Re: *New York Independent System Operator, Inc.*
Docket Nos. ER23-1816-000 & ER23-1817-000
Response to September 21, 2023 Letter

Dear Secretary Bose,

New York State Electric & Gas Corporation (“NYSEG”) and Rochester Gas and Electric Corporation (“RG&E”) (collectively, the “Applicants”) hereby submit their response to the Federal Energy Regulatory Commission’s (“Commission” or “FERC”) letter requesting further information issued on September 21, 2023.¹ This submittal supplements the May 3, 2023 and July 26, 2023 filings made by NYSEG and RG&E in the above-referenced proceedings.

I. Background

On May 3, 2023, the New York Independent System Operator, Inc. (“NYISO”) filed, on behalf of the Applicants and pursuant to Federal Power Act Section 205, proposed revisions to the NYISO Open Access Transmission Tariff (“OATT”).² The proposed revisions establish the Applicants’ formula rate templates and associated formula rate implementation protocols (together “Formula Rates”) to derive and recover the costs of certain local transmission upgrades that will be determined by the New York State Public Service Commission (“NYPSC”) to be necessary to meet the climate and renewable energy goals under New York state’s Climate Leadership and Community Protection Act. On June 28, 2023, the Commission issued a letter requesting additional information concerning the Applicants’ filings.³ The Applicants filed their respective responses with the requested additional information on July 26, 2023. On September 21, 2023, the Commission issued a second letter requesting further additional information concerning the Applicants’ filings.⁴

¹ *New York Independent System Operator, Inc.*, Deficiency Letter, Docket Nos. ER23-1816-000, et al. (September 21, 2023) (“September 21 Letter”).

² NYISO submitted the filings on behalf of NYSEG in Docket No. ER23-1816-000 and RG&E in Docket No. ER23-1817-000 in its role as administrator of the NYISO OATT. The NYISO also submits this filing on behalf of each Applicant solely in its role as the administrator of the NYISO OATT. The burden of demonstrating that the proposed tariff revisions are just and reasonable rests on NYSEG and RG&E, respectively. The NYISO takes no position on any substantive aspect of this filing at this time. Unless otherwise defined herein, capitalized terms used in this filing shall have the meaning ascribed to them by the NYISO OATT.
