Appendix B

NYISO OATT

SCHEDULE 13 (redline version)

6.13 Schedule 13 – Rate Mechanism for the Recovery of the Transco Facilities Charge ("TFC")

6.13.1 Applicability

This Schedule establishes the Transco Facilities Charge ("TFC") for the recovery of costs related to the following NY Transco LLC ("NY Transco") projects, each of which is hereinafter referred to as an "Approved NYTP": (1) the Second Ramapo-to-Rock Tavern 345-kV Line Project, the March South Series Compensation and Fraser-to-Coopers Corner Reconductoring Project, and the Staten Island Unbottling Project, each of which have been approved by the New York Public Service Commission ("NYPSC") on November 4, 2013, in Case No. 12-E-0503 (the "Transmission Owner Transmission Solutions" or "TOTS" projects); (2) the Second Oakdale-to-Fraser 345-kV Line Project and the new Edic-to-Pleasant Valley 345-kV Line Project (the "AC" projects) upon approval by the NYPSC in Case Number 12-T-502 and subject to inclusion by the ISO in the ISO transmission plan for purposes of cost allocation; and (3) any regulated public policy transmission project that has been approved by the ISO pursuant to Section 31.4.8 of Attachment Y of the ISO OATT and determined to be eligible to recover such costs pursuant to Sections 31.5.5.3 and 31.5.5.4 of Attachment Y of the ISO OATT.¹ NY Transco may undertake an Approved NYTP and seek cost recovery through a TFC under this Schedule.

The TFC shall be separate from the Transmission Service Charge ("TSC") and the NYPA Transmission Adjustment Charge ("NTAC") determined in accordance with Section 14 of Attachment H of the ISO OATT, and any Reliability Facilities Charge ("RFC") determined pursuant to Section 6.10 of the ISO OATT.

In addition, NY Transco shall receive the outage charges described herein and shall not

¹ Capitalized terms used in this Schedule that are not defined in this Schedule shall have the same meaning set forth in Section 31.1.1 of Attachment Y of the ISO OATT.

be charged O/R-t-S Congestion Rent Shortfall Charges, U/D Congestion Rent Shortfall Charges, O/R-t-S Auction Revenue Shortfall Charges or U/D Auction Revenue Shortfall Charges or be paid O/R-t-S Congestion Rent Surplus Payments, U/D Congestion Rent Surplus Payments, O/Rt-S Auction Revenue Surplus Payments or U/D Auction Revenue Surplus Payments under Section 20.2.4 and Section 20.3.6 of the ISO OATT; and NY Transco shall receive Incremental TCCs as described in Section 19.2.4 of the ISO OATT, but NY Transco shall not be a "Transmission Owner" for purposes of Section 20.2.5 or Section 20.3.7 of the ISO OATT and accordingly shall not receive an allocation of Net Congestion Rents under Section 20.2.5 of the ISO OATT or Net Auction Revenues under Section 20.3.7 of the ISO OATT.

6.13.2 Revenue Requirement for TFC

The TFC shall be calculated in accordance with the formula set forth in Section 6.13.3 using the revenue requirement of NY Transco necessary to recover the costs of an Approved NYTP. The revenue requirement to be used in the calculation of the TFC is described in Section 6.13.4. The costs that may be included in the revenue requirement include all reasonably incurred costs related to the preparation of proposals for, and the development, financing, construction, operation, and maintenance of, an Approved NYTP, including, but not limited to, a reasonable return on investment and any incentives for the construction of transmission projects approved under Section 205 or Section 219 of the Federal Power Act and the Commission's regulations implementing those sections, as determined by the Commission.

6.13.3 Calculation and Recovery of TFC and Payment of Recovered Revenue

<u>The ISO will calculate and bill the TFC for each Approved NYTP in accordance with this</u> <u>Section 6.13.3. The ISO shall collect the TFC from the LSEs. The LSEs, including</u> <u>Transmission Owners, competitive LSEs, and municipal systems, serving Load located in</u> Transmission Districts to which the costs of the Approved NYTP have been allocated (each a "Responsible LSE" or a "NYPA Responsible LSE") shall pay the TFC. The costs of each Approved NYTP shall be allocated as set forth in the appropriate allocation table in Section 36.2 of Attachment 1 to Attachment DD.

6.13.3.1 The revenue requirement filed pursuant to this Schedule by NY Transco will be the basis for the TFC Rate (\$/MWh) for the Billing Period that shall be charged by the ISO to each Responsible LSE based on its Actual Energy Withdrawals as set forth in Section 6.13.3.4. The revenue requirement of the NY Transco will be calculated according to the formula rate set forth in Section 36.3.1. of Attachment DD of the ISO OATT.

6.13.3.2 NY Transco shall in relation to any Approved NYTP reasonably exercise its right to obtain and maintain in effect all Incremental TCCs, including temporary Incremental TCCs, to which it has rights under Section 19.2.4 of the ISO OATT and shall take the actions required to do so in accordance with the procedures specified therein. Notwithstanding Section 19.2.4.7 and 19.2.4.8 of the ISO OATT, Incremental TCCs created and awarded to NY Transco as a result of implementation of an Approved NYTP shall not be eligible for sale in Secondary Markets. Incremental TCCs that may be created and awarded to NY Transco as a result of the implementation of an Approved NYTP, shall be offered by the ISO in all rounds of the six month Sub-Auction of each Centralized TCC Auction conducted by the ISO. The ISO shall disburse the associated auction revenues to NY Transco. The total amount of the auction revenues disbursed to the NY Transco pursuant to this Section 6.13.3.2 shall be used in the calculation of the TFC Rate, as set forth in Section 6.13.3.4. Incremental TCCs associated with an Approved NYTP shall continue to be offered for the duration of the Incremental TCCs, established pursuant to the terms of Attachment M.

The revenue offset discussed in this Section 6.13.3.2 shall commence upon the first payment of revenues related to Incremental TCCs associated with the implementation of an Approved NYTP on or after the date the TFC is implemented. The TFC and the revenue offset related to Incremental TCCs associated with the implementation of an Approved NYTP shall not require and shall not be dependent upon a reopening or review of NY Transco's revenue requirements for an RFC pursuant to Section 6.10 of the ISO OATT.

- 6.13.3.2.1 Outage Charges related to Incremental TCCs. Outage charges developed pursuant to the provisions of OATT Section 19 applicable to Expanders (as that term is defined in OATT Section 19) not subject to OATT Section 20.2.5, shall be payable to the ISO for any hour in the Day-Ahead Market during which an Expansion, associated with an Approved NYTP, is modeled to be wholly or partially out of service.
- 6.13.3.3 The billing units for the TFC Rate for the Billing Period shall be based on the Actual Energy Withdrawals available for the prior Billing Period for those Transmission Districts allocated the costs of the Approved NYTP in accordance with Attachment DD of the ISO OATT.

6.13.3.4.1 Cost Recovery Methodology for All Responsible LSEs Except NYPA The ISO shall calculate the TFC for each responsible LSE except NYPA as follows:

6.13.3.4 Cost Recovery Methodology

Step 1: Calculate the \$ assigned to each Transmission District

 $TFC_{t,B} = \sum_{p \in P} \left(\left(AnnualRR_{p,B} - Incremental TCC Revenue_{p,B} + Outage Cost Adjustment_{p,B} \right) \times \left(TransmissionDistrictCostAllocation_{t,p} \right) \right)$

Step 2: Calculate a per-MWh Rate for each Transmission District

 $\text{TFCRate}_{t,B} = \text{TFC}_{t,B}/\text{MWh}_{t,B}$

Step 3:Calculate charge for each Billing Period for each Responsible LSE in
each Transmission District

 $Charge_{B,l,t} = TFCRate_{t,B} \times MWh_{l,t,B}$

Step 4: Calculate charge for each Billing Period for each Responsible LSE across all Transmission Districts

$$Charge_{B,l} = \sum_{t \in T} (Charge_{B,l,t})$$

Where,

l = the relevant Responsible LSE;

P = set of projects;

<u>T = set of ISO Transmission Districts;</u>

<u>t = an individual Transmission District</u>

<u>B = the relevant Billing Period;</u>

 $\underline{MWh}_{t, B} = Actual Energy Withdrawals in Transmission District t excluding NYPA Responsible LSEs aggregated across all hours in Billing Period B;$

<u>MWh_{l,t,B}</u> = Actual Energy Withdrawals for Responsible LSE l in Transmission District t aggregated across all hours in Billing Period B;</u>

Annual $RR_{p,B}$ = the pro rata share of the annual revenue requirement for each project p as discussed in Section 6.13.2 above allocated for Billing Period B;

Incremental TCC Revenue_{p,B} = the auction revenue derived from the sale of Incremental TCCs plus Incremental TCC payments received by NY Transco pursuant to Section 20.2.3 of the ISO OATT for each project p as discussed in Section 6.13.3.2 above allocated for Billing Period B. The revenues from the sale of Incremental TCCs in the ISO's six month Sub-Auctions of each Centralized TCC Auction shall be allocated uniformly across all hours of the Billing Period;

<u>Outage Cost Adjustment_{p.B} = the Outage Charges determined pursuant to OATT Section</u> <u>6.13.3.2.1 for any hour in the Day-Ahead Market during which the project p is modeled to be</u> wholly or partially out of service aggregated across all hours in Billing Period B;

<u>Transmission District Cost Allocation_{tp} = the proportion of the cost of project p allocated to</u> <u>Transmission District t, as set forth in Section 36.2 of Attachment 1 to Attachment DD.</u>

6.13.3.4.2 Cost Recovery Methodology for NYPA Responsible LSEs

The ISO shall calculate the TFC for each NYPA responsible LSE as follows:

Step 1: Calculate the \$ assigned to NYPA Responsible LSEs

 $TFC_{N,B} = \sum_{p \in P} \left(\left(AnnualRR_{p,B} - Incremental TCC Revenue_{p,B} + Outage Costs Adjustment_{p,B} \right) \times \left(NYPACostAllocation_{N,p} \right) \right)$

Step 2: Calculate a per-MWh Rate for NYPA Responsible LSEs

 $TFCRate_{N,B} = TFC_{N,B}/MWh_{N,B}$

Step 3: Calculate charge for each Billing Period for each NYPA Responsible LSE

 $Charge_{B,n} = TFCRate_{N,B} \times MWh_{n,B}$

Where,

<u>n = the relevant NYPA Responsible LSE;</u>

<u>N= the set of NYPA Responsible LSEs;</u>

P = set of projects;

B = the relevant Billing Period;

 $\underline{MWh}_{n, B} = Actual Energy Withdrawals for each NYPA Responsible LSE n aggregated across all hours in Billing Period B;$

<u>MWh $_{N,B}$ </u> = Actual Energy Withdrawals for all NYPA Responsible LSEs N aggregated across all hours in Billing Period B;

Annual $RR_{p,B}$ = the annual revenue requirement for each project p as discussed in Section 6.13.2 above allocated for Billing Period B;

Incremental TCC Revenue_{p,B} = the auction revenue derived from the sale of Incremental TCCs plus Incremental TCC payments received by NY Transco pursuant to Section 20.2.3 of the ISO OATT for each project p as discussed in Section 6.13.3.2 above allocated for Billing Period B. The revenues from the sale of Incremental TCCs in the ISO's six month Sub-Auctions of each Centralized TCC Auction shall be allocated uniformly across all hours of the Billing Period;

<u>Outage Cost Adjustment_{p.B} = the Outage Charges determined pursuant to OATT Section</u> <u>6.13.3.2.1 for any hour in the Day-Ahead Market during which the project p is modeled to be</u> wholly or partially out of service aggregated across all hours in Billing Period B;

<u>NYPA Cost Allocation_{N,p} = the proportion of the cost of project p allocated to all NYPA</u> Responsible LSEs N, as set forth in Section 36.2 of Attachment 1 to Attachment DD.

6.13.3.5 For the initial Rate Year 2016, the ISO may begin billing and collecting

NY Transco's projected TFC subsequent to January 1, 2016; however, once

billing commences in 2016, the ISO shall bill and collect NY Transco's projected

TFC in equal installments for each Billing Period over the balance of 2016.

6.13.3.6 The ISO will collect the appropriate TFC revenues each Billing Period and

remit those revenues to NY Transco in accordance with the ISO's billing and

settlement procedures.

6.13.4 Recovery of Costs Incurred by NY Transco

6.13.4.1 The TFC shall be used as the cost recovery mechanism for the recovery of

the costs of an Approved NYTP that is proposed, developed, or constructed by

NY Transco under applicable federal, state and local law and authorized by the Commission to recover costs under this rate mechanism; *provided, however*, nothing in this cost recovery mechanism shall be deemed to create any additional rights for NY Transco to proceed with a regulated transmission project that NY Transco does not otherwise have at law.

6.13.4.2 The period for cost recovery will be determined by the Commission and will begin if and when the Approved NYTP is completed, or as otherwise determined by the Commission. NY Transco and/or the ISO, as applicable, will make a filing with the Commission to provide for its review and approval or acceptance, as appropriate, of the final project cost and resulting revenue requirement to be recovered through the TFC, which shall be reproduced in Section 36.3 of Attachment 2 to Attachment DD of the ISO OATT. The filing may include all reasonably incurred costs related to NY Transco's undertaking an Approved NYTP as specified in Section 6.13.2 of this Schedule. NY Transco shall bear the burden of resolving all concerns about the contents of the filing that might be raised in such proceeding.

NYISO OATT

ATTACHMENT DD (redline version)

36Attachment DD – Rules to Allocate the Cost of NY Transco LLC TransmissionFacilities and Formula Rates

36.1 Overview

36.1.1 Cost Allocation

The purpose of Section 36.2 is to provide for the allocation of costs to be recovered through the Transco Facilities Charge ("TFC") described in Section 6.13 of Schedule 13 of the ISO OATT for the following NY Transco, LLC ("NY Transco") projects: (1) the Second Ramapo-to-Rock Tavern 345-kV Line Project, the Marcy South Series Compensation and Fraser-to-Coopers Corners Reconductoring Project, and the Staten Island Unbottling Project, each of which have been approved by the New York Public Service Commission on November 4, 2013, in Case No. 12-E-0503 (the "Transmission Owner Transmission Solutions" or "TOTS" projects); (2) the Second Oakdale-to-Fraser 345-kV Line Project and the Edic-to-Pleasant Valley 345-kV Line Project (the "AC" projects) upon approval by the New York Public Service Commission in Case Number 12-T-502 and subject to inclusion by the ISO in the ISO transmission plan for purposes of cost allocation; and (3) any regulated public policy transmission project that has been approved by the ISO pursuant to Section 31.4.8 of Attachment Y of the ISO OATT and determined to be eligible to recover such costs pursuant to Sections 31.5.5.3 and 31.5.5.4 of Attachment Y of the ISO OATT. Section 36.2 shall include cost allocation tables for each NY Transco project eligible to recover costs through the TFC.

36.1.2 Formula Rates

Section 36.3 provides NY Transco's formula rate and implementation rules for the formula rate to recover costs related to its projects through the TFC.

36.2 Attachment 1 to Attachment DD

36.2.1 Allocation Tables

36.2.1.1. Second Ramapo-to-Rock Tavern 345-kV Line Project

<u>COST ALLOCATION TABLE</u> <u>FOR THE SECOND RAMAPO-TO-ROCK TAVERN 345-KV LINE</u> <u>PROJECT</u>

Transmission District	$\frac{\text{Allocation of}}{\text{Project Costs (\%)}^{1}}$

SUPPORTING CALCULATIONS AND NOTES Rate Formula Template Utilizing FERC Form 1 Data

Formula Rate - Non-Levelized

New York Transco LLC

For the 12 months ended 12/31/

	New York Transco LLC
	General Note: References to pages in this formulary rate are indicated as: (page#, line#, col.#)
	References to data from FERC Form 1 are indicated as: #.y.x (page, line, column)
Mate	residences to data norm Erto Form Falo malouted de. "wy.x (page, inte, column)
<u>Note</u>	
Letter	
A	The balances in Accounts 190, 281, 282 and 283, as adjusted by any amounts in contra accounts identified as regulatory assets
	or liabilities related to FASB 106 or 109. Balance of Account 255 is reduced by prior flow throughs and excluded if the utility
	chose to utilize amortization of tax credits against taxable income as discussed in Note F. Account 281 is not allocated.
В	Identified in Form 1 as being only transmission related.
С	Cash Working Capital assigned to transmission is one-eighth of O&M allocated to transmission
<u> </u>	Prepayments are the electric related prepayments booked to Account No. 165 and reported on Pages 110-111 line 57 in the Form 1.
D	Line 41 renoves EPRI Annual Membership Dues listed in Form 1 at 353. (enter FN1 line #1).
<u> </u>	Line + removes represented in the remote and the remote and all Requirements in the remote size of the remote and the remote and the remote and all Requirements in sciences included in line 44 of the template and all Requirements in sciences itemized at 351 h
	Line 41 removes all advertising included in Account 930.1, except safety, education or out-reach related advertising
	Line 41 removes EEI and EPRI research, development and demonstration expenses associated with projects in which transmission customers can voluntarily participate
	to the extent such expenses exceed a maximum annual aggregate amount of \$100.000
	Line 42 reflects all Regulatory Commission Expenses directly related to transmission service, RTO filings, or transmission siting itemized at 351.h
	Line 38 or Line 41 and thus Line 45 shall include any NYISO charges other than penalties, including but not limited to administrative costs.
E	Includes only FICA, unemployment, highway, property, gross receipts, and other assessments charged in the current year.
_	Taxes related to income are excluded. Gross receipts taxes are not included in transmission revenue requirement in the Rate Formula Template.
	since they are recovered elsewhere.
F	The currently effective income tax rate, where FIT is the Federal income tax rate: SIT is the State income tax rate, and p =
· · ·	"the percentage of federal income tax deductible for state income taxes". If the utility is taxed in more than one state it must attach a
	The prevention function function and operating for state in the intervention of the state of the relation in the state of
	elected to utilize amortization of tax credits against taxable income, rather than book tax credits to Account No. 255 and reduce
	elected to unize anomization of tax credits against taxable income, ramer man book tax credits to Account No. 200 and reduce
	multiplied by (1/1-T).
	Inputs Required: FIT =
	SIT= - (State Income Tax Rate or Composite SIT from Attach 3)
	p = (percent of federal income tax deductible for state purposes)
	n= (not for profit entity ownership percentage)
	For each Rate Year (including both Annual Projections and True-Up Adjustments) the statutory income tax rates utilized in the Formula Rate shall reflect the weighted average rates
	actually in effect during the Rate Year. For example, if the statutory tax rate is 10% from January 1 through June 30, and 5% from July 1 through December 31, such rates would be weighted
	181/365 and 184/365, respectively, for a non-leap year.
G	The cost of debt is determined using the internal rate of return methodology shown on Attachment 5 once project financing is obtained. Prior to obtaining project financing,
	the interest rate in Table 2 of Attachment 5 will be used and will not be trued up. Attachment 5 contains an estimate of the internal rate of return methodology: the methodology
	will be applied to actual amounts for use in Appendix A.
	After January 1, 2019 or the completion of construction, which ever occurs earlier, the cost of debt will be calculated pursuant to Attachment 3
н	Removes dollar amount of transmission plant included in the development of OATT ancillary services rates and generation
	Removes donal motion or animission particulate in the development of CHT instances and enter and in the and the instances of the included in the development of CHT instances and enter and in the and the included in the development of CHT instances and enter and instances and enter and instances and enter and the instances and enter and the included in the development of CHT instances and enter and the instances and the included in the development of CHT instances and enter and instances and enter and the instances and the instan
	ster up facilities are these facilities at a generator substation on which there is no through flow when the generator is substations.
<u> </u>	Enter dollar amounts
<u> </u>	ROE will be supported in the original filing and no change in ROE may be made absent a filing with FERC under FPA Section 205 or 206.
	The capital structure will be 60% equity and 40% debt for the CWIP associated with the projects and Regulatory Assets in line 28, and the return on such projects will be input on line 71. The CWIP
	Projects will not be included in rate base (line 25). The capital structure shown on lines 89-92 will be 60% equity and 40% debt until January 1, 2019 or the completion of construction, which ever
	occurs earlier. After January 1, 2019 or the completion of construction, which ever occurs earlier, the capital structure on lines 89-92 will reflect the actual capital structure, and will be capped at 60%
	equity. If the actual equity ratio exceeds 60%, the common stock ratio will be reset to 60% and the debt ratio will be equal to 1 minus sum of the preferred stock ratio and common stock ratio.
	equily, in the design equily rate executes serve, the continuon stock ratio will be reserve over and the departation will be equal to a minimum such of the preserve serve, the continuon stock ratio.
K	Unamortized Abandoned Plant and Amortization of Abandoned Plant will be zero until the Commission accepts or approves recovery of the cost of abandoned plant. Company must submit a Section
	205 filing to recover the cost of abandoned plant. Any such filing to recover the cost of an abandoned plant item shall be made no later than 180 days after the date that Company formally declares
L	Unamortized Regulatory Assets, consisting of all expenses incurred but not included in CWIP prior to the date the rate is charged to customers, is included at line 28
-	Carrying costs equal to the weighted cost of capital on the balance of the regulatory asset will accrue until the rate is charged to customers
м	Balances exclude Asset Retirement Costs

M Balances exclude Asset Retirement Costs

#### Attachment 1 - Revenue Credit Workpaper* New York Transco LLC

Account 454 - Rent from Electric Property	Notes 1 & 3	
1 Rent from FERC Form No. 1		<u>.</u>
Account 456 (including 456.1)	Notes 1 & 3	
2 Other Electric Revenues (Note 2)		<u>-</u>
3 Professional Services		<u>-</u>
4 Revenues from Directly Assigned Transmission Facility Charges (Note 2)		<u>-</u>
5 Rent or Attachment Fees associated with Transmission Facilities		±
6 Total Revenue Credits	Sum lines 2-5 + line 1	±

Note 1

All revenues booked to Account 454 that are derived from cost items classified as transmission-related will be included as a revenue credit. All revenues booked to Account 456 (includes 456.1) that are derived from cost items classified as transmission-related, and are not derived from rates under this transmission formula rate will be included as a revenue credit. Work papers will be included to properly classify revenues booked to these accounts to the transmission function. A breakdown of all Account 456 revenues by subaccount will be provided below, and will be used to derive the proper calculation of revenue credits. A breakdown of all Account 456 revenues by subaccount and customer will be provided and tabulated below, and will be used to develop the proper calculation of revenue credits.

#### Note 2 If the facilities associated with the revenues are not included in the formula, the revenue is shown below, but not included in the total above and explained in the Attachment 3.

#### Note 3 All Account 454 and 456 Revenues must be itemized below

226	December			-		-
227	Average			-	-	-

Debt is equal to 112.18c less 112.19c plus 112.20c plus 112.21c, recognizing that 112.19c is entered into the Form 1 as a negative number and shall remain negative (i.e., it is not a double minus in the formula that mathematically would lead to adding in line 112.19c) so that Reacquired Bonds (Account 222) are subtracted from other long term debt outstanding and that Line 112.20c may contain both short term and long term indebtedness to affiliates and therefore any short term affiliate debt shall be removed from 112.20c before adding it into the above long term debt balance formula in the formula rate.

Preferred Stock is equal to 112.3c less any Preferred Treasury Stock plus any Preferred Additional Paid-in-Capital, recognizing that if there is any Preferred Treasury Stock or Preferred Additional Paid-in-Capital, then the respective amounts shall be appropriately disclosed in a footnote to the capital structure cost support in the formula rate template.

Common Equity is equal to 112.16c less 112.12c less 112.15c, recognizing that line 112.15c may be a positive or negative number and if it is positive, it shall be subtracted in the formula, and if it is entered as a negative number in the Form 1, it shall be added (a double minus sign when subtracting a negative number) in the formula.

The cost of long-term debt for a Rate Year will be the sum of the interest expense and cost of issuances divided by the 13-month average long-term debt balance for the Rate Year. The cost of long-term debt issuances shall include long-term interest expense amounts recorded in the following FERC accounts:

				Amount
			Interest on Long-Term Debt (limited solely to interest expense	
			for long-term debt reported in Accounts 221-224) (FF1,	
228		Account 427	<u>117/62/c)</u>	:
229	plus:	Account 428	Amortization of Debt Discount and Expense (FF1, 117/63/c)	
230	plus:	Account 428.1	Amortization of Loss on Reacquired Debt (FF1, 117/64/c)	:
231	less:	Account 429	Amortization of Premium on Debt (FF1, 117/65/c)	
232	less:	Account 429.1	Amortization of Gain on Reacquired Debt (FF1, 117/66/c) y	:
			the expense associated with long-term debt recorded in Account	
233	plus:	Account 430	223.	
- 234	Total			

The cost of preferred stock will be preferred stock dividends (booked in FERC Account 437) divided by the average preferred stock balance for the rate year.

235 Preferred Dividends in Account 437

236 13 Month average balance of Preferred Stock

237 Cost of Preferred Stock

To the extent that the stated incentitive return is limited by the top of the range of reasonableness, the returns on equity applied to the various projects and facilities shall not produce an overall company return exceeding the top of the range of reasonableness.

#### Attachment 5 - Financing Costs for Long Term Debt using the Internal Rate of Return Methodology New York Transco LLC Estimated

Assumes financing will be a 5 year loan with Origination Fees of \$2.1 million and a Commitments Fee of 0.3% on the undrawn principal. Consistent with GAAP, the Origination Fees and Commitments Fees will be amortized using the standard Internal Rate of Return formula below. Each year, the amounts withdrawn, the interest paid in the year, Origination Fees, Commitments Fees, and total loan amount will be updated on this attachment.

These depreciation rates will not change absent the appropriate filing at FERC.

Note 1: In the event a Contribution in Aid of Construction (CIAC) is made for a transmission facility, the transmission depreciation rates above will be weighted based on the relative amount of underlying plant booked to the accounts shown in lines 1-7 above and the weighted average depreciation rate will be used to amortize the CIAC.

## 36.3.1.2 Formula Rate Implementation Protocols

The formula rate template ("Template") and these Formula Rate Implementation Protocols ("Protocols") together comprise the filed rate ("Formula Rate") of NY Transco for transmission revenue requirement determinations under the ISO OATT. NY Transco shall follow the instructions specified in the Formula Rate to calculate annually its Net Adjusted Revenue Requirement, as set forth at page 1, line 5 of the Template ("Net Adjusted Revenue Requirement"). The Net Adjusted Revenue Requirement shall be determined for January 1 to December 31 of a given calendar year (the "Rate Year"). The Formula Rate shall become effective for recovery of NY Transco's Net Adjusted Revenue Requirement upon the effective date for incorporation into the ISO OATT through an appropriate filing with the Federal Energy Regulatory Commission ("FERC" or "Commission") under Section 205 of the Federal Power Act ("FPA").

## Section 1. Annual Projection

a. No later than September 30 preceding the first Rate Year, and each subsequent
 Rate Year, NY Transco shall determine its projected Net Adjusted Revenue
 Requirement for the upcoming Rate Year in accordance with NY Transco's
 Formula Rate ("Annual Projection"). The Annual Projection shall include the
 True-up Adjustment described and defined in Section 2 below, if applicable. NY
 Transco shall cause an electronic version of the Annual Projection to be posted in
 both a Portable Document Format and fully-functioning Excel file at a publicly
 accessible location on ISO's internet website. Such posting shall include (i) all
 inputs in sufficient detail to identify the components of NY Transco's projected
 Net Adjusted Revenue Requirement, and (ii) explanations of the bases for the

projections and input data. If the date for making such posting of the Annual Projection should fall on a weekend or a holiday recognized by FERC, then the posting shall be made no later than the next business day. NY Transco shall electronically serve each Annual Projection upon the Service List.⁴

- b. If NY Transco makes changes in the Annual Projection for a given Rate Year, NY
   Transco shall cause such revised Annual Projection to be promptly posted at a
   publicly accessible location on the ISO internet website and shall electronically
   serve a link to the website upon the Service List. Changes posted prior to
   November 30 of the preceding Rate Year, or the next business day if November
   30 is not a business day (or such later date as can be accommodated under the
   ISO's billing practices), shall be reflected in the Annual Projection for the Rate
   Year; changes posted after that date will be reflected, as appropriate, in the True up Adjustment for the Rate Year.
- <u>c.</u> The Annual Projection, including the True-Up Adjustment, for each Rate Year
   <u>shall be subject to review, challenge, true-up and refunds or surcharges with</u>
   <u>interest, to the extent and in the manner provided in these Protocols.</u>

## Section 2. True-up Adjustment

<u>NY Transco will calculate the amount of under- or over-collection of its actual Net</u> <u>Revenue Requirement, as set forth at page 1, line 3 of the Template during the preceding Rate</u> <u>Year ("True-up Adjustment") after the FERC Form No. 1 data for that Rate Year has been filed</u>

⁴ As used in these protocols, "Service List" shall mean (i) the email list of ISO OATT Transmission Customers maintained by the ISO; (ii) any state regulatory agency with rate jurisdiction over a public utility located within the ISO footprint; and (iii) any consumer advocate agency authorized by state law to review and contest the rates for any such public utility, provided such consumer advocate agency requests to be placed on the Service List and provides an e-mail address to NY Transco.

with the Commission. The True-up Adjustment shall be the sum of components a and b, determined in the following manner:

NY Transco's projected Net Revenue Requirement collected during the previous a. Rate Year⁵ will be compared to <u>NY Transco's actual Net Revenue Requirement</u> for the previous Rate Year calculated in accordance with NY Transco's Formula Rate and based upon (i) NY Transco's FERC Form No. 1 for that same Rate Year, (ii) any FERC orders specifically applicable to NY Transco's calculation of its annual revenue requirement, (iii) the books and records of NY Transco (which shall be maintained consistent with the FERC Uniform System of Accounts ("USofA")), (iv) FERC accounting policies and practices applicable to the calculation of annual revenue requirements under formula rates, and (v) any aspects of the ISO OATT and other governing documents that apply to the calculation of annual revenue requirements under individual transmission owner formula rates, to determine any over- or under-recovery ("True-up Adjustment Over/Under Recovery"). NY Transco will include a variance analysis of, at minimum, actual revenue requirement components of rate base, operating and maintenance expenses, depreciation expense, taxes, return on rate base, and revenue credits as compared to the corresponding components in the projected revenue requirement that was calculated for the prior Rate Year with an explanation of material changes.

⁵ If the initial year of this rate schedule is a partial year, the initial projected Net Revenue Requirement will be divided by the number of months the Formula Rate is in effect to calculate the monthly projected cost of service to be collected each month of the first year. Similarly, the actual Net Revenue Requirement will be divided by the number of months the rate is in effect to calculate the actual cost of service to be collected each month of the first year. The first True-up Adjustment will compare the projected Net Revenue Requirement billed and the actual Net Revenue Requirement for that initial Rate Year.

 <u>b.</u> Interest on any True-up Adjustment Over/Under Recovery of the actual Net
 <u>Revenue Requirement shall be calculated in accordance with the Formula Rate</u> <u>true-up worksheet.</u>

## Section 3. Annual Update

- a. On or before June 30 following each Rate Year, NY Transco shall calculate its
   actual Net Adjusted Revenue Requirement, including the True-up Adjustment as
   described in Section 2 ("Annual Update") for such Rate Year, and shall cause
   such Annual Update to be posted, in both a Portable Document Format and fully functioning Excel format containing the populated template for that year's update,
   at a publicly accessible location on the ISO internet website, and electronically
   serve a link to the website upon the Service List. In addition, the Annual Update
- b. If the date for making the Annual Update posting should fall on a weekend or a holiday recognized by the FERC, then the posting shall be due on the next business day.
- c. The date on which the last of the events listed in Section 3.a or 3.b occurs shall be that year's "Publication Date."
- d. Together with the posting of the Annual Update, NY Transco shall cause to be posted on the ISO website the time, date and location for a stakeholder meeting with (i) any Eligible Customer under the ISO OATT; (ii) any regulatory agency with rate jurisdiction over a public utility located within the ISO footprint; (iii) any consumer advocate authorized by state law to review and contest the rates for any such public utility, or (iv) any party with standing under FPA Section 205 or

206 (collectively, "Interested Persons") in order for NY Transco to explain its Annual Update and to provide Interested Persons an opportunity to seek information and clarifications regarding the Annual Update ("Stakeholder Meeting"). The Stakeholder Meeting shall be held no less than twenty (20) business days and no more than thirty (30) business days after June 30.

- e. The Annual Update for the Rate Year:
- (i) Shall provide, via the Formula Rate worksheets, sufficiently detailed supporting
   <u>documentation for data (and all adjustments thereto or allocations thereof) used in</u>
   <u>the Formula Rate that are not stated in the FERC Form No. 1;⁶</u>
- (ii) Shall provide notice of changes in NY Transco's accounting policies and practices from those in effect for the calendar year upon which the immediately preceding Annual Update was based that affect the Formula Rate or calculation of the Annual Update ("Accounting Change(s)"). Accounting Changes may include:
  (1) the initial implementation of an accounting standard or policy, (2) the initial implementation of accounting practices for unusual or unconventional items where FERC has not provided specific accounting direction, (3) corrections of errors and prior period adjustments, (4) the implementation of new estimation methods or policies that change prior estimates, and (5) changes to income tax elections. Such notice shall also include (1) those changes that, in NY Transco's reasonable judgment, could impact the Formula Rate or the calculations under the

⁶ It is the intent of the Formula Rate, including the supporting explanations and allocations described therein, that each input to the Formula Rate for purposes of determining the actual Net Adjusted Revenue Requirement for a given Rate Year will be either taken directly from the FERC Form No. 1 or reconcilable to the FERC Form No. 1 by the application of clearly identified and supported information. If the referenced form is superseded, the successor form(s) shall be utilized and supplemented as necessary to provide equivalent information as that provided in the superseded form. If the referenced form is discontinued, equivalent information as that provided in the discontinued form shall be utilized.

Formula Rate within the next three years; and (2) any changes in the ISO OATT from the provisions of the ISO OATT in effect during the calendar year upon which the most recent Net Revenue Requirement was based and that, in NY Transco's reasonable judgment, could impact the Formula Rate or the calculations under the Formula Rate within the next three years.

- (iii) Shall be subject to review and challenge in accordance with the procedures set forth in Sections 4, 5, and 6 of these Protocols.
- (iv) Shall be subject to review and challenge in accordance with the procedures set forth in these Protocols with respect to the prudence of any costs and expenditures included for recovery in the Annual Update; provided, however, that nothing in these Protocols is intended to modify the Commission's applicable precedent with respect to the burden of going forward or burden of proof under formula rates in such prudence challenges; and
- (v) Shall not seek to modify the Formula Rate and shall not be subject to challenge by any Interested Person seeking to modify the Formula Rate. (*i.e.*, any modifications to the Formula Rate will require, as applicable, an FPA Section 205 or Section 206 filing or initiation of a Section 206 investigation).
- f. The following Formula Rate inputs shall be stated values to be used in the
   Formula Rate until changed pursuant to an FPA Section 205 or 206 proceeding:

   (i) rate of return on common equity ("ROE"); (ii) "Post-Employment Benefits
   other than Pensions" pursuant to Statement of Financial Accounting Standards
   No. 106, Employers' Accounting for Postretirement Benefits Other Than

   Pensions ("PBOP") charges; and (iii) the depreciation and/or amortization rates as

set forth in Attachment 9 to the Formula Rate template.

## g. Example – Timeline for 2015 Annual Update:

On or before September 30, 2013, NY Transco will determine the projected Net Adjusted Revenue Requirement for the 2014 Rate Year, which is expected to be the first year that costs are recovered from ISO customers under the Formula Rate. NY Transco will post the Annual Projection for the 2014 Rate Year in accordance with Section 1 above. NY Transco will not determine a Trueup Adjustment or post an Annual Update on August 1, 2014 if no costs have been recovered under the Formula Rate during 2013. On or before September 30, 2014, NY Transco will post the Annual Projection for the 2015 Rate Year. On or before August 1, 2015, NY Transco will post its first Annual Update, consisting of the True-up Adjustment for the 2014 Rate Year determined pursuant to Section 2 above. Such True-up Adjustment will be reflected in the Annual Projection of the Net Adjusted Revenue Requirement for the 2016 Rate Year posted on or before September 30, 2015. The Annual Update posted August 1, 2015 will be subject to the customer review and challenge procedures described in Sections 4, 5, and 6 of these Protocols.

## Section 4. Annual Review Procedures

Each Annual Update shall be subject to the following review procedures ("Annual Review Procedures"):

a. Interested Persons shall have up to the latest of one hundred fifty (150) calendar days after the Publication Date, thirty (30) calendar days after the receipt of all responses to timely submitted information requests (unless such period is extended with the written consent of NY Transco), or thirty (30) calendar days after resolution of a dispute that does not result in the production of additional information ("Review Period"), to review the calculations and to notify NY Transco in writing of any specific challenges, including challenges related to Accounting Changes, to the Annual Update ("Preliminary Challenge"). NY Transco shall promptly cause to be posted all Preliminary Challenges at a publicly accessible location on the ISO internet website and a link to the website will be electronically served upon the Service List.

NY Transco shall respond in writing to a Preliminary Challenge within twenty (20) business days of receipt, and its response shall notify the challenging party of the extent to which NY Transco agrees or disagrees with the challenge. If NY Transco disagrees with the Preliminary Challenge, its response shall include supporting documentation. NY Transco shall promptly cause to be posted responses to all Preliminary Challenges at a publicly accessible location on the ISO internet website and a link to the website will be electronically served upon the Service List.

b. Interested Persons shall have up to one hundred twenty (120) calendar days after
 each annual Publication Date (unless such period is extended with the written
 consent of NY Transco) to serve reasonable information requests on NY Transco.
 Information requests shall be limited to what is necessary to determine if: (i) NY
 Transco has properly calculated the Annual Update under review (including any
 corrections pursuant to Section 6); (ii) the costs included in the Annual Update are
 properly recordable and recorded, prudently incurred, and otherwise consistent

with NY Transco's accounting policies, practices and procedures consistent with the USofA; (iii) the input data used in the Annual Update are accurate and correctly used in the Formula Rate; and (iv) the Formula Rate has been applied according to its terms, including the procedures in these Protocols. Information requests shall not solicit information concerning costs or allocations where the costs or allocation methods have been determined to be appropriate by FERC in the context of prior NY Transco Annual Updates, except that such information requests shall be permitted if they (i) seek to determine if there has been a change in circumstances, (ii) are in connection with corrections pursuant to Section 6, or (iii) relate to costs or allocations that have not previously been challenged and adjudicated by FERC. NY Transco shall cause any information requests received to be posted at a publicly accessible location on the ISO internet website and shall electronically serve a link to the website upon the Service List.

<u>c.</u> NY Transco shall make a good faith effort to respond to information requests
 pertaining to the Annual Update within ten (10) business days of receipt of such
 requests.

<u>To the extent NY Transco and any Interested Person(s) are unable to</u> resolve disputes related to information requests submitted in accordance with these Annual Review Procedures, NY Transco or any Interested Person may petition the FERC to appoint an Administrative Law Judge as a discovery master to resolve the discovery dispute(s) in accordance with these Protocols and consistent with the FERC's discovery rules.

d. Preliminary Challenges, or Formal Challenges as described in Section 5 below,

related to Accounting Changes shall be treated in the same manner under these Protocols as other challenges to the Annual Update. Failure to make a Preliminary Challenge with respect to an Accounting Change in an Annual Update shall not act as a bar with respect to a Formal Challenge with respect to that Annual Update, nor shall such failure bar a subsequent Preliminary Challenge related to a subsequent Annual Update to the extent such Accounting Change affects the subsequent Annual Update.

e. If a change made by NY Transco to its accounting policies, practices or
procedures, or their application to the Formula Rate, pursuant to Section 3(e)(ii)
of these Protocols is found by the FERC to be unjust, unreasonable, and/or unduly
discriminatory or preferential, then the calculation of the charges to be assessed
during the Rate Year then under review, and the charges to be assessed during any
subsequent Rate Years, including any True-up Adjustments, shall not include
such change, but shall include any lawful remedy that may be prescribed by
FERC to ensure that the Formula Rate continues to operate in a manner that is
just, reasonable, and not unduly discriminatory or preferential.

## Section 5. Resolution of Challenges

<u>a.</u> NY Transco shall appoint a senior representative to attempt to resolve any
 <u>Preliminary Challenge. If NY Transco and any Interested Person have not</u>
 <u>resolved any Preliminary Challenge to the Annual Update within sixty (60)</u>
 <u>calendar days after the end of the Review Period (unless such period is extended</u>
 <u>with the written consent of NY Transco to continue efforts to resolve the</u>
 <u>Preliminary Challenge</u>, such Interested Person may, within thirty (30) calendar

days thereafter, file a challenge with the FERC, pursuant to 18 C.F.R. § 385.206 ("Formal Challenge"), which shall be served on NY Transco by electronic service on the date of such filing. Subject to any applicable confidentiality and Critical Energy Infrastructure Information restrictions, all information and correspondence produced by NY Transco pursuant to these Protocols may be included in any Formal Challenge or other FERC proceeding relating to the Formula Rate.

- b. Any response by NY Transco to a Formal Challenge must be submitted to the FERC within thirty (30) calendar days of the date of the filing of the Formal Challenge, and NY Transco shall serve on the filing party(ies) and the Service List by electronic service on the date of such filing.
- c. In any proceeding concerning a given year's Annual Update (including corrections) or Accounting Change(s), NY Transco shall demonstrate the justness and reasonableness of the rate resulting from its application of the Formula Rate by demonstrating that it has reasonably and accurately calculated the Annual Update and/or reasonably adopted and applied the Accounting Change.
- d. Except as specifically provided herein, nothing herein shall be deemed to limit in any way the right of NY Transco to file unilaterally, pursuant to Section 205 of the FPA and the regulations thereunder, an application seeking changes to the Formula Rate or to any of the stated value inputs requiring a Section 205 filing under these Protocols (including, but not limited to, ROE, depreciation and amortization rates, and PBOPs), or the right of any other party or the Commission to seek such changes pursuant to Section 206 of the FPA and the regulations thereunder.

e. NY Transco may, at its discretion and at a time of its choosing, make a limited filing pursuant to Section 205 to modify stated values in the Formula Rate for amortization and depreciation rates, or PBOP rates. The sole issue in any such limited Section 205 proceeding shall be whether such proposed change(s) is just and reasonable, and it shall not address other aspects of the Formula Rate.

## Section 6. Changes to Annual Updates

If NY Transco determines or concedes that corrections to the Annual Update are required, whether under Sections 4 or 5 of these Protocols, including but not limited to those requiring corrections to its FERC Form No. 1, or input data used for a Rate Year that would have affected the Annual Update for that Rate Year, NY Transco shall promptly notify the Service List, file a correction to the Annual Update with the FERC as an amended informational filing, and cause such information to be posted at a publicly accessible location on the ISO internet website. Such corrections shall be subject to review at the time they are made and shall be reflected in the next Annual Update, with interest. A corrected posting shall reset the deadlines under Section 4 and 5 of the Protocols for Interested Person review and the revised dates shall run from the posting date(s) for each of the corrections. The scope of review shall be limited to the aspects of the Formula Rate affected by the corrections. Interest on any over- or underrecovery due to corrections for preceding True-up Adjustments shall be calculated monthly on such over- or under-recovery from January 1 of the corrected Rate Year through December 31 of the Rate Year in which such over- or under-recovery is reflected ("Correction Period"). The applicable monthly interest rates for the Correction Period for an over-recovery shall be determined in accordance with the Formula Rate true-up worksheet divided by twelve (12) for each month from the beginning of the Correction Period through December 31 of the Rate Year

immediately preceding the Rate Year in which such over-recovery is reflected. The applicable monthly interest rates for the Correction Period for an under-recovery shall be the annual interest rate determined in accordance 18 C.F.R § 35.19a divided by twelve (12) for each month from the beginning of the Correction Period through December 31 of the Rate Year immediately preceding the Rate Year in which such under-recovery is reflected.

## Section 7. Construction Work in Progress

- <u>Accounting.</u> For each transmission project for which NY Transco has been authorized by a Commission order to include Construction Work in Progress ("CWIP") in transmission rate base ("CWIP Project"), NY Transco shall use the following accounting procedures to ensure that it does not recover an Allowance for Funds Used During Construction ("AFUDC") for such project.
- (i) NY Transco shall assign each CWIP Project a unique Funding Project Number
   ("FPN") for internal cost tracking purposes. For a CWIP Project for which the
   NY Transco is recovering 50% of CWIP in rate base, two FPNs will be assigned,
   one reflecting the CWIP balance in rate base and the other reflecting the
   balancing accruing AFUDC.
- (ii) NY Transco shall record actual construction costs to each FPN through work orders that are coded to correspond to the FPN for each CWIP Project. Such work orders shall be segregated from work orders for transmission projects for which the Commission has not authorized NY Transco to include CWIP in rate base.
- (iii) For each CWIP Project, NY Transco shall ensure that no AFUDC will be accrued under the associated FPN.

- (iv) For transmission projects for which the Commission has not authorized NY Transco to include CWIP in rate base, NY Transco shall record AFUDC to be applied to CWIP and capitalized when the project is placed into service.
- b. Annual Reporting. For each CWIP Project, NY Transco shall file a report with the Commission at the time of NY Transco's Annual Update that shall include the following information concerning each such project:
- (i) the actual amount of CWIP recorded for each project;
- (ii) any amounts recorded in related FERC accounts or subaccounts, such as AFUDC and regulatory liability;
- (iii) the resulting effect of CWIP on the revenue requirement;
- (iv) a statement of the current status of each project; and the estimated in-service date for each project.
