Re: Joint Filing of an Executed Small Generator Interconnection Agreement for the NY 13 Solar Project Among the New York Independent System Operator, Inc., Niagara Mohawk Power Corporation d/b/a National Grid, and Bald Mountain Solar LLC; Request for Waiver of the 60-Day Notice Period; Docket No. ER22-____-000

Dear Ms. Bose:

Pursuant to Section 205 of the Federal Power Act¹ and Section 35.13 of the Commission's regulations,² the New York Independent System Operator, Inc. ("NYISO") and Niagara Mohawk Power Corporation d/b/a National Grid ("National Grid") (together, the "Joint Filing Parties") hereby tender for filing an executed Small Generator Interconnection Agreement for the NY 13 Solar Project (NYISO Queue No. 855) entered into by the NYISO, National Grid, as the Connecting Transmission Owner, and Bald Mountain Solar LLC ("Bald Mountain"), as the Interconnection Customer (the "Interconnection Agreement").³ The Interconnection Agreement is labeled as Service Agreement No. 2681 under the NYISO's Open Access Transmission Tariff ("OATT").

The Joint Filing Parties respectfully request that the Commission accept the Interconnection Agreement for filing. With the limited exception described in Part I of this letter, the Interconnection Agreement conforms to the NYISO's *pro forma* Small Generator Interconnection Agreement ("Pro Forma SGIA") that is contained in Attachment Z to the OATT. Further, as described in Part II of this letter, the Joint Filing Parties respectfully request a waiver of the Commission's prior notice requirements⁴ to make the Interconnection Agreement effective as of February 10, 2022, which is the date of its full execution.

¹ 16 U.S.C. § 824d.

² 18 C.F.R. § 35.13 (2022).

³ Capitalized terms that are not otherwise defined in this filing letter shall have the meaning specified in Attachments S, X, or Z of the NYISO OATT, and if not defined therein, in the NYISO OATT and NYISO Market Administration and Control Area Services Tariff.

⁴ See *Prior Notice and Filing Requirements Under Part II of the Federal Power Act*, 64 FERC ¶ 61,139, clarified, 65 FERC ¶ 61,081 (1993).

I. Discussion

A. Background

Bald Mountain is constructing a 20 MW solar generating facility in Greenwich, New York (the “Facility”). Additional details regarding the Facility can be found in Attachment 2 of the Interconnection Agreement.

The Facility will interconnect to certain facilities of National Grid that are part of the New York State Transmission System. The Point of Interconnection is National Grid’s existing 115kV Mohican-Schaghticoke Line 309 between existing structures 109 and 110. Attachment 3 of the Interconnection Agreement includes a one-line diagram showing the Point of Interconnection.

B. The Interconnection Agreement Closely Conforms to the Pro Forma SGIA Contained in Attachment Z of the NYISO OATT

The Interconnection Agreement was fully executed on February 10, 2022, by the NYISO, National Grid, and Bald Mountain. The Interconnection Agreement largely conforms to the language in the Pro Forma SGIA contained in Attachment Z of the NYISO OATT with the exception described below in this Part I.B. The Joint Filing Parties submit that the change specified below satisfies the Commission’s standard for variations from the Pro Forma SGIA, because unique circumstances exist that require a non-conforming agreement.⁵ Therefore, the Joint Filing Parties respectfully request that the Commission accept the Interconnection Agreement with the non-conforming change.

1. Bald Mountain’s Construction of Portions of the Connecting Transmission Owner’s Interconnection Facilities

Section 1.5.3 of the Pro Forma SGIA provides that the Connecting Transmission Owner shall construct, operate, and maintain its Interconnection Facilities and Upgrades covered by the agreement. National Grid and Bald Mountain have agreed that Bald Mountain will be responsible for constructing certain Connecting Transmission Owner’s Interconnection Facilities associated with the Facility. Accordingly, the parties agreed to modify Section 1.5.3 of the Interconnection Agreement to clarify that the Interconnection Customer, Bald Mountain, can construct the Connecting Transmission Owner’s Interconnection Facilities and upgrades with the agreement of the parties. The Commission has previously accepted this change to the Pro Forma SGIA.⁶

⁵ See, e.g., *PJM Interconnection, LLC*, 111 FERC ¶ 61,163 at PP 10-11, *reh’g denied*, 112 FERC ¶ 61,282 (2005).

⁶ See *New York Independent System Operator, Inc. and New York State Electric & Gas Corporation*, Letter Order, Docket No. ER20-1603-000 (June 18, 2020) (accepting interconnecting agreement modified to permit the Interconnection Customer to agree to construct Connecting Transmission Owner’s Interconnection Facilities); *New*

II. Proposed Effective Date and Request for Waiver of the 60-Day Notice Period

The Joint Filing Parties request an effective date of February 10, 2022, for the Interconnection Agreement, which is the date of its full execution. The Joint Filing Parties respectfully request that the Commission waive its prior notice requirement to permit the requested effective date. The Commission has previously permitted interconnection agreements to become effective upon the date of execution.⁷
