Re: New York Independent System Operator, Inc., Docket No. ER10-841-000

Errata to Filing Regarding its Virtual Trading and Eligibility Tariff

Provisions

Dear Secretary Bose:

On March 5, 2010, the New York Independent System Operator, Inc. ("NYISO") submitted proposed tariff revisions to its Open Access Transmission Tariff ("OATT") to modify or eliminate minor, eligibility related provisions and to its Market Administration and Control Area Services Tariff ("Services Tariff") to clarify sections related to virtual trading ("March 5 Filing"). It has since come to the NYISO's attention that the language contained in the OATT Sheet Nos. 44 and 111 was filed on outdated base pages, which did not contain changes from a previous February 26, 2010 filing. The same March 5 language is attached hereto on the corrected base page as Attachment I. A redline of the same is attached hereto as Attachment II.

Because the errata affects only two sheets from the March 5 Filing, the NYISO is resubmitting a clean version and a redlined version of the affected sheets. The NYISO respectfully requests that the Commission accept this errata to its March 5 filing as a ministerial correction and accept the attached sheets for filing with the same effective date as the Commission assigns to the tariff revisions that the NYISO submitted on March 5, 2010.

Respectfully submitted,

/s/ Kristin A. Bluvas

II. POINT-TO-POINT TRANSMISSION SERVICE

Preamble

The ISO will provide Firm and Non-Firm Point-To-Point Transmission Service pursuant to the applicable terms and conditions of this Tariff over the transmission facilities of the parties to the ISO/TO Agreement. Point-To-Point Transmission Service is for the receipt of Capacity and Energy at designated Point(s) of Receipt and the transfer of such Capacity and Energy to designated Point(s) of Delivery. Firm Point-To-Point Transmission Service is service for which the Transmission Customer has agreed to pay the Congestion Rent associated with its service. Non-Firm Point-To-Point Transmission Service is service for which the Transmission Customer has not agreed to pay Congestion Rent. A Transmission Customer may fix the price of Day-Ahead Congestion Rent associated with its Firm Point-To-Point Transmission Service by acquiring sufficient TCCs with the same Points of Receipt and Delivery as its Transmission Service. Notwithstanding any provision in this Part to the contrary, External Transactions scheduled at the Proxy Generator Buses associated with the Cross-Sound Scheduled Line, the Neptune Scheduled Line, or the Linden VFT Scheduled Line shall be subject to the requirements of Attachment N to the ISO Services Tariff.

13.0 Nature of Firm Point-To-Point Transmission Service

- 13.1 Term: The minimum term of Firm Point-To-Point Transmission Service shall be one hour and the maximum term shall not exceed the maximum permissible term
 asbe specified in ISO Procedures.the Service Agreement.
- **13.2 Reservation Priority:** All requests for Firm Point-to-Point Transmission Service will be deemed to have the same reservation priority.
