Re: Notice of Termination of Service Agreement No. 1586 to the New York
Independent System Operator, Inc. Open Access Transmission Tariff,
Docket No. ER10-1507-000

Dear Ms. Bose:

Pursuant to Sections 35.9 and 35.15 of the Commission's Regulations,¹ the New York Independent System Operator, Inc. ("NYISO") hereby tender for filing and acceptance a Notice of Termination related to a Large Generator Interconnection Agreement ("LGIA") among the NYISO, Niagara Mohawk Power Corporation d/b/a National Grid ("National Grid") as the Connecting Transmission Owner, and Jordanville Wind, LLC as the Developer.² The LGIA is designated as Service Agreement No. 1586 under the NYISO's OATT. National Grid has indicated to the NYISO that it supports this filing.

I. Background

The LGIA was submitted to the Commission for acceptance in a joint filing made by the NYISO and National Grid dated June 21, 2010 in the above-referenced docket. The Commission accepted the LGIA in a letter order dated August 17, 2010. The LGIA contains several minor non-confirming provisions to accommodate the unique operational control of the Transmission Owner Attachments Facilities and Transmission Owner Stand Alone System Upgrade Facilities. The LGIA was negotiated for the purpose of interconnecting a new wind facility to a National Grid transmission line between National Grid's Porter and Rotterdam Substations.

Section 2.3.1 of the LGIA provides that the LGIA may be terminated by the Developer upon giving the NYISO and the Connecting Transmission Owner ninety (90) Calendar Days advance written notice. Pursuant to this section, on June 7, 2011, the Developer sent a letter to the NYISO and to National Grid requesting termination of the LGIA.³

² Capitalized terms not otherwise defined in this letter have the meaning set forth in Attachments S, X and Z of the NYISO's Open Access Transmission Tariff ("OATT").

³ A copy of this letter is included as Attachment I to this filing.
