General Note:	References to pages in this formulary rate are indicated as	: (page#, line#, col.#)
	References to data from FERC Form 1 are indicated as:	#.y.x (page, line, column)

Letter

The balances in Accounts 190, 281, 282 and 283, as adjusted by any amounts in contra accounts identified as regulatory assets or liabilities related to FASB 106 or 109. Balance of Account 255 is reduced by prior flow throughs and excluded if the utility chose

Builties amontization of tax credits against taxable income as discussed in Note F. Account 281 is not allocated.

Identified in Form 1 as being only transmission related

Cash Working Capital assigned to transmission is one-eighth of O&M allocated to transmission minus the amortization of any Regulatory Asset.

Prepayments are the electric related prepayments booked to Account No. 165 and reported on Pages 110-111 line 57 in the Form 1

Triespylments are the electric teach perspylments about to Account in No. 100 and repoted of register 100 miles? If the 42 removes EPRI Annual Membership Dues listed in Form 1 at 353_f (enter FNI line #), any EPRI Lobbying expenses included in line 42 of the template and all Regulatory Commission Expenses itemized at 351.h. line 42 removes all advertising included in Account 930.1, except safety, education or out-reach related advertising Line 42 removes all EEI and EPRI research, development and demonstration expenses and NEET NY will not participate in EEI or EPRI.

Line 42 reflects all Regulatory Commission Expenses directly related to transmission survivers. In Vivinity and includes a reflect a Error. Line 43 reflects all Regulatory Commission Expenses directly related to transmission surviver, [StO filings, or transmission stilling llemized at 351 Line 39 or Line 41 and thus Line 45 shall include any NYISO charges other than penallies, including but not limited to administrative costs. Includes only FICA, unemployment, highway, property, gross receipts, and other assessments charged in the current year. Taxes related to income are excluded. Gross receipts taxes are not included in transmission revenue requirement in the Rate Formula Template,

since they are recovered elsewhere.

Since use an excurrence deservate.

The currently effective income tax rate, where FIT is the Federal income tax rate; SIT is the State income tax rate, and p =
"the percentage of federal income tax deductible for state income taxes". If the utility is taxed in more than one state it must attach a
work paper showing the name of each state and how the blended or composite SIT was developed. Furthermore, a utility that elected to utilize amortization of tax credits against taxable income, rather than book tax credits to Account No. 255 and reduce rate base, must reduce in siscome tax expense by the amount of the Amortized Investment Tax Credit (266.8.1) multiplied by (7/1-T). Excess Deferred Income Taxes reduce income tax expenses by the amount of the expense multiplied by (7/1-T).

Inputs Required: SIT= (State Income Tax Rate or Composite SIT from Attach 3)

SII = ... (State Income last Acte or Composite SII from Attach 3)
p = (percent of Tederal Income tax Acte or Composite SII from Attach 3)
(percent of Tederal Income tax Acte or Composite SII from Attach 3)
p = For each Rate Year (including both Annual Projections and True-Up Adjustments) the statutory income tax rates utilized in the Formula Rate shall reflect the weighted average rates
actually in effect during the Rate Year. For example, if the statutory tax rate is 10% from January 1 through June 30, and 5% from July 1 through December 31, such rates would be weighted
181/365 and 184/365, respectively, for a non-leap year.
Prior to obtaining any bett, the cost of debt will be LIBOR plus 1.5%. Once any debt is obtained, the formula will use the actual cost of long term debt determined in Attachment 3. The capital
structure will be 60% equity and 40% debt until NextEra Energy Transmission New York, Inc.'s first transmission project enteries service, after which the capital structure will be the actual capital
structure. LIBOR refers to the London Inter Bank Offer Rate from the Federal Reserve Bank of St. Louis's https://fleet.stlouisfed.org/. The capital structure and cost of debt will be the weighted for
Removes dollar amount of framswission nated included in the development of CMATT anafalax services science and enceration.

Removes dollar amount of transmission plant included in the development of OATT ancillary services rates and generation

facilities are those facilities at a generator substation on which there is no through-flow when the generator is shut down.

Enter dollar amounts

ROE will be supported in the original filing and no change in ROE may be made absent a filing with FERC under FPA Section 205 or 206.

Recovery of Regulatory Assets is permitted only for pre-commercial expenses incurred prior to the date when NEET New York may first recover costs under the NYISO Tariff, as authorized by the Unamortized Regulatory Assets, consisting of all expenses incurred but not included in CWIP prior to the date the rate is charged to customers, is included at line 28 Carrying costs equal to the weighted cost of capital on the balance of the regulatory asset will accrue until the rate is charged to customers

Balances exclude Asset Retirement Costs

N Non-incentive investments are investments without ROE incentives and incentive investments are investments with ROE incentives

Unfunded Reserves are customer contributed capital such as when employee vacation expense is accrued but not yet incurred. Also, pursuant to Special Instructions to Accounts 228.1 through 228.4, Ω

no amounts shall be credited to accounts 228.1 through 228.4 unless authorized by a regulatory authority or authorities to be collected in a utility's rates.

In the event that leased tranmission assests or right of ways involve a lumpsum upfront payment, it will be amortized over the life of the lease to Account No. 567 and the unamortized balance will be included here. In the event such a lease involves monthly or annual payments, the payments will be booked to Account 567.

Includes the amortization of any excess/deficient deferred income taxes resulting from changes to income tax laws, income tax rates (including changes in apportionment) and other actions taken by a taxing

authority. Excess and deficient deferred income taxes will reduce or increase tax expense by the amount of the excess or deficiency multiplied by (171-1) (page 3, line 67, column 3).
Includes the annual income tax cost or benefits due to permanent differences or differences between the amounts of expenses or revenues recognized in one period for ratemaking purposes which do not reverse in one or more other periods, including the cost of income taxes on (1) the Equity portion of Allowance for Other Funds Used During Construction. (All ing from lobbying and/or politi The recovery of any

2 Other Electric Revenues (Note 2)		=
3 Professional Services		-
4 Revenues from Directly Assigned Transmission Facility Charges (Note 2)		-
5 Rent or Attachment Fees associated with Transmission Facilities		-
6 Total Revenue Credits	Sum lines 2-5 + line 1	-

All revenues booked to Account 454 that are derived from cost items classified as transmission-related will be included as a revenue credit. All revenues booked to Account 456 (includes 456.1) that are derived from cost items classified as transmission-related, and are not derived from rates under this transmission formula rate will be included as a revenue credit. Work papers will be included to properly classify revenues booked to these accounts to the transmission function. A breakdown of all Account 454 revenues by subaccount will be provided below, and will be used to derive the proper calculation of revenue credits. A breakdown of all Account 456 revenues by subaccount and customer will be provided and tabulated below, and will be used to develop the proper calculation of revenue credits.

Note 2

If the facilities associated with the revenues are not included in the formula, the revenue is shown below, but not included in the total above and explained in the Attachment 3.

Note 3 All Account 454, 456, and 456.1 Revenues must be itemized below and tie to FERC Form No. 1 cites set forth below.

	Total							-

All unfunded reserves will be listed above, specifically including (but not limited to) all subaccounts for FERC Account Nos. 228.1 through 228.4. "Unfunded reserve" is defined as an accrued balance (1) created and increased by debiting an expense which is included in this formula rate (column (e), using the same allocator in column (g) as used in the formula to allocate the amounts in the corresponding expense account) (2) in advance of an anticipated expenditure related to that expense (3) that is not deposited in a restricted account (e.g., set saids in an escrow account, see column (d)) with the earnings thereon retained within that account. When the agiven reserve is only partially funded through accruals collected from customers, only the balance funded by customer collections shall serve as a rate base credit, see column (f). The source of monthly balance data is company records.

- Note A

 J From Attachment 4, Column (q) for the period being trued-up

 The "revenue received" is the total amount of revenue distributed in the True-Up Year. The amounts do not include any true-ups or prior period adjustments and reflects any Competitive Bid Concessions

 Then Monthly Interest Rate shall be equal to the interest rate set forth below on line 13 and be applied to the amount in Column E for a period of 24 months

 The True-Up Adjustment is applied to each project prorata based its contribution to the Revenue Requirement shown in Attachment 4

Note 1 Uses a 365 day calendar year.

Note 2 Projected end of year ADIT must be based on solely on enacted tax law. No assumptions for future estimated changes in tax law may be forecasted A Substantial portion, if not all, of the ADIT-282 balance is subject to proration. Explanation must be provided for any portion of balance not subject to proration B Only amounts in ADIT-283 relating to Depreciation, if applicable, are subject to proration. See Line 44 in Atlach 6c and 6d.

C Only amounts in ADIT-190 related to NOL carryforwards, if applicable, are subject to proration. See Line 18 in Atlach 6c and 6d.

Attachment 6c - Accumulated Deferred Income Taxes (ADIT) Worksheet (Beginning of Year) For the 12 Months Ended 12/31/____ Beginning of Year

Instructions for Account 190:

- 1. ADIT items related only to Non-Electric Operations (e.g., Gas, Water, Sewer) or Production are directly assigned to Column C
- 2. ADIT items related only to Transmission are directly assigned to Column D
- 3. ADIT items related to Plant and not in Columns C & D are included in Column E
- 4. ADIT items related to labor and not in Columns C & D are included in Column F
- 5. Deferred income taxes arise when items are included in taxable income in different periods than they are included in rates, therefore if the item giving rise to the ADIT is not included in the formula, the associated ADIT amount shall be excluded. This includes but is not limited to SFAS 109 & 158 balance sheet items and the related ADIT.

		Transmission facility Contributions in Aid of Construction	Note 1

Note 1: In the event a Contribution in Aid of Construction (CIAC) is made for a transmission facility, the transmission depreciation rates above will be weighted based on the relative amount of underlying plant booked to the accounts shown in lines 1-9 above and the weighted average depreciation rate will be used to amortize the CIAC. The life of a facility subject to a CIAC will be equivalent to the depreciation rate calculated above, i.e., 100% ÷ deprecation rate = life in years. The estimated life of the facility or rights associated with the facility will not change over the life of a CIAC without prior FERC approval.

These depreciation rates will not change absent the appropriate filing at FERC.

Attachment 9 - Income Tax Adjustment

Income Tax Adjustments

<u>Line</u>	<u>(a)</u>	Source	<u>Note</u>	<u>(b)</u>	
1 1a 1b 1c	Total Tax adjustment for Permanent Differences (Appendix A, Note Tax adjustment for AFUDC Equity (Appendix A, Note R) Tax Adjustment for Meals & Entertainment (Appendix A, Note R)	Sum of Line 1 sub-items		December 31, 2021	Input to Appendix A, page 3, line 68 and Attachment 4, line 16
<u>2</u> <u>3</u>	Amortized Excess Deferred Taxes (enter negative) (Appendix A, not Amortized Deficient Deferred Taxes (Appendix A, note Q)	e Q)	(Note 1) (Note 1)		Input to Appendix A, page 3, line 67 Input to Appendix A, page 3, line 67

Notes:

Upon enactment of changes in tax law, income tax rates (including changes in apportionment) and other actions taken by a taxing authority, deferred taxes are remeasured and adjusted in the Company's books of account, resulting in excess or deficient accumulated deferred taxes. Such excess or deficient deferred taxes attributed to the transmission function will be based upon tax records and calculated in the calendar year in which the excess or deficient amount was measured and recorded for financial reporting purposes. Amortization shall be over the estimated useful life of the underlying assets.
