

THIS FILING LETTER DOES NOT CONTAIN ANY CEII. ATTACHMENTS I, II, AND IV DO NOT CONTAIN ANY PRIVILEGED OR CONFIDENTIAL INFORMATION. ATTACHMENT III INCLUDES A ONE-LINE SCHEMATIC FOR WHICH CEII DESIGNATION IS REQUESTED IN PART III BELOW, AND IS SUBMITTED SEPARATELY.

February 11, 2025

By Electronic Delivery

Honorable Debbie-Anne A. Reese, Secretary
Federal Energy Regulatory Commission
888 First Street, NE
Washington, DC 20426

Re: Joint Filing of an Executed Large Generator Interconnection Agreement for the Canisteo Wind Project (Queue Position No. 519) Among the New York Independent System Operator, Inc., New York State Electric & Gas Corporation, and Canisteo Wind Energy LLC; Request for Critical Energy Infrastructure Information Designation; and Request for Waiver of the 60-Day Notice Period; Docket No. ER25-____-000

Dear Ms. Reese:

Pursuant to Section 205 of the Federal Power Act¹ and Section 35.13 of the Commission's regulations,² the New York Independent System Operator, Inc. ("NYISO") and New York State Electric & Gas Corporation ("NYSEG") (together, the "Joint Filing Parties") hereby tender for filing an executed Large Generator Interconnection Agreement for the Canisteo Wind project (NYISO Queue Position No. 519) entered into by the NYISO, NYSEG, as the Connecting Transmission Owner, and Canisteo Wind Energy LLC ("Canisteo"), as the Developer (the "Interconnection Agreement").³ The Interconnection Agreement is labeled as Service Agreement No. 2869 under the NYISO's Open Access Transmission Tariff ("OATT").

The Joint Filing Parties respectfully request that the Commission accept the Interconnection Agreement for filing. With the limited exceptions described in Part I of this letter, the Interconnection Agreement conforms to the NYISO's *pro forma* Large Generator Interconnection Agreement ("Pro Forma LGIA") that is contained in Attachment X to the OATT. Further, as described in Part II of this letter, the Joint Filing Parties respectfully request a

¹ 16 U.S.C. § 824d.

² 18 C.F.R. § 35.13 (2024).

³ Capitalized terms that are not otherwise defined in this filing letter shall have the meaning specified in Attachments S or X of the NYISO OATT, and if not defined therein, in the NYISO OATT and NYISO Market Administration and Control Area Services Tariff.

waiver of the Commission's prior notice requirements⁴ to make the Interconnection Agreement effective as of January 28, 2025, which is the date of its full execution. Finally, as described in Part III of this letter, NYSEG requests that the one-line diagram included in the Interconnection Agreement be protected from disclosure as Critical Energy Infrastructure Information.

I. Discussion

A. Background

Canisteo is constructing a 290 MW wind generation farm located in Steuben County, New York (the "Facility"). Additional details regarding the Facility can be found in Appendix C of the Interconnection Agreement. The Facility will interconnect to certain facilities of NYSEG that are part of the New York State Transmission System. The Point of Interconnection will be at NYSEG's Bennett Substation. Figure A-1 of Appendix A of the Interconnection Agreement provides a one-line diagram showing the Point of Interconnection.

B. The Interconnection Agreement Closely Conforms to the Pro Forma LGIA Contained in Attachment X of the NYISO OATT

The Interconnection Agreement was fully executed on January 28, 2025, by the NYISO, NYSEG, and Canisteo.⁵ The Interconnection Agreement largely conforms to the language in the Pro Forma LGIA contained in Attachment X of the NYISO OATT with the exceptions described below in this Part I.B. The Joint Filing Parties submit that the changes specified below satisfy the Commission's standard for variations from the Pro Forma LGIA, because unique

⁴ See *Prior Notice and Filing Requirements Under Part II of the Federal Power Act*, 64 FERC ¶ 61,139, clarified, 65 FERC ¶ 61,081 (1993).

⁵ The NYISO submitted a revised version of its Pro Forma LGIA in Attachment X of its OATT with the Commission on May 1, 2024, in Docket No. ER24-1915-000 as part of the NYISO's compliance with Order Nos. 2023 and 2023-A with a requested effective date of May 2, 2024. The NYISO's compliance filing is currently pending with the Commission. Consistent with its requested effective date, the NYISO used the updated Pro Forma LGIA form for this Interconnection Agreement. The NYISO specifically addressed the potential timing issue with its proposed updates to its Pro Forma LGIA. Specifically, Section 29.16 of the updated Pro Forma LGIA and the Interconnection Agreement provides that if the Commission directs that the NYISO modify the Pro Forma LGIA as part of the Order No. 2023 compliance proceeding, the parties agree to amend the agreement to address these modifications. That is, if the Commission were not to accept the compliance modifications to the Pro Forma LGIA in the Order No. 2023 proceeding, the parties will amend this agreement to conform it with the agreement accepted by the Commission. The Commission has previously accepted agreements using pending *pro forma* forms that were subject to amendment based on the Commission's determination. See *New York Independent System Operator, Inc.*, Letter Order, Docket No. ER6-1785-000 (July 19, 2016) (accepting filed operating agreement using a *pro forma* form that was still pending at the Commission, which agreement provided for parties to amend the agreement to incorporate any modifications to the underlying *pro forma* form directed by the Commission). If the Commission determines that the modifications to the updated Pro Forma LGIA that were submitted with the Order No. 2023 compliance filing and included in the Interconnection Agreement should instead be considered non-conforming revisions for purposes of this Interconnection Agreement, the NYISO requests that the Commission accept such changes due to the unique timing circumstances that require the non-conforming changes.

circumstances exist that require a non-conforming agreement.⁶ Therefore, the Joint Filing Parties respectfully request that the Commission accept the Interconnection Agreement with the non-conforming changes as described below.

1. Modification to Address Phasor Measurement Unit Requirements

Article 9.10 of the Pro Forma LGIA requires Developers to install, at their expense, a phasor measurement unit (“PMU”) on the low side of the step-up transformer, along with related PMU equipment, and to collect and transmit PMU data to the NYISO and to the Connecting Transmission Owner. The NYISO introduced the PMU requirements in the Pro Forma LGIA in 2017 to enhance the NYISO’s ability to monitor the transmission grid for the New York Control Area and to determine real-time grid stability margins.⁷

The PMU requirements require a Developer to install a PMU on the low side of the transformer and then transmit the PMU data via the Connecting Transmission Owner’s system. NYSEG, however, does not currently possess the capability to obtain the data from Canisteo or to transmit the data to the NYISO, and the NYISO is unable at this time to accept PMU data directly from Canisteo. The parties therefore agreed to reserve Article 9.10 and not apply the PMU requirements to the Interconnection Agreement. The Commission has previously accepted this change to NYISO’s interconnection agreements.⁸

2. Modifications for Billing Arrangements

NYSEG and Canisteo have agreed to an alternative billing arrangement for Canisteo to make advanced payments to NYSEG for NYSEG’s oversight costs. Accordingly, the parties have agreed to modify Article 12.1 of the Interconnection Agreement to reference the details of the alternative billing arrangement, which is set forth in Section 4 of Appendix B of the Interconnection Agreement. The Commission has previously accepted this change to NYISO’s interconnection agreements.⁹

II. Proposed Effective Date and Request for Waiver of the 60-Day Notice Period

The Joint Filing Parties request an effective date of January 28, 2025, for the Interconnection Agreement, which is the date of its full execution. The Joint Filing Parties respectfully request that the Commission waive its prior notice requirement to permit the

⁶ See, e.g., *PJM Interconnection, LLC*, 111 FERC ¶ 61,163 at PP 10-11, *reh’g denied*, 112 FERC ¶ 61,282 (2005).

⁷ See *New York Independent System Operator, Inc.*, Letter Order, Docket No. ER18-80-000 (Dec. 7, 2017) (accepting NYISO’s tariff revisions to improve its interconnection process, including the insertion of PMU requirements in Article 9.10 of the Pro Forma LGIA).

⁸ See, e.g., *New York Independent System Operator, Inc., et al.*, Letter Order, Docket No. ER23-78-000 (Dec. 6, 2022) (accepting non-conforming revisions to reserve phasor measurement unit requirements).

⁹ See, e.g., *New York Independent System Operator, Inc.*, Letter Order, Docket No. ER22-1887-000 (July 14, 2022) (accepting non-conforming revisions for alternative billing arrangement with other project).

requested effective date. The Commission has previously permitted interconnection agreements to become effective upon the date of execution.¹⁰

III. Request for CEII Treatment

Pursuant to Sections 388.112 and 388.113 of the Commission's regulations,¹¹ NYSEG requests that the one-line diagram included as the figure in Appendix A of the Interconnection Agreement be protected from disclosure as Critical Energy Infrastructure Information ("CEII").¹² The diagram contains detailed, one-line schematics of NYSEG's facilities that, if disclosed, could pose a threat to the security and the reliability of the New York State bulk power system. The diagram provides more than simply the general location of critical infrastructure. Unlike publicly available maps of power transmission lines and generation and substation facilities, the schematic shows the exact nature and specific location of facilities used to maintain the reliability of the New York State bulk power system.

The diagram, in NYSEG's assessment, reveals such critical information related to the facilities depicted therein that, if disclosed, could be useful to a person seeking to disable the power grid. Therefore, the disclosure of the CEII diagram would pose a threat to the reliability of the New York State bulk power system and the health and safety of New York residents. Moreover, the information revealed in this schematic reveals CEII, which the Commission has determined to be exempt from mandatory disclosure under 5 U.S.C. § 552(b)(7)(F). The diagram has been omitted from the Public version of the Interconnection Agreement included in this filing.

The Joint Filing Parties are electronically submitting a non-public version of this filing. The diagram is included only in the non-public version of the Interconnection Agreement in the filing. The non-public diagram is marked: **"FIGURE CONTAINS CEII – DO NOT RELEASE PURSUANT TO 18 C.F.R. §§ 388.112 and 388.113."** The non-public diagram

¹⁰ See, e.g., *New York Independent System Operator, Inc. and New York State Electric & Gas Corporation*, Letter Order, Docket No. ER11-2953-000 (April 7, 2011) (accepting interconnection agreement effective as of date of execution); see also *New York Independent System Operator, Inc. and Niagara Mohawk Power Corp.*, Letter Order, Docket No. ER08-985-000 (June 26, 2008) (same); *New York Independent System Operator, Inc. and New York Power Authority*, Letter Order, Docket No. ER08-861-000 (May 27, 2008) (same); *New York Independent System Operator, Inc. and New York Power Authority*, Letter Order, Docket No. ER08-699-000 (May 16, 2008) (same).

¹¹ 18 C.F.R. §§ 388.112 and 388.113 (2024).

¹² As required by Section 388.113(d)(1)(i) of the Commission's regulations, NYSEG has described in the filing letter how the one-line diagram in Appendix A satisfies the definition of critical energy infrastructure information as that term is defined in Section 388.113(c)(1). In addition, as required by Section 388.113(d)(1)(ii) the cover page of the filing letter and the relevant page of the Interconnection Agreement that contains critical energy infrastructure information is labelled as including CEII and marked DO NOT RELEASE, and a Public and CEII version of the Interconnection Agreement are being filed with this letter. The CEII material is redacted in the Public version. Finally, as required by Section 388.113(d)(1)(i), NYSEG requests that the Commission designate the CEII material submitted on February 11, 2025, with the full five-year CEII designation provided for in Section 388.113(e)(1) as the information provided in the one-line diagrams will continue to satisfy the definition of critical energy infrastructure information for this entire period.

should be treated as CEII reviewable by Commission Staff. In accordance with the Commission's April 14, 2017 notice on labeling of non-public information, each page of the non-public version of the filing is marked "CUI//CEII."¹³ A placeholder has been included in place of the non-public diagram in the public version of the Interconnection Agreement.

All communications relating to this request for privileged and confidential treatment should be addressed to NYSEG's Counsel listed below.

¹⁴ The NYISO respectfully requests waiver of 18 C.F.R. § 385.203(b)(3) (2024) to permit service on counsel in both Washington, D.C. and Richmond, VA.

*Designated to receive service.

V. Documents Submitted

The Joint Filing Parties submit the following documents with this filing letter:

- A clean Public version of the Interconnection Agreement (Attachment I);
- A blacklined Public version of the Interconnection Agreement showing the changes from the Pro Forma LGIA (Attachment II);
- A clean CEII version of the Interconnection Agreement (Attachment III); and
- The signature pages for the Interconnection Agreement (Attachment IV).

VI. Service

A complete copy of this filing will be posted on the NYISO's website at www.nyiso.com. The NYISO will send an electronic link to this filing to the official representative of each of its customers and to each participant on its stakeholder committees. In addition, the NYISO will send an electronic copy of this filing to the New York Public Service Commission and to the New Jersey Board of Public Utilities.

VII. Conclusion

Wherefore, the Joint Filing Parties respectfully request that the Commission accept the Interconnection Agreement for filing with an effective date of January 28, 2025.

Respectfully submitted,
