 30, 2011 as the revised effective date for these four tariff revisions. The NYISO intends to implement these revisions commencing with the June 30, 2011 Day-Ahead and Real-Time Markets.

IV. SERVICE LIST

The NYISO will send an electronic link to this filing to the official representative of each of its customers, to each participant on its stakeholder committees, to the New York Public Service Commission, to all parties listed on the Commission's official service list in Docket No. ER11-2544-000 and to the New Jersey Board of Public Utilities. In addition, the complete filing will be posted on the NYISO's website at www.nyiso.com.

V. CONCLUSION

The NYISO respectfully submits this compliance filing, and consistent with Section III of this letter, requests an effective date of June 30, 2011 for the four tariff revisions that were granted a flexible effective date in the February 10 Order.

Respectfully submitted,

/s/ James H. Sweeney
