Washington, DC 20426

Re: New York Independent System Operator, Inc., Errata to correct tariff language and effective date in NYISO's Second Compliance Filing; Docket No. ER16-1404-005

Dear Secretary Bose:

The New York Independent System Operator, Inc. ("NYISO") hereby submits this errata filing in the above-captioned proceeding.<sup>1</sup> As filed, the tariff revisions proposed in the NYISO's filing on December 22, 2020, "Second Compliance Filing" modify the NYISO's Self Supply Exemption ("SSE") under the NYISO's buyer-side capacity market power mitigation rules (the "BSM Rules"<sup>2</sup>) in accordance with the directives of the February 20 Order.<sup>3</sup>

The Second Compliance Filing was noticed by the Commission on December 22, 2020. On the same date, the NYISO submitted an errata filing to correct two of the tariff records that contained minor errors in the Second Compliance Filing. This errata filing proposes to correct additional minor errors contained in the tariff record for the SSE.

**I. Documents Submitted with this Filing Letter**

1. A redlined version of the NYISO's Services Tariff Section 23.4.5.7.14 to replace the version filed December 22, 2020 ("Attachment I");
2. A clean version of the replacement version of Section 23.4.5.7.14 ("Attachment II"); and
3. A clean version of the revisions to the Services Tariff proposed in this filing, with the language filed in Docket No. ER17-2096 marked in italics ("Attachment III").

---

<sup>1</sup> New York Independent System Operator, Inc., *Second Compliance Filing to Establish Self Supply Exemption*, Docket No. ER16-1404-005 (December 22, 2020).

<sup>2</sup> The BSM Rules are set forth in Attachment H (Section 23) of the NYISO's Market Administration and Control Area Services Tariff ("Services Tariff").

<sup>3</sup> *New York Independent System Operator, Inc.*, 170 FERC ¶ 61,121 (2020) ("February 20 Order").

## **II. Errata**

The correction to the language in Section 23.4.5.7.14 is to remove an extraneous “=” found in Section 23.4.5.7.14.1.1(a) and undo an inadvertent replacement of “three” with “ten” in Section 23.4.5.7.14.3 within the definition “Excess Award Percentage,” Section 23.4.5.7.14.3.1.1 (a) within the definition “ICAP Spot Market Auction Price without Entry,” and Section 23.4.5.7.14.3.1.2 (a) within the definition “ICAP Spot Market Auction Price with Entry.”

The NYISO also included in the Second Compliance Filing, language that was filed in Docket No. ER17-2096-000 with an open effective date to assign it the same effective date as the proposed compliance revisions. It has come to the NYISO’s attention that it inadvertently failed to include such language in Section 23.4.5.7.14. Attachment III to this letter is a clean version of the language proposed in the Second Compliance Filing, as amended this filing, with the language filed in ER17-2096 marked in italics.

## **III. Service**

This errata to the NYISO’s December 22, 2020 Second Compliance Filing will be posted on the NYISO’s website at [www.nyiso.com](http://www.nyiso.com). In addition, the NYISO will e-mail an electronic link to this filing to the official representative of each party to this proceeding, to each of its customers, to each participant on its stakeholder committees, to the New York Public Service Commission, and to the New Jersey Board of Public Utilities.

## **IV. Conclusion**

The New York Independent System Operator, Inc. respectfully requests that the Commission accept for filing the proposed Services Tariff corrections that are attached hereto, with an effective date of February 20, 2021, the same effective date requested for the Second Compliance Filing.

Respectfully submitted,

/s/ David Allen
